2006-2007 Estimates

Parts I and II
The Government Expense Plan
and Main Estimates

ESTIMATES

Canada

The Estimates Documents

Each year, the government prepares Estimates in support of its request to Parliament for authority to spend public monies. This request is formalized through the tabling of appropriation bills in Parliament. The Estimates, which are tabled in the House of Commons by the President of the Treasury Board, consist of:

Part I – The Government Expense Plan provides an overview of federal spending and summarizes the key elements of the Main Estimates.

Part II – The Main Estimates directly support the *Appropriation Act*. The Main Estimates identify the spending authorities (votes) and amounts to be included in subsequent appropriation bills. Parliament will be asked to approve these votes to enable the government to proceed with its spending plans. Parts I and II of the Estimates are tabled concurrently on or before March 1.

Part III – Departmental Expenditure Plans, which is divided into two components:

- 1) **Reports on Plans and Priorities (RPPs)** are individual expenditure plans for each department and agency (excluding Crown corporations). These reports provide increased levels of detail over a three-year period on an organisation's main priorities by strategic outcome(s), program activity(s) and planned/expected results, including links to related resource requirements. The RPPs also provide details on human resource requirements, major capital projects, grants and contributions, and net program costs. They are tabled in Parliament by the President of the Treasury Board on behalf of the ministers who preside over the appropriation dependent departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*. These documents are usually tabled on or before March 31 and referred to committees, which may then report to the House of Commons pursuant to Standing Order 81(4).
- 2) **Departmental Performance Reports (DPRs)** are individual department and agency accounts of results achieved against planned performance expectations as set out in respective RPPs. These Performance Reports, which cover the most recently completed fiscal year, are tabled in Parliament in the fall by the President of the Treasury Board on behalf of the ministers who preside over the appropriation dependent departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*.

Supplementary Estimates directly support an *Appropriation Act*. The Supplementary Estimates identify the spending authorities (votes) and amounts to be included in the subsequent appropriation bill. Parliamentary approval is required to enable the government to proceed with its spending plans. Supplementary Estimates are normally tabled twice a year, the first document in early November and a final document in early March. Each Supplementary Estimates document is identified alphabetically A, B, C, etc. Under special circumstances, more than two Supplementary Estimates documents can be published in any given year.

The Estimates, along with the Minister of Finance's Budget, reflect the government's annual budget planning and resource priorities. In combination with the subsequent reporting of financial results in the Public Accounts and of accomplishments achieved in Departmental Performance Reports, this material helps Parliament hold the government to account for the allocation and management of public funds.

2006–2007 Estimates

Part I The Government Expense Plan

Part I – The Government Expense Plan

Overview:

The Main Estimates present information on both budgetary and non-budgetary spending authorities.

Budgetary Main Estimates:

Budgetary expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations. These Main Estimates support the government's request for Parliament's authority to spend \$70.2 billion under program authorities that require Parliament's annual approval of their spending limits. The remaining \$128.4 billion is statutory and the detailed forecasts are provided for information purposes only.

Non-Budgetary Main Estimates:

Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada. The 2006-2007 Main Estimates include a forecast decrease in non-budgetary spending authorities of \$567.2 million over the 2005-2006 Main Estimates. Voted non-budgetary spending authorities set out in these Estimates amount to \$123.4 million. The remaining \$999.5 million is pursuant to enabling legislation.

Table 1: Total Main Estimates

(millions)	2006-2007			2005-2006			Change in Total Spending	
	Non-		Total	Non-		Total	\$	%
	Budgetary	Budgetary		Budgetary	Budgetary			
Voted	70,205.0	123.4	70,328.4	66,050.0	84.5	66,134.5	4,193.9	6.3
Statutory	128,389.9	999.5	129,389.4	119,813.4	1,605.6	121,419.0	7,970.4	6.6
Total Main Estimates	198,594.9	1,122.9	199,717.8	185,863.4	1,690.1	187,553.5	12,164.3	6.5

In total, the 2006-2007 Main Estimates have increased by \$12.2 billion or 6.5% relative to the 2005-2006 Main Estimates. This is accounted for by an increase of \$12.7 billion in budgetary spending and a decrease of \$567.2 million in non-budgetary spending.

Budgetary Main Estimates – A net \$12.7 billion increase

These Main Estimates represent the expenditure plan for fiscal year 2006-2007, and are consistent with the spending plans outlined in the February 2005 Budget.

Table 2 below presents the total planned budgetary expense of \$205.1 billion for 2006-2007. Of that amount, \$34.4 billion is for public debt charges and \$170.7 billion is for program spending. Overall, total budgetary expenses in the 2006-2007 Main Estimates have increased by \$10.2 billion relative to the 2005-2006 Main Estimates.

Adjustments to reconcile to the 2005 Budget ¹²	9,000.0	6,505.1	-2,494.9	-27.7
Total Budgetary Expenses¹³	194,863.4	205,100.0	10,236.6	5.3

¹ Fiscal Equalization refers to unconditional transfer payments to lower-income provinces so that they can provide their residents with public services that are reasonably comparable to those in other provinces, at reasonably comparable levels of taxation.

² The Canada Health Transfer (CHT) is a federal transfer provided to each province and territory in support of provincial health care. CHT funding is provided through cash payments and tax transfers and is subject to the five principles of the *Canada Health Act* and the prohibition of minimum residency requirements for social assistance.

³ The Canada Social Transfer (CST) is a federal block transfer to provinces and territories in support of post-secondary education, social assistance and social services, including early childhood development and early learning and childcare. The CST is made up of both a cash transfer and tax transfer component and is allocated on a per capita basis to ensure equal support to all Canadians regardless of their province or territory of residence. The CST supports the Government's commitment to prohibit minimum residency requirements for social assistance.

⁴ The Health Reform Transfer (HRT) was originally created as part of the 2003 First Ministers' Accord on Health Care Renewal to focus on primary health care, home care and catastrophic drug coverage. This program has now been combined with the CHT.

⁵ Territorial Governments payments are federal transfers to the Governments of Nunavut, the Northwest Territories, and Yukon designed to enable the territories to provide the same range of services as the provincial governments provide. For 2006-2007, these funds have been combined with the new Territorial Financing program.

⁶ Territorial Financing payments are federal transfers provided to the territorial governments to assist them in providing public services. The transfers are based on a formula that fills the gap between the expenditure requirements and revenue-raising capacity of the territories.

⁷ Alternative Payments for Standing Programs represent recoveries from Quebec of an additional tax point transfer above and beyond the tax point transfer under the CHT and the CST. This amount reflects the most current forecast.

⁸ Youth Allowance Recovery relates to tax points transferred to the province of Quebec for the Youth Allowance program, which has since expired. The equivalent value of the tax point reduction is recovered from the federal cash transfers to the province. This amount reflects the most current forecast.

⁹ Elderly Benefits are basic income support to seniors provided by the Government of Canada through Old Age Security Pensions, the Guaranteed Income Supplement, and both the Allowance and the Allowance for the Survivor benefits. It also includes earnings-related pension and insurance benefits provided under the Canada and Quebec Pension Plans. This amount reflects the most current forecast.

¹⁰ Employment Insurance (EI) provides temporary financial assistance for unemployed Canadians while they look for work or upgrade their skills. Canadians who are sick, pregnant or caring for a newborn or adopted child, as well as those who must care for a family member who is seriously ill with a significant risk of death, may also be assisted by EI. This amount reflects the most current forecast.

¹¹ Payments made to meet commitments made by Canada under multilateral debt service reduction agreements (see Table 11 – page 1-17).

¹² This includes adjustments for the impact of accrual accounting, expenses charged to previous years and an anticipated lapse. It also includes expenses not yet allocated for initiatives that require further development or legislation.

¹³ Total budgetary expenses are consistent with Budget 2005 with the exceptions, as noted above, where current forecasts of the statutory obligations have been reflected. In addition, public debt charges also reflect the most current forecast.

Part I – The Government Expense Plan

Program Spending by Sector

In this section, program spending is set out by sector and, within each sector, by federal department and agency. While some sectors show a decline in spending in 2006-2007, others are showing increases that, in part, reflect measures announced in the 2005 Budget. In addition to the explanatory details provided on each of the sectors, a major driver of changed spending that applies to all departments and agencies is collective bargaining, and some \$1.2 billion in collectively-bargained wage and salary increases are reflected in these Estimates.

The table below summarizes program spending by sector.

Table 3: Program Spending by Sector

(\$ thousands)	Main Estimates		Change in Spending		% of Total
	2005-2006	2006-2007	\$	%	
1. Social Programs (including Major Transfers) ¹⁴	83,208,350	90,357,135	7,148,785	8.6	45.5
2. Cultural Programs	3,357,453	3,881,307	523,854	15.6	2.0
3. Environment and Resource-based Programs	6,239,585	6,838,539	598,954	9.6	3.4
4. Industrial, Regional, and Scientific-Technological Support Programs	5,926,844	6,829,751	902,907	15.2	3.4
5. Transportation Programs	1,545,867	1,474,476	-71,391	-4.6	0.7
6. Justice and Legal Programs	1,518,784	1,627,395	108,611	7.2	0.8
7. Security and Public Safety Programs	5,330,509	6,024,648	694,139	13.0	3.0
8. International, Immigration and Defence Programs	20,479,791	22,117,546	1,637,755	8.0	11.1
9. Parliament and Governor General	519,667	543,830	24,163	4.6	0.3
10. General Government Services (including Major Transfers) ¹⁵	20,891,833	23,433,366	2,541,533	12.2	11.8
11. Public Debt Charges	35,887,000	34,395,000	-1,492,000	-4.2	17.3
12. Items not allocated to a specific department ¹⁶	957,719	1,071,913	114,194	11.9	0.5
Total Program Spending	185,863,402	198,594,906	12,731,504	6.8	100.0

The largest portion of program spending is devoted to social programs, which accounts for \$90.4 billion or 45.5% of the total program spending for 2006-2007. Of the remainder, spending on public debt charges, international, immigration and defence programs, and general government services accounts for an additional \$79.9 billion or 40.3% of total spending.

The remainder of this section examines each of the ten sectors in more detail.

¹⁴ Major transfers for Social Programs include: Employment Insurance, Elderly Benefits, the Canada Health Transfer, and the Canada Social Transfer. For 2006-2007, the Health Reform Transfer has been included in the Canada Health Transfer.

¹⁵ Major transfer payments within General Government Services include transfers to territorial governments and equalization payments.

¹⁶ This represents administrative charges associated with the provision of the Employment Insurance Plan.

Part I – The Government Expense Plan

1 - Social Programs

This sector comprises those departments and agencies that deliver programs which aim to promote the health and well-being of Canadians and foster equality of access to the benefits of Canadian society. The federal government attains these objectives through direct program spending, transfers to persons and transfers to other levels of government. These departments include Health, Human Resources and Skills Development, Indian Affairs and Northern Development, and Veterans Affairs.

Table 4 breaks down planned spending on social programs by department, corporation and agency as follows:

Table 4: Social Programs

Total Program Spending	83,208,350	90,357,135	7,148,785	8.6

Details

As presented in these Main Estimates, spending in social programs in 2006-2007 is estimated at \$90.4 billion, which represents by far the largest component of total program spending at 45.5%. Of this amount, \$19.8 billion or 21.9% will be for direct program spending, and \$70.6 billion or 78.1%, will be for transfer payments. Compared to the previous year, social program spending in 2006-2007 is set to increase by \$7.1 billion or 8.6%.

Part I – The Government Expense Plan

The following are some of the major drivers affecting the change in spending levels in the social programs sector:

- The \$1.0 billion net increase for the Ministry of Human Resources and Skills Development is focused on increased requirements for the two departments and the Canada Mortgage and Housing Corporation.
 - The department of Human Resources and Skills Development is seeking an increase in net budgetary spending of some \$288.6 million in operating costs and grant payments. Major items in the operating area include additional funding for: the Canada Learning Bond which will provide education savings for children in families entitled to the National Child Benefit Supplement; a three-year pilot project to calculate benefits based on the best 14 weeks of earnings; and the Canada-Quebec Parental Insurance Plan¹⁷. There is also a \$226.9 million increase in grants for three items – the Canada Education Savings Grant, introduction of the Canada Learning Bond and the Canada Study Grant.
 - The Canada Mortgage and Housing Corporation is seeking a net increase of some \$41.3 million for the Renovation Rehabilitation Assistance Program and the First Nations Housing On Reserves Program.
 - The proposed spending increase of \$720.4 million for the Department of Human Resources and Skills Development (Social Development) is mainly due to an increase of \$655.1 million in contributions and other transfer payments for the Early Learning and Childhood Care Program and to the Understanding the Early Years Initiative.
- The proposed \$364.2 million increase in funding for the Department of Indian Affairs and Northern Development is in three areas: additional operating costs, mainly for the assessment, management and remediation of contaminated sites; additional grant funding primarily attributable to funding for the certificate of Indian Status and expected land purchases pursuant to the Marshall strategy; and an increase in contributions and other transfer payments to address such issues as housing, increases for ongoing Indian and Inuit programs and services and the settlement of specific and comprehensive claims and adjustments.
- The proposed \$349.7 million in increased funding for the Department of Veterans Affairs is primarily a result of a \$272.7 million increase in grants and a \$72.5 million increase in operating costs. The increase in grant funding is for Disability Awards and Allowances, and the Loss of Earnings Program, which is part of the new suite of programs for Canadian Forces members and their families under the new Veterans Charter. The rise in operating costs covers such items as an increase in other health purchased services due to growth in the number of clients and transactions, inflation and collective agreements.
- In the health area, the \$270.9 million increase focuses mainly on spending in the Department of Health, the Canadian Institutes of Health Research and the Public Health Agency.
 - In the case of Health, a net increase of \$119.7 million is being sought, with First Nations and Inuit Health requiring funding for a wide variety of initiatives ranging from measures in support of Aboriginal health to the establishment of the Territorial Medical Travel Fund and the Territorial Health Access Fund. Additional funding is also being sought to strengthen regulatory oversight for the Health Products and Food and the Healthy Environments and Consumer Safety activities.
 - The Public Health Agency is seeking an increase of \$83.5 million for a variety of items including an integrated public health strategy to reduce the impact of chronic disease by promoting healthy living,

¹⁷ This is a new plan introduced by the Quebec Government effective January 1, 2006. Up to that date, employees of the province of Quebec received their parental benefits through the Employment Insurance Program, the same as for all employees across Canada. In 2005, Quebec and Canada signed an agreement whereby Quebec would introduce its own parental insurance plan. As part of this agreement, Canada agreed that the employees and employers' contributions to the EI fund would be reduced for employees working in Quebec. Alternatively, employees and employers would pay the new premiums for the Canada-Quebec Parental Insurance Plan.

Part I – The Government Expense Plan

including specific initiatives to: combat diabetes, cancer and cardiovascular disease; improve the capacity to detect and respond to a potential pandemic influenza outbreak; address identified gaps in public health, and strengthen initiatives in support of the Canadian Strategy on HIV/AIDS in Canada.

- The Canadian Institutes of Health Research is seeking an increase of \$55.8 million, of which \$51.8 million is to help support new researchers and translate discoveries into commercial and social benefits for citizens across Canada.

The significant drivers of the increase in transfer payments for other social programs are:

- As part of the 10-Year Plan to Strengthen Health Care, Budget 2005 integrated the Health Reform Transfer with the Canada Health Transfer, representing a net increase of \$4.6 billion over 2005-2006. In addition, the Canada Social Transfer has been increased by \$275 million in 2006-2007, bringing the total amount to \$8.5 billion.
- Changes to both the Alternative Payments for Standing Programs and the Youth Allowances Recovery are due to an increase in the value of personal income tax points, which is a key variable in calculating these recoveries.
- Major transfers to persons are projected to increase by a net of \$1.5 billion, reflecting higher elderly benefits due to the growth in the elderly population and an increase in average benefits, which are fully indexed to quarterly changes in consumer prices. The slight decrease in Employment Insurance benefits reflects the projected decrease in the number of people eligible for benefits because of lower unemployment levels.

2 - Cultural Programs

This sector comprises those departments and agencies that deliver programs which support the growth and development of Canadian cultural life, participation and equity in Canadian society, the nation's linguistic duality and diverse multicultural heritage, and the preservation of its national parks, historic sites and heritage. These organizations include the Department of Canadian Heritage and its associated agencies as well as certain Crown corporations and departmental agencies.

Part I – The Government Expense Plan

Table 5 breaks down planned spending on heritage and cultural programs by department, Crown corporation and agency as follows:

Table 5: Cultural Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Canadian Heritage				
Department	1,118,042	1,384,621	266,579	23.8

Transport				
National Capital Commission	88,557	91,370	2,813	3.2
Total Program Spending	3,357,453	3,881,307	523,854	15.6

Details

As presented in these Main Estimates, spending in the cultural programs sector in 2006-2007 is estimated at \$3.9 billion, representing 2.0% of total program spending. Compared to the previous year, cultural program spending in 2006-2007 is set to increase by \$523.9 million, or 15.6%.

The following are some of the major drivers affecting the change in spending levels in the cultural programs sector:

- The Department of Canadian Heritage's spending is increasing by \$266.6 million or 23.8%. This is due to an increase of \$242.0 million in grants, contributions and other transfer payments and \$24.6 million in operating costs. The main components of the increase are support for the 2010 Vancouver Winter Olympics; funding for the development of athletes for winter and summer sports in support of the vision for "Own the Podium", as well as additional funding for sport participation initiatives in Canada; and the renewal of the Aboriginal People's Program.
- The Canadian Broadcasting Corporation is increasing by a net of \$129.6 million due mainly to collective agreements and a one-time increment of \$60 million to supplement its radio and television programming. This funding, which was due to sunset last year, has been renewed for an additional year.

Part I – The Government Expense Plan

- Parks Canada Agency spending is increasing by \$93.5 million or 19.3% of which the major items are \$55.0 million for additional operating costs such as collective agreements and the enhancement of the agency's ability to manage ecological integrity; \$28.3 million for additional capital projects, including asset re-capitalization, the twinning of the Trans-Canada Highway through Banff National Park, and the 400th anniversary of Quebec City; and \$10.2 million for contributions under the Historic Places Initiative and the Commercial Heritage Properties Incentive Fund.
- The Library and Archives of Canada's spending is increasing by \$16.2 million for two major items - the renovation and expansion of 100 Wellington Street to accommodate the Portrait Gallery of Canada, and the fit-up and installation of two-tiered shelving for the interim collection facility in Gatineau, Quebec.

3 – Environment and Resource-based Programs

This sector comprises those departments and agencies that deliver programs that promote the sustainable development of Canada's environment, natural resources and agriculture industries. These organizations include Agriculture and Agri-Food, Environment, Fisheries and Oceans, and Natural Resources.

Table 6 breaks down planned spending on environmental and resource-based programs by department, corporation and agency as follows:

Table 6: Environment and Resource-based Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Agriculture and Agri-Food				
Department	2,153,119	2,191,678	38,559	1.8
Canadian Dairy Commission	3,202	3,513	311	9.7
Canadian Food Inspection Agency	489,031	571,529	82,498	16.9
Canadian Grain Commission	5,894	35,222	29,328	497.6
Environment				
Department	835,226	803,869	-31,357	-3.8

Canadian Environmental Assessment Agency	17,570	17,383	-187	-1.1
National Round Table on the Environment and the Economy	5,051	5,183	132	2.6
Fisheries and Oceans	1,440,052	1,513,368	73,316	5.1
Natural Resources				
Department	1,085,631	1,426,054	340,423	31.4
Atomic Energy of Canada Limited	98,838	103,749	4,911	5.0
Canadian Nuclear Safety Commission	66,330	78,671	12,341	18.6
National Energy Board	38,286	37,932	-354	-0.9
Northern Pipeline Agency	1,355	946	-409	-30.2
Total Program Spending	6,239,585	6,838,539	598,954	9.6

Details

As presented in these Main Estimates, spending in the environment and resource-based programs sector in 2006-2007 is estimated at \$6.8 billion, which represents 3.4% of total program spending. Compared to the previous year, the 2006-2007 spending in this sector is forecast to increase by \$599 million, or 9.6%.

Part I – The Government Expense Plan

The following are some of the major drivers affecting the change in spending levels in the environment and resource-based programs sector:

- The Department of Natural Resources spending is increasing by a net of \$340.4 million primarily in the area of contributions and other transfer payments. Major items in this area include payments to the Newfoundland Offshore Petroleum Resource Revenue Fund and the Nova Scotia Offshore Revenue Account¹⁸, as well as funding for the Opportunities Envelope Program¹⁹, and the Wind Power Production Incentive Program (WPPI)²⁰. These requirements are partially offset by the sunseting of the Action Plan 2000 for Climate Change combined with decreases in spending on the Ethanol Expansion Program, the Emission Reduction Program, and Technology and Innovation Programs.
- The Canadian Food Inspection Agency's spending is increasing by \$82.5 million or 16.9% for increased operating costs. Major items include funding to mitigate the impact of the Bovine Spongiform Encephalopathy (BSE) crisis, and the implementation of an invasive alien species strategy for Canada.
- Fisheries and Oceans' spending is increasing by a net of \$73.3 million in operating costs. Major items include: support for activities that address foreign over-fishing in the northwest Atlantic; implementation of measures to protect Canadian aquatic resources from serious disease; and the development of an Oceans Action Plan aimed at ensuring the sustainable development and management of Canada's oceans.
- The new Canada Emission Reduction Incentives Agency, as announced in Budget 2005, has proposed spending of \$49.4 million for the purchase of domestic and international greenhouse gas emission reduction and carbon removal credits (where credits are the real and verified units of reductions in emissions or removal/sequestration of greenhouse gases). The purchase of these credits will help Canada meet its Kyoto commitment of reducing greenhouse gas emissions to 6% below 1990 levels.
- The Department of Agriculture's spending is increasing by a net of \$38.6 million, primarily for increased operating costs. These costs are being partially offset by increased revenue generation from collaborative research agreements and services. The primary driver of the operating cost increase is collective bargaining.
- The Canadian Grain Commission's spending is increasing by \$29.3 million or 497.6% due to the provisions of a special funding arrangement, which provides financial assistance to the Canadian Grain Commission in order to maintain its levels of service.
- The Department of Environment is anticipating a net decrease in spending of \$31.4 million or 3.8%, notably in operating costs, as well as \$8.6 million in reductions in contributions and other transfer payments and \$4.6 million less in revenue generation. The reduction in operating costs is primarily due to the termination of funding on several climate change projects and the reallocation of funds for implementation of the Federal Contaminated Sites Action Plan to other government departments. Similarly, the decrease in contributions and other transfer payments is due to reduced funding for a Climate Change project (the One Tonne Challenge) and the transfer of funds for another climate change project (the Opportunities Envelope) to another government department.

¹⁸ The Government of Canada uses revenue funds and accounts to return the revenue benefits of offshore development to the provinces of Newfoundland and Labrador, and Nova Scotia (Natural Resources Canada acts as a flow-through by collecting royalties to distribute to the provinces through statutory contribution programs). In accordance with the enabling legislation, statutory payments are made to the Funds in an amount equal to federal royalties, tax rentals, forfeitures, fees and the corporate offshore income tax revenues generated (as determined by Canada Revenue Agency).

¹⁹ This 3-year \$160 million program was intended to allow the federal government to contribute funds to proposed provincial and territorial initiatives that will result in cost-effective reductions in greenhouse gas emissions within their jurisdictions.

²⁰ Launched in Budget 2001, the goal of the WPPI is to stimulate the development of new wind power capacity by providing an incentive on a per-kilowatt hour basis to electricity producers.

Part I – The Government Expense Plan

4 - Industrial, Regional and Scientific-Technological Support Programs

This sector comprises those departments, agencies and Crown corporations that deliver programs which foster economic growth and job creation through measures that stimulate private-sector investment across Canada, encourage regional development, improve the country's innovation performance, and promote a stronger science and technology capability in Canada. These organizations include Industry, the three regional development agencies, and Crown corporations, including Enterprise Cape Breton Corporation and the Cape Breton Development Corporation, as well as a number of departmental agencies.

Table 7 breaks down planned spending on industrial, regional and scientific-technological support programs by department, corporation and agency, as follows:

Table 7: Industrial, Regional and Scientific-Technological Support Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Atlantic Canada Opportunities Agency				
Department	437,912	381,748	-56,164	-12.8
Enterprise Cape Breton Corporation	8,645	8,650	5	0.1

Human Resources and Skills Development				
Canada Industrial Relations Board	11,906	12,396	490	4.1
Industry				
Department	1,330,995	1,197,582	-133,413	-10.0
Canadian Space Agency	341,614	374,093	32,479	9.5
Canadian Tourism Commission	78,823	76,526	-2,297	-2.9
Competition Tribunal	1,634	1,686	52	3.2
Copyright Board	2,514	2,580	66	2.6
National Research Council of Canada	641,696	692,421	50,725	7.9
Natural Sciences and Engineering Research Council	829,232	885,258	56,026	6.8
Social Sciences and Humanities Research Council	547,284	581,321	34,037	6.2
Standards Council of Canada	6,924	7,529	605	8.7
Natural Resources				
Cape Breton Development Corporation	56,905	66,211	9,306	16.4
Transport				
Office of Infrastructure of Canada	793,978	1,844,624	1,050,646	132.3
Western Economic Diversification	392,692	315,531	-77,161	-19.6
Total Program Spending	5,926,844	6,829,751	902,907	15.2

Details

As presented in these Main Estimates, spending in the industrial, regional and scientific-technological support programs sector in 2006-2007 is estimated at \$6.8 billion, which represents 3.4% of total program spending. Compared to the previous year, the spending level in 2006-2007 is set to increase by \$902.9 million, or 15.2%.

The following are some of the major drivers affecting the change in spending levels in the industrial, regional and scientific-technological support programs sector.

- Funding for the Office of Infrastructure of Canada is forecast to increase by \$1.1 billion, with the primary cause being an increase of \$592.5 million for the Gas Tax Fund. Additional expenditures totalling \$422.4 million are

Part I – The Government Expense Plan

allocated amongst the various Infrastructure Funds, (i.e., Canada, Municipal, Border) and reflect the priority to achieve a growing and productive economy. Also reflected is an increase of \$18.8 million for operating payments to the Old Port of Montreal Corporation Inc.

- In the case of the National Research Council of Canada, the Natural Sciences and Engineering Research Councils and the Social Sciences and Humanities Research Councils, their total spending will be increasing by \$140.8 million with most of the funding going towards grant payments to build on Canada's continuing support of research and the strengthening of research and innovation in Canada.
- The Canadian Space Agency's spending is increasing by a net of \$32.5 million, of which \$22.1 million is in operating costs and the remainder in capital and contributions and other transfer payments. The operating increase results from programming changes caused by the nature of the space business (e.g., high technological risks, schedule uncertainties/delays, long-term development cycles). Increased funding for capital is for the implementation of the new Synthetic Aperture Radar Constellation Program. The additional contribution and other transfer payments are to meet the cash flow requirements of Canada's participation in European Space Agency programs.
- Major decreases totalling \$331.5 million are impacting on sector spending in the following areas:
 - Largely due to a \$192.6 million decrease in contributions and other transfer payments and an expected reduction in revenues of \$11.2 million, Industry Canada is estimating a net decrease of \$133.4 million in spending on a number of initiatives, including: the Canada-Ontario Infrastructure Program, Structured Financing Facility to support Canadian shipbuilding, Technology Partnerships Canada, Community Access Program, SchoolNet, Youth Employment Strategy, Economic Development in Eastern Ontario, and Market Access for Least Developed Countries.
 - The three regional development agencies: Western Economic Diversification, Economic Development Agency of Canada for the Regions of Quebec, and the Atlantic Canada Opportunities Agency are showing a net decrease of \$195.8 million due mainly to a reduction in contributions and other transfer payments as a result of a reduction in resources for the Infrastructure Canada Program as projects are completed.
 - In the case of the West, the reduction is partially offset by increased spending for commemorative legacy projects related to the Alberta and Saskatchewan Centennials, and \$26.5 million for the Stronger West Initiative;
 - In Quebec, the reduction is partially offset by new spending in support of innovation and the knowledge economy, investments to improve the competitiveness of enterprises and the vitality of communities, and investments to improve the cost-competitiveness, productivity and sustainability of the textiles industry; and
 - In Atlantic Canada, the reduction reflects the phasing out of the Strategic Community Investment Fund, and a delay in project disbursements under the Atlantic Innovation Fund. This reduction is partially offset by new funding for the Innovative Communities Fund and the Community Futures Program.

5 - Transportation Programs

This sector comprises those departments, agencies and Crown corporations that deliver transportation programs. These organizations include the Department of Transport, the Canadian Transportation Agency, the Canadian Transportation Accident Investigation and Safety Board of Canada (which reports through the Privy Council Office)

Part I – The Government Expense Plan

and the Transportation Appeal Tribunal of Canada; and those administered by Crown corporations, including VIA Rail Canada and Marine Atlantic Inc.

Table 8 breaks down planned spending on transportation programs by department, corporation and agency, as follows:

Table 8: Transportation Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Transport				
Department	828,457	755,357	-73,100	-8.8
Canadian Transportation Agency	24,383	26,817	2,434	10.0
Transportation Appeal Tribunal of Canada	1,303	1,329	26	2.0
Jacques Cartier and Champlain Bridges Inc.	32,188	30,488	-1,700	-5.3
Marine Atlantic Inc.	24,533	80,980	56,447	230.1
VIA Rail Canada Inc.	169,001	169,001	0	0.0
Canadian Air Transport Security Authority	438,400	381,366	-57,034	-13.0
Privy Council				
Canadian Transportation Accident Investigation and Safety Board	27,602	29,138	1,536	5.6
Total Program Spending	1,545,867	1,474,476	-71,391	-4.6

Details

As presented in these Main Estimates, spending in the transportation programs sector in 2006-2007 is estimated at \$1.5 billion, which represents less than 1% of total program spending. Compared to the previous year, this sector's spending in 2006-2007 is set to decrease by \$71.4 million, or 4.6%.

This overall net decrease is a result of a reduction of some \$192.2 million in capital, contributions and other transfer payments and revenue increases, offset by an increase of \$116.2 million in operating costs. Major factors include:

- An increase of \$54.0 million to cover the Marine Atlantic Inc operating shortfall;
- A decrease of \$102.0 million to the highway component of the Strategic Highway Infrastructure Program as most provinces are entering the final phase of the program;
- A \$31.2 million decrease for the sunsetting of the Port Divestiture fund which was designed to let local communities and other interested groups acquire certain public ports in their areas, thereby allowing people who understand local requirements to make key decisions about their ports. This local accountability contributes to the development of a more effective and efficient port system;
- A \$15.0 million decrease for the sunsetting of the contribution to the Canadian Wheat Board for the acquisition and leasing of hopper cars;
- A net decrease of \$57.0 million in funding levels for the Canadian Air Transport Security Authority due primarily to a decrease of \$122.8 million for the near completion of the installation of pre-board screening equipment and explosive detection systems at 89 designated airports, offset by a \$65.8 million increase in planned expansion projects at Vancouver and Pearson international airports.

Part I – The Government Expense Plan

6 - Justice and Legal Programs

This sector comprises those departments and agencies that deliver programs covering the administration of justice and law enforcement. These organizations include the Department of Justice and all of its associated agencies, as well as the Office of Indian Residential Schools Resolution.

Table 9 breaks down planned spending on justice and legal programs by department and agency, as follows:

Table 9: Justice and Legal Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Canadian Heritage				
Office of Indian Residential Schools Resolution	121,070	208,611	87,541	72.3
Justice				
Department	924,865	915,752	-9,113	-1.0
Canadian Human Rights Commission	22,380	21,005	-1,375	-6.1
Canadian Human Rights Tribunal	4,698	4,352	-346	-7.4
Commissioner for Federal Judicial Affairs	351,731	359,632	7,901	2.2
Courts Administration Service	53,536	62,547	9,011	16.8
Law Commission of Canada	3,142	3,193	51	1.6
Offices of the Information and Privacy Commissioners of Canada	10,209	24,479	14,270	139.8
Supreme Court of Canada	27,153	27,824	671	2.5
Total Program Spending	1,518,784	1,627,395	108,611	7.2

Details

As presented in these Main Estimates, spending in the justice and legal programs sector in 2006-2007 is estimated at \$1.6 billion, which represents less than 1% of total program spending. Compared to the previous year, this sector's spending in 2006-2007 is set to increase by \$108.6 million, or 7.2%.

Among the significant drivers of the spending increase in this sector are:

- The \$87.5 million increase in spending for the Office of Indian Residential Schools Resolution of Canada is required to cover an expected increase in the number of settlements reached, and to continue to support both the National Resolution Framework and other activities designed to address the legacy of Indian Residential Schools.
- The \$14.3 million increase in spending for the Offices of the Information and Privacy Commissioners of Canada includes \$11.3 million for the Office of the Privacy Commissioner of Canada to cover, among other things, activities for the administration and carrying out of responsibilities under the *Personal Information Protection and Electronic Documents Act* and the *Privacy Act*; and \$2.8 million for the Office of the Information Commissioner of Canada to address investigations and reviews and provide other related services.
- The \$9.0 million increase for the Courts Administration Service is for a variety of items including collective agreements, reductions to the inventory of citizenship grant and proof applications as well as sponsorship applications, and fit-up costs for the Federal Judicial Centre in Toronto.
- The Office of the Commissioner for Federal Judicial Affairs is also increasing its funding levels by \$7.9 million due to the increase in the statutory requirement relating to judges' salaries, allowances and annuities. This

Part I – The Government Expense Plan

increase will allow for an increase in the number of judicial appointments, as well as an increase in the overall average pension amount being paid to pensioners in accordance with the *Judges Act*.

- There is a net decrease of \$9.1 million in funding for the Department of Justice. This is due to a reduction of \$42.2 million in contributions and other transfer payments – mainly as a result of the sunseting of funding for Canada's Legal Aid Renewal Strategy, offset by a \$33.3 million net increase in operating costs.
- The \$1.4 million decrease in funding for the Canadian Human Rights Commission is mainly as a result of the sunseting of funding for the Commission's participation in the hearings of two pay equity complaints before the Canadian Human Rights Tribunal.

7 - Security and Public Safety Programs

This sector comprises those departments and agencies that deliver programs which are intended to close security gaps and ensure that the country's national interests and citizens are protected from risks to personal safety ranging from crime or naturally occurring events such as severe blizzards, floods or forest fires, to threats to national security from terrorist activity. These organizations include the Security Intelligence Review Committee of the Privy Council Office, and the portfolio of Public Safety and Emergency Preparedness, including the Royal Canadian Mounted Police; the Canadian Security Intelligence Service; the Canada Border Services Agency; the Canada Firearms Centre; the Correctional Service of Canada; and the National Parole Board.

Table 10 breaks down planned spending on security and public safety programs by department and agency, as follows:

Table 10: Security and Public Safety Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Privy Council				
Security Intelligence Review Committee	2,796	2,900	104	3.7
Public Safety and Emergency Preparedness				
Department	430,818	458,092	27,274	6.3
Canada Border Services Agency	1,021,744	1,293,533	271,789	26.6
Canadian Firearms Centre	82,284	83,595	1,311	1.6
Canadian Security Intelligence Service	292,092	346,148	54,056	18.5
Correctional Service	1,597,238	1,709,353	112,115	7.0
National Parole Board	31,767	43,057	11,290	35.5
Office of the Correctional Investigator	2,919	3,114	195	6.7
Royal Canadian Mounted Police	1,863,287	2,077,658	214,371	11.5
Royal Canadian Mounted Police External Review Committee	879	895	16	1.8
Royal Canadian Mounted Police Public Complaints Commission	4,685	6,303	1,618	34.5
Total Program Spending	5,330,509	6,024,648	694,139	13.0

Details

As presented in these Main Estimates, spending in the security and public safety programs sector in 2006-2007 is estimated at \$6.0 billion, which represents 3.0% of total program spending. Compared to the previous year, this sector's spending in 2006-2007 has increased by \$694.1 million, or 13.0 %.

Part I – The Government Expense Plan

Among the major drivers affecting the change in planned spending are:

- The significant increase of \$271.8 million in the budget of the Canada Border Services Agency is due to major new items in the operating budget such as: increasing operational capacity; updating the Primary Automated Lookout System used to verify license plates of vehicles entering Canada; implementing a number of national security policy initiatives; and a variety of other border security and border management related initiatives. In addition, further resources are being transferred from the Canada Revenue Agency as a result of the December 2003 reorganization, which created the Agency.
- The Royal Canadian Mounted Police's increase of \$214.4 million in net funding is a result of increases of \$275.3 million in operating costs, \$63.1 million in capital costs, and a \$7.2 million in grants, which are offset by additional revenues of \$131.2 million. The additional operating costs cover such items as collective agreements, additional funding for the Integrated Proceeds of Crime Initiative, funding to implement new technology and technical solutions associated with the lawful interception of private communications, and additional funding to secure Canada's maritime transportation system. Additional capital costs include \$43.8 million in funding to address shortfalls related to the costs of providing contract-policing services.
- The proposed funding for the Correctional Service of Canada reflects an increase of \$112.1 million. This increase is due to major additions in the operating and capital budgets such as: adjustments to the maintenance and housing costs of offenders; the development and implementation of Strengthening Community Safety and Effective Correction Initiatives; funding for the Federal Environmental Contaminated Sites Project and the *Public Service Modernization Act*; and the implementation of a health information management module.
- The Department of Public Safety and Emergency Preparedness' net spending increase of \$27.3 million is mainly the result of Emergency Management Initiatives and funding for the renewal of Community Safety and Crime Prevention. Offsets to total spending requirements include a \$40.0 million reduction for contributions to the provinces for assistance related to natural disasters.
- The \$11.3 million increase in spending for the National Parole Board is largely in support of the conditional release program, to cover the financial impact of amendments to the *Corrections and Conditional Release Act* to strengthen community safety, and to improve the integration of offenders into the community.

8 – International, Immigration and Defence Programs

This sector comprises those departments and agencies that deliver programs which support the security of Canadians, defend Canadian interests, promote a stable international environment and project Canadian values and culture in world affairs. These organizations include Citizenship and Immigration, the Department of Foreign Affairs and International Trade and its associated agencies, the Department of Finance and National Defence.

Part I – The Government Expense Plan

Table 11 breaks down planned spending on international affairs, immigration and defence programs by department, corporation and agency, as follows:

Table 11: International Affairs, Immigration and Defence Programs

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Citizenship and Immigration				
Department	833,924	1,226,775	392,851	47.1

Department	13,425,031	14,789,222	1,364,191	10.2
Canadian Forces Grievance Board	6,210	6,407	197	3.2
Military Police Complaints Commission	4,176	3,416	-760	-18.2
Total Program Spending	20,479,791	22,117,546	1,637,755	8.0

Details

As presented in these Main Estimates, spending in this sector for 2006-2007 is estimated at \$22.1 billion, which represents 11.1% of total program spending. Compared to the previous year, this sector's spending in 2006-2007 has increased by \$1.6 billion, or 8.0 %.

Among the major drivers affecting the change in planned spending are:

- The Department of National Defence's proposed net spending increase of \$1.4 billion is the primary reason for the increase in the sector's spending. The additional funds are: to improve the sustainability of the Canadian Forces as per Budget 2005; provide for military and civilian pay raises; support operations in Afghanistan; to partially cover inflationary increases; to expand the Canadian Forces as per Budget 2005; to cleanup contaminated sites; and for recruitment advertising.
- Citizenship and Immigration is seeking an additional \$392.9 million, with the bulk of the new funding requirements being \$274.4 million in contributions and other transfer payments. The department is also seeking an additional \$103.8 million in operating costs and \$14.6 million in grants. Major items in the contributions and other transfer payments area are related to a transfer from Human Resources and Skills Development for the Toronto Waterfront Revitalization Initiative (responsibility for which is to be transferred to the Treasury

²¹ International Assistance figures for Finance include: grants and contributions to international financial organizations to meet commitments made by Canada under multilateral debt reduction agreements, and transfer payments to international financial organizations (Payments to the International Development Association and International Monetary Fund's Poverty Reduction and Growth Facility).

Part I – The Government Expense Plan

Board Secretariat), the new Canada-Ontario Immigration Agreement and additional settlement funding to improve immigrant outcomes. On the operating side, major items include funding for: short-term immigration pressures; the Interim Federal Health program for refugee claimants; and the new Canada-Ontario Immigration Agreement. The additional funding for grants is related to escalation under the Canada-Quebec Accord.

- Canadian International Development Agency's budgetary funding levels are increasing by a net of \$166.6 million. Most of this increase is associated with five major items: the funding of initiatives in Sudan and Haiti as well as the Canadian Police Arrangement and the Public Sector Governance Initiative; the Asian Development Bank; Canada's response to the Asian tsunami disaster; peace and security efforts in the Darfur region of Sudan; and funding for additional grants for the UN Peacebuilding Fund, Avian Flu Initiative and the UN Central Emergency Revolving Fund.
- The \$142.6 million increase in spending for the Department of Foreign Affairs and International Trade (Foreign Affairs) is the result of increases in two areas: operating costs, and contributions and other transfer payments. In the operations area, major funding requirements include global peace and security initiatives, Passport services, locally engaged staff salary increases, and the building of counter terrorism capacity. In the area of contributions and transfer payments, major increases include funding for non-assessed contributions, the Global Peace And Security Fund and United Nations peacekeeping operations. These amounts are partially offset by decreases in assessed contributions and The Global Partnership Program.
- The Department of Finance plans to decrease its international assistance by \$462.7 million, primarily because debt forgiveness for Iraq, Serbia and Montenegro was delivered in 2005-2006 in accordance with the government's commitments in this area.

9 - Parliament and the Governor General

This sector includes expenditures related to the Senate, the House of Commons and the Library of Parliament, which constitute the Parliamentary Precinct. The requirements of the House of Commons and the Senate are appropriated annually and are managed by the Board of Internal Economy and the Standing Committee of Internal Economy, Budgets and Administration, respectively. The Speakers of both Houses approve the appropriations of the Library of Parliament.

The Senate Ethics Officer was created in 2005 to enhance public confidence and trust in the integrity of Members of the Senate as well as the respect and confidence that society places in the Senate as an institution.

Part I – The Government Expense Plan

Table 12 shows spending by Parliament and by the Office of the Secretary to the Governor General.

Table 12 – Parliament and Governor General Spending

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Governor General	19,060	19,236	176	0.9
Parliament				
The Senate	80,606	84,276	3,670	4.6
House of Commons	383,221	400,324	17,103	4.5
Library of Parliament	32,105	33,986	1,881	5.9
Office of the Ethics Commissioner	4,675	5,051	376	8.0
Senate Ethics Officer	0	957	957	N/A
Total Program Spending	519,667	543,830	24,163	4.6

Details

As presented in these Main Estimates, spending in this sector in 2006-2007 is estimated at \$543.8 million, which represents 0.3% of total program spending. Compared to the previous year, this sector's spending is set to increase by \$24.2 million, or 4.6 %.

The following are some of the key drivers affecting the change in this sector's program spending:

- An increase of \$17.1 million for the House of Commons, specifically:
 - \$7.7 million for Members' and House Officers' budgets, including the related employer's share of contributions to employee benefit plans, and supporting Members in committees, international and interparliamentary activities, and the Chamber; and
 - \$9.4 million in salaries, including the related employer's share of contributions to employee benefit plans.
- An increase of \$3.7 million for the Senate, specifically:
 - \$2 million for increases in Senators' research budgets, Political Officers' budgets, parliamentary associations and committees; and
 - \$1.3 million for Senators' indemnities and related pension contributions and additional administration costs for annual salary increases.
- \$957 thousand to support the activities of the new Senate Ethics Officer; and
- \$176 thousand for the Governor General mostly due to an increase in annuities payable under the *Governor General's Act* resulting from the addition of a former Governor General.

10 - General Government Services

This sector comprises those departments and agencies that provide central services to support the internal operations of government and includes, under the Department of Finance, fiscal equalization and transfers to Territorial governments. These organizations include Finance, Privy Council, Public Works and Government Services, and Treasury Board as well as a number of departmental agencies.

Part I – The Government Expense Plan

Table 13 breaks down planned spending on government services by department, corporation and agency, as follows:

Table 13: General Government Services

(\$ thousands)	Main Estimates		Change in Spending

Sub-Total Major Transfers	11,310,000	13,352,000	2,042,000	18.1
Total Program Spending	20,891,833	23,433,366	2,541,533	12.2

Part I – The Government Expense Plan

Details

As presented in these Main Estimates, spending in the general government services sector for 2006-2007 is estimated at \$23.4 billion, which represents 11.8% of total program spending. Of the \$23.4 billion, \$10.1 billion or 43.0%, will be for direct program spending and the remainder will be for transfer payments. Compared to the previous year, this sector's total spending in 2006-2007 has increased by \$2.5 billion, or 12.2%.

The following are the major drivers of the change in spending:

- The Canada Revenue Agency's increase in net spending of \$199.4 million is a result of an overall increase of \$297.6 million in operating costs and \$20.0 million in grants, which is being partially offset by a reduction in contributions and other transfer payments and an increase in revenue. Major items contributing to the increase in operating costs include the reclassification of the payment to the Province of Quebec for the joint administration of the Federal/Provincial sales tax and a variety of legislative, policy and operational initiatives arising from the 2004 and 2005 Federal Budgets. The additional \$20.0 million in grants is for the Children's Special Allowance Program for children in the care of specialized institutions.
- Statistics Canada's net increase of \$90.5 million is essentially due to preparations for the 2006 Census of Population, and collective agreements. These requirements have been partially offset by several reductions, the most significant being \$19.5 million as a result of the sunset of the Statistical Gap II Program which provided information on knowledge-based economy, economic growth, social cohesion, human development and global challenges and opportunities.
- Proposed higher net spending of \$89.6 million for Public Works and Government Services is primarily due to an increase of \$114.4 million in operating costs and \$14.7 million in capital spending. Major items contributing to the increase in operating costs include: the funding of several new projects such as a government electronic tendering service, fairs and exhibits, a disaster recovery backup site, Crown assets distribution; funding for contaminated sites; supporting the delivery of common services to the public and the Government of Canada as a whole; the Receiver General function; and the business transformation of the government procurement process. These spending requirements are partially offset by an increase in revenues.
- The Canada School of Public Service's increase in spending is mainly to support training and development for employees at all levels in the Federal Public Service.
- Public Service Human Resources Management Agency's \$20.2 million net increase in spending reflects additional resources for implementation of the *Public Service Modernization Act* and funding to support the passage and implementation of the *Public Servants Disclosure Protection Act* as well as to address pressures on the Office of Values and Ethics to provide leadership and advice. These requirements are offset by a \$16.2 million reduction in contributions and other transfer payments as a result of cost savings from the integration of the Youth Internship Program and the Youth Employment Strategy.
- Treasury Board Secretariat's net increase of \$18.8 million is mainly due to an increase for contributions to the new Canada-Quebec Parental Insurance Plan that will replace EI in Quebec as the provider of parental benefits to all employees of the province of Quebec as well as additional resources to finance new demands and resource pressures related to the increased responsibilities and workload of the Comptroller General and Chief Information Officer.
- The Public Service Commission's increase of \$17.5 million or 19.8% is based on a \$23.5 million increase in operating costs, partially offset by a revenue increase of \$6.0 million. The additional operating costs include funding for items such as support of the *Public Service Modernization Act* and recruitment.

Part I – The Government Expense Plan

Non-Budgetary Main Estimates – A net \$567.2 million decrease

The non-budgetary spending in the 2006-2007 Main Estimates amounts to \$1.12 billion. This represents a decrease of \$567.2 million compared to the 2005-2006 Main Estimates.

Table 14 indicates a more detailed breakdown of non-budgetary Main Estimates.

Table 14 – Non-budgetary Main Estimates

(\$ thousands)	Main Estimates		Change in Spending	
	2005-2006	2006-2007	\$	%
Canadian Heritage Department	10	10	0	0.0
Foreign Affairs and International Trade Department (International Trade)	653,000	209,000	-444,000	-68.0
Canadian International Development Agency	7,110	39,270	32,160	452.3
Finance Department ²²	108,923	7,471	-101,452	-93.1
Human Resources and Skills Development Department (Human Resources and Skills Development)	1,040,800	981,456	-59,344	-5.7
Canada Mortgage and Housing Corporation	-199,622	-198,472	1,150	0.6

Industry Department	800	800	0	0.0
Transport Office of Infrastructure Canada	0	2,492	2,492	N/A
Total Non-budgetary Spending	1,690,066	1,122,870	-567,196	-33.6

Details

The following are key drivers of the changes in non-budgetary expenditures for 2006-2007:

- Canadian International Development Agency's spending has increased by \$32.2 million over the previous year, due mostly to investment contributions to the Canadian Investment Fund for Africa.
- International Trade's decrease of \$444 million is due to a decrease in non-budgetary statutory payments to Export Development Canada. This amount reflects a decrease of \$395 million in loan disbursements due to delays in aircraft deliveries to airlines and a \$49 million increase in loan repayments.
- The decrease of \$101.5 million in payments by the Department of Finance to various international financial institutions is due mostly to reductions in loans issued to the International Monetary Fund's Poverty Reduction and Growth Facility.
- The decrease of \$59.3 million in non-budgetary spending by Human Resources and Skills Development is due to a decrease of loans negotiated under the *Canada Student Financial Assistance Act* as a result of the impact of loan reimbursements from borrowers on the loan portfolio.

²² Non-budgetary statutory spending by the Department of Finance reflects the agreed schedule of Canada's payments to International Organizations (European Bank for Reconstruction and Development – International Monetary Fund).

2006–2007 Estimates

Part II The Main Estimates

Introduction to Part II

- Structure of the Main Estimates
- Presentation by Ministry, Department and Agency
- Crown Corporations
- Definitions of Standard Objects of Expenditure

Summary Tables

- General Summary
- Budgetary Main Estimates by Standard Object of Expenditure
- Items for inclusion in the Proposed Schedule to the Appropriation Bill
- Statutory Items in Main Estimates
- Summary of Supply (Voted and Special Warrants) for 2006-2007

Changes in 2006–2007 Main Estimates

- Changes to Government Organization and Structure
- Changes in Authorities (Votes/Statutory Items)
- Changes in Presentation (Strategic Outcomes, Program Activity Descriptions)

Departments, Agencies and Crown Corporations

Introduction to Part II

Structure of the Main Estimates

The purpose of these Estimates is to present to Parliament information in support of budgetary and non-budgetary spending authorities that will be sought through Appropriation bills. These authorities are divided into two categories – Voted and Statutory. Voted authorities are those for which the government must seek Parliament's approval annually through an Appropriation Act. The wording and expenditure authority attributable to each vote appears in a schedule attached to the Appropriation Act. Once approved, the Vote wording and approved amounts become the governing conditions under which these expenditures may be made; it does not create a commitment to spend the entire amount. Individual expenditure proposals included in Votes seek authority to make expenditures necessary to deliver various mandates that are under the administration of a Minister and are contained in legislation approved by Parliament. Statutory authorities are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is included in the Estimates for information only.

The basic structural units of **Part II** are the Votes and Statutory items that, in total, comprise the proposed expenditures under each department or agency.

The following kinds of Votes appear in the Estimates:

- (a) *Program Expenditures Vote* – This type of Vote is used when there is no requirement for either a separate “capital expenditures” Vote or a “grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one Vote.
- (b) *Operating Expenditures Vote* – This type of Vote is used when there is a requirement for either a “capital expenditures” Vote or a “grants and contributions” Vote or both; that is, when expenditures of either type equal or exceed \$5 million.
- (c) *Capital Expenditures Vote* – This type of Vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “capital expenditures” Vote would include items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 8), as well as the acquisition of machinery and equipment (Standard Object 9), or for purposes of constructing or creating assets, where a department expects to draw upon its own labour and materials, or employs consultants or other services or goods (Standard Objects 1 to 9). Different threshold limits may be applied for different capital expenditure classes at the departmental level.
- (d) *Grants and Contributions Vote* – This type of Vote is used when grants and contributions expenditures equal or exceed \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in the Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the Vote wording, the meaning of the word “contributions” is considered to include “other transfer payments”.
- (e) *Non-Budgetary Vote* – This type of Vote, identified by the letter “L”, provides authority for spending in the form of loans or advances to, and investments in, Crown corporations; and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.

Introduction to Part II

- (f) *Special Votes: Crown Corporation Deficits and Separate Legal Entities* – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity, a separate Vote is established. Where this is the case, a separate Vote structure is established for each. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.
- (g) *Special Votes: Treasury Board Centrally Financed Votes* – To support the Treasury Board in performing its statutory responsibilities for managing the government's financial, human and materiel resources, a number of special authorities are required and these are outlined below:
 - (i) *Government Contingencies Vote* – This Vote serves to supplement other appropriations to provide the Government with sufficient flexibility to meet urgent or unforeseen expenditures where a valid cash requirement exists due to the timing of the payment or where specific authority is required to make the payment, such as for the payment of grants not listed in the Estimates. This authority to supplement other appropriations is provided until Parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization. In addition, this Vote serves to supplement other appropriations to meet additional payroll costs such as severance pay and parental benefits which are not provided for in departmental estimates.
 - (ii) *Government-Wide Initiatives Vote* – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.
 - (iii) *Public Service Insurance Vote* – This Vote provides for the payment of the employer's share of health, income maintenance and life insurance premiums; for payments to or in respect of provincial health insurance plans; provincial payroll taxes; pension, benefit and insurance plans for employees engaged locally outside Canada; and to return to certain employees their share of the unemployment insurance premium reduction.

Presentation by Ministry, Department and Agency

The activities for the departments and agencies for which a Minister is responsible, or reports to Parliament, are grouped together to provide a total ministry presentation. The ministries are then arranged alphabetically to make up the complete Main Estimates. Ministries of State, which may be formed under authority of the *Government Organization Act*, 1970, involve a more restrictive meaning of the term Ministry than that used here. Ministries of State are treated as departments for presentation purposes in these Estimates.

Each ministry presentation begins with a Ministry Summary table that shows, by Vote or Statutory item, the amount included in the Main Estimates for all organizations comprising that ministry. Abbreviated wordings are used in this table.

All Estimates data shown for the previous year are taken from the Main Estimates of that year. This ensures that all financial information is displayed on a consistent year-over-year basis. Where necessary, adjustments are made to the previous year amounts to reflect changes in organizational structure including changes in ministerial responsibility, to provide a more relevant basis for comparison.

Introduction to Part II

In general, the individual organizational presentation is made up of four sections, as explained below. Where a section is not appropriate, it does not appear in the presentation.

Strategic Outcome

This section provides a statement of the strategic outcome.

Program Activity Description

This section serves to explain the program activities by describing how they contribute to the achievement of the strategic outcome(s).

The Program by Activities Table

This table shows the total financial resources proposed by program activity. The amounts of the Voted and Statutory authorities are combined and distributed across each program activity. Expenditures for each activity are presented under the headings of Operating; Capital; Grants; Contributions and other transfer payments; and Loans, Investments and Advances. Revenues credited to the Vote, for those departments and agencies authorized to do so, and revenues associated with revolving funds are also included in this table.

Receipts credited to general non-tax revenue and services provided without charge by other government departments are shown in the **Report on Plans and Priorities**.

Transfer Payments

This table provides additional detail on the transfer payments proposed for each activity. A transfer payment is a grant, contribution or other payment made for the purpose of furthering program objectives but for which no goods or services are received.

Grants, contributions and other transfer payments differ in several respects:

- i) contributions are conditional payments and subject to audit whereas grants are not;
- ii) contributions require an arrangement between the recipient and the donor identifying the terms and conditions governing their payment while grants do not;
- iii) other transfer payments are payments based on legislation or an arrangement which normally includes a formula or schedule of payments as one element used to determine the annual amount; and
- iv) the wording used in the Estimates to describe a grant has a legislative character, while that used for contributions and other transfer payments is informational.

Introduction to Part II

Revolving Funds

A revolving fund is a continuing or non-lapsing authorization by Parliament to make payments out of the Consolidated Revenue Fund up to a stipulated limit. As part of this authorization, expenditure requirements are offset, to the extent possible, by revenues generated.

Crown Corporations

The general principle followed in **Part II** of the Estimates is to provide information related to operations being funded through appropriations, rather than on the corporate financial plan in its entirety. The Summaries of corporate plans and budgets, tabled separately, are intended to be the source of more detailed information for the use of parliamentarians in their review of Crown corporations' spending.

All Crown corporations for which appropriations are being requested have a separate presentation consisting of three standard sections:

Strategic Outcome

This section describes the strategic outcomes of the Crown corporation.

Program Activity Descriptions

This section outlines the major activities for which funding through appropriations is requested.

Program by Activities table

This table provides details of financial requirements to be met through appropriations. The presentation separates and identifies:

- i) budgetary and non-budgetary funding according to the major activities of the corporation;
- ii) the amount of budgetary funding required for operating purposes, acquisition of fixed assets and other non-current assets; and
- iii) the planned expenses, revenues and non-cash or other adjustments upon which the funding required for operating purposes is based.

Definitions of Standard Objects of Expenditure

To determine and report more accurately the impact of government revenues and expenditures on the rest of the economy, the net amount of government purchases and sales by standard object must be determined. All departments, including those that use revolving funds, must charge their expenditures for purchases to standard object expense categories. Standard objects are the highest level of expenditure classification used for

Introduction to Part II

Parliamentary and executive purposes, and are reported in the Main and Supplementary Estimates and the Public Accounts. The standard objects of expenditure are as follows:

1. Personnel
2. Transportation and Communications
3. Information
4. Professional and Special Services
5. Rentals
6. Purchased Repair and Maintenance
7. Utilities, Materials and Supplies
8. Acquisition of Land, Buildings, and Works
9. Acquisition of Machinery and Equipment
10. Transfer Payments
11. Public Debt Charges
12. Other Subsidies and Payments

Information is also provided on revenues credited to the vote. In certain specific situations, Parliament authorizes departments or agencies to spend revenues generated from their operations in the same manner as any funds appropriated through that vote (as reflected in the vote wording). These amounts offset planned expenditures shown in standard objects 1 through 12, which are shown on a gross basis.

A brief explanation of each Standard Object follows:

1. *Personnel*

- Salaries and wages, overtime, severance pay, retroactive pay and other special pay of civilian continuing (full-time) or term (part-time, seasonal and casual) employees except those of agency and proprietary Crown corporations, as well as members of the military and the Royal Canadian Mounted Police.
- Judges' salaries, those of the Governor General, the Lieutenant-Governors and the indemnities to Members of both Houses of Parliament, and all types of allowances paid to or in respect of continuing and term employees (such as living, terminable, foreign service, isolated post, board and subsistence allowances, shift differential allowances for assistants, and other such allowances).
- Ministers' motor car allowances, and the expense allowances to Senators and Members of the House of Commons.
- The government's contribution to various employee benefit plans (the Public Service Superannuation Account, the Supplementary Retirement Benefits Account, the Canada Pension Plan Account, the Quebec Pension Plan, the Public Service Death Benefit Account and the Employment Insurance Account).
- The Royal Canadian Mounted Police Superannuation Account, the Canadian Forces Superannuation Account and the Members of Parliament Retiring Allowances Account, and the Government's contribution to provincial and other medical and hospital insurance plans and supplementary personnel costs for various purposes.

Introduction to Part II

2. *Transportation and Communications*

- Traveling and transportation expenses of government employees, members of the Canadian Forces and the Royal Canadian Mounted Police, removal expenses of those persons and their dependants, and living and other expenses of such persons on travel status, judges' traveling expenses, and traveling expenses and allowances payable to Senators and Members of the House of Commons.
- Transportation of persons by contract and chartered facilities or by other means (including traveling expenses of persons engaged in field survey work, inspections and investigations), and traveling and transportation of non-Government employees such as travel costs of veterans who are applicants for treatment or pensions.
- Ordinary postage, airmail, registered mail, parcel post special delivery mail, post office box rentals, and any other postal charges.
- Expenditures relating to the transportation of goods other than initial delivery cost on a purchase (which is included in the Standard Object covering the cost of the purchase itself) including charges for courier services provided by outside carriers.
- All costs of telecommunication services by telephone, telegram, cable, teletype, radio and wireless communication (tolls, rates, etc.) and other communication costs such as courier services provided by outside agencies and communication services performed under contract or agreement.

3. *Information*

- **Advertising services** – This includes advertising services acquired for publicity and general purposes from advertising agencies or directly for time on broadcast media or for space in print media or on outdoor posters or billboards. It includes advertising and creative work services such as graphic artwork.
- **Publishing, printing and exposition services** – This includes publishing services for commissioning, marketing, distribution and sales of publications sponsored by the department, and for the acquisition of related government publications. Also included are services for printing, duplicating, photocopying, text editing, design of graphics, art work, technical and advisory services such as computerized text processing and mass transmission of printed material. In addition, it includes exposition services such as exhibits and associated audio-visual services related to exhibitions and displays.
- **Public Relations and Public Affairs Services** – This includes services for attitude surveys, sales promotion, marketing, export marketing, public relations and publicity. It also includes services for speech writing, press releases, briefing, press conferences and special events. Public Affairs Services for attitude surveys, opinion polls, service assessment survey, contracts to organize and operate focus groups and media monitoring services are also included here.

4. *Professional and Special Services*

- Provision for all professional services performed by individuals or organizations such as payments (in the nature of fees, commissions, etc.) for the services of accountants, lawyers, architects, engineers, scientific analysts, reporters, and translators; for teachers at various levels of educational institutions; for doctors, nurses and other medical personnel; for management, data processing and other research consultants; and for other outside technical, professional and other expert assistance.
- Payments for hospital treatment, care of veterans and welfare services, payments for the provision of services at computer service bureaus, payment of tuition for Indians at non-federal schools, purchase of training services under the *Adult Occupational Training Act*, and payments made to the Public Service Commission for training.
- Payments for Corps of Commissionaires services and for other operational and maintenance services performed under contract, such as armoured cars, laundry and dry cleaning, cleaning of buildings.

Introduction to Part II

temporary help, hospitality, storage and warehousing, and other business services, as well as payments made to Public Works and Government Services for contract administration.

5. *Rentals*

- Rental of properties required for special purposes by the various departments and for the accommodation of government offices and services by the Department of Public Works and Government Services.
- Hire and charter – with or without crew – of vessels, aircraft, motor vehicles and other equipment, and rental of telecommunication and office equipment including computers.

Storage and warehousing services is, however, in Standard Object 4 even though it involves the rental of space.

6. *Purchased Repair and Maintenance*

- The repair and upkeep under contract of the durable physical assets provided for in Standard Object 8 and of equipment provided for in Standard Object 9.
- Payments to the Department of Public Works and Government Services for tenant services.
- Materials, supplies and other charges for repairs undertaken by a department directly are coded to other objects, according to the nature of the purchase.

7. *Utilities, Materials and Supplies*

- The provision for all payments for services of a type normally provided by a municipality, or public utility service such as the supply of water, electricity, gas, etc., and includes water, light, power and gas services, and payment for such services whether obtained from the municipality or elsewhere.
- The provision for materials and supplies required for normal operation and maintenance of government services such as:
 - gasoline and oil purchased in bulk; fuel for ships, planes, transport and heating
 - feed for livestock
 - food and other supplies for ships and other establishments
 - livestock purchased for ultimate consumption or resale
 - seed for farming operations
 - books and other publications purchased for outside distribution
 - uniforms and kits
 - photographs, maps and charts purchased for administrative and operational purposes
 - laboratory and scientific supplies, including samples for testing
 - drafting, blueprinting and artists' supplies; supplies for surveys and investigations;
 - chemicals
 - hospital, surgical and medical supplies
 - works of art for exhibits, and historical material for galleries, museums and archives
 - char service supplies
 - coal and wood
 - electrical supplies
 - repair parts other than parts normally acquired with equipment at the time of purchase for aircraft, ships, road vehicles, and for communication and other equipment; and all other materials and supplies.

Introduction to Part II

8. *Acquisition of Land, Buildings, and Works*

- All expenditures for the acquisition of buildings, roads, irrigation works, canals, airports, wharves, bridges and other such types of fixed assets.
- Improvements involving additions or changes of a structural nature, and for installing fixed equipment which is essentially a part of the work or structure such as elevators, heating and ventilating equipment.
- All reconstruction of such types of physical assets and such projects performed under contract or agreement.
- The purchase of land.

Expenditures pursuant to contracts for new construction for casual employees hired or continuing employees assigned to work full-or part-time on specified projects, travel, professional services, equipment rentals, equipment maintenance and of materials purchased directly for use on such projects are charged to the relevant standard objects (Standard Object 1 to 9).

9. *Acquisition of Machinery and Equipment*

- Expenditures for the acquisition of all machinery, equipment, office furniture and furnishings, EDP and electronic or other office equipment.
- Microfilming equipment and supplies, inter-office communication equipment, postal meter machines, machine records and all other office equipment.
- Motor vehicles, aeroplanes, tractors, road equipment, telecommunications and related equipment, laboratory and other scientific equipment, vessels, icebreakers and other aids to navigation and all other types of light and heavy equipment; includes ammunition and various types of equipment for National Defence, such as ships, aircraft, mechanical equipment, fighting vehicles, weapons, engines and such spare parts and supplies as are normally acquired with that equipment at the time of purchase.

10. *Transfer Payments*

- Grants, contributions, subsidies and all other transfer payments made by government.
- Major social assistance payments made to persons such as Old Age Security benefits and related allowances, Veterans' pensions and allowances.
- Subsidies and payments to the provinces and territories under the *Constitution Acts*, the *Federal-Provincial Fiscal Arrangements Act*, the *Canada Health and Social Transfers* and for official languages.
- Payments to Indians and Inuit in support of self-government initiatives, health, educational, social and community development programming and in respect of native claims.
- Payments to the territorial governments pursuant to financing agreements entered into between the Minister of Finance and the respective territorial Minister of Finance.
- Subsidies and capital assistance to industry; research grants and other assistance towards research carried on by nongovernmental organizations; scholarships.
- Sustaining grants to many national and international non-profit organizations.
- Contributions to international organizations and assessments for membership in such organizations, such as the contribution to the International Food Aid Program and Canada's assessment for membership in the United Nations.

Most of the payments in this standard object category are identified in the Estimates as "Grants" or "Contributions". The former are not subject to audit and are therefore restricted by Parliament as to amount and recipient and often as to purpose through the approval of the supply bill which specifies "grants listed in the Estimates"; the latter are conditional and subject to audit and are not so restricted.

Introduction to Part II

11. *Public Debt Charges*

- Interest on the unmatured debt of Canada (including Treasury Bills) and on other liabilities such as trust and other special funds.
- The cost of issuing new loans, amortization of bond discount, premiums and commissions.
- The cost of servicing and administering the Public Debt.

12. *Other Subsidies and Payments*

- Payments to Crown corporations that include those made to provide for operating deficits as well as other transfers paid to Crown corporations.
- Payments to other government controlled corporations or organizations include those made to entities such as the National Arts Centre.
- Payments to certain non-budgetary accounts (such as the government contributions to agricultural commodities stabilization accounts, as well as benefits under the *Veterans Land Act*), as well as the write-offs of various types of losses, the annual adjustment of reserves for financial claims and some other miscellaneous items referred to as “Sundries”.

Miscellaneous expenditures include licences, permits and payments for dockage, towage, wharfage and mooring privileges; bonding of government employees, loss of personal effects, and expenditures for small miscellaneous articles and services. Also included are many small items and services that do not lend themselves to identification under specific headings detailed in this summary.

Revenues Credited to the Vote

Revenues that are credited to the Vote in accordance with parliamentary authority include a combination of revenues from external and internal sources. Revenues from external sources include:

- rentals received on government-owned buildings and equipment;
- receipts from the provision of police services to other levels of government;
- receipts of revolving funds as a result of transactions with parties outside the government; and
- recoveries of costs from provincial governments and other national governments.

Revenues from internal sources include recoveries of costs of goods or services provided by one organization to another and the proceeds of sales by revolving funds to parties internal to government.

Summary Tables

There are five government-wide summary tables.

- (1) *General Summary* – The first table identifies budgetary and non-budgetary Main Estimates by department and agency and by type of Parliamentary authority (annually voted or statutory). Budgetary expenditures encompass the cost of servicing the public debt; operating and capital expenditures; transfer payments and subsidies to other levels of government, organizations and individuals; and payments to Crown corporations and separate legal entities. Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.

This table also includes the forecast of total expenditures associated with Consolidated Specified Purpose Accounts. The transactions associated with these accounts are reported as part of budgetary expenditures in the Public Accounts of Canada. While there are in excess of 30 Consolidated Specified Purpose Accounts in the Accounts of Canada, the Employment Insurance Account accounts for almost the total value of the consolidation entry. A complete listing of these accounts and a summary of the transactions associated with each may be found in the Public Accounts of Canada.

- (2) *Budgetary Main Estimates by Standard Object of Expenditure* – The second table shows the forecast of total expenditures by Standard Object, which includes the types of goods or services to be acquired, or the transfer payments to be made and the revenues to be credited to the vote. Definitions of Standard Objects can be found in the Introduction to Part II section.
- (3) *Items for inclusion in the Proposed Schedule to the Appropriation Bill* – The third table shows the Vote number, wording and Main Estimates amounts for all Votes that will be proposed to Parliament for approval.
- (4) *Statutory Items in Main Estimates* – The fourth table provides the current expenditure forecast for each statutory authority within a department or agency, for which a financial requirement has been identified.
- (5) *Summary of Supply (Voted and Special Warrants) for 2006-2007* – The fifth table provides an overview of supply for all the amounts that will be proposed to Parliament for approval through the interim and full supply legislation related to the 2006-2007 Main Estimates. It also reflects those amounts provided through Governor General Special Warrants

General Summary

		115	11,750,000	1,662,317	7,150,183	2,937,500
		116	200,000
Telefilm Canada		120	125,042,000	15,300,000	78,481,500	31,260,500

* The Canadian Radio-television and Telecommunications Commission is a self-funded organization relying on the annual renewal of its revenue spending authority through the Appropriation Act. In the absence of Interim Supply, the Special Warrant application had to be sufficient to cover the gross expenditures required for this Vote.

** Prior to the granting of Interim Supply, Status of Women — Office of the Co-ordinator did not have a Vote against which to charge a contribution program. However, as they had legal authority to make a contribution payment, a Special Warrant was issued to make the urgent payment. A number was assigned to the payment, Vote 116, for ease of reference but does not constitute the creation of a Vote. This contribution is included under Vote 115 in the Main Estimates and the balance of Supply will be granted under Vote 115.

* Main Estimates for Citizenship and Immigration includes requirements for the Toronto Waterfront Revitalization Initiative that has been transferred to the Treasury Board Secretariat pursuant to P.C. 2006-75. Due to the nature of Special Warrants the responsible Minister needed to request the Special Warrant regardless of the Estimates treatment. Since this transfer has not been effected through the Estimates at this time, the amount of interim supply for Citizenship and Immigration has been reduced by the amount sought for the Toronto Waterfront Revitalization Initiative in the 2006-2007 Special Warrant by the President of the Treasury Board.

* Main Estimates for Industry includes requirements for the Office of the Registrar of Lobbyists that has been transferred to the Treasury Board Ministry pursuant to P.C. 2006-50. Due to the nature of Special Warrants the responsible Minister needed to request the Special Warrant regardless of the Estimates treatment. Since this transfer has not been effected through the Estimates at this time, the amount of interim supply for Industry has been reduced by the amount sought for the Office of the Registrar of Lobbyists in the 2006-2007 Special Warrant by the President of the Treasury Board.

* Main Estimates related to the Toronto Waterfront Revitalization Initiative and the Office of the Registrar of Lobbyists are reflected under the departments of Citizenship and Immigration and Industry respectively. Accordingly, the interim supply amounts for those organizations have been adjusted by the Special Warrant requirements provided to Treasury Board as presented herein.

**The Total Main Estimates Voted Amount does not agree with the totals on the "General Summary" table due to rounding.

Changes in 2006–2007 Main Estimates

The purpose of this section is to provide a reconciliation of the 2006-2007 Main Estimates with the 2005-2006 Main Estimates in the following three areas:

- Changes to government organization and structure;
- Changes in authorities (vote and statutory items); and
- Changes in presentation (strategic outcomes and program activity descriptions).

Changes to Government Organization and Structure:

General – During 2005-2006, pursuant to the *Public Service Rearrangement and Transfer of Duties Act*, the government announced a series of reorganizations to the structure of certain ministries.

The following changes were published in Supplementary Estimates (A), 2005-2006:

- Order-in-Council P.C. 2004-0858 designated the Minister of Indian Affairs and Northern Development as the appropriate Minister with respect to the **Indian Specific Claims Commission**.
- In accordance with Order in Council P.C. 2005-1716, fixing October 3, 2005 as the day on which Part 13 (*Canada Emission Reduction Incentives Agency Act*) of the *Budget Implementation Act, 2005*, being chapter 30 of the Statutes of Canada, 2005, comes into force. The provisions of the *Canada Emission Reduction Incentives Agency Act* included the establishment of the **Canada Emission Reduction Incentives Agency**.
- Order in Council P.C. 2005-0725 fixed January 12, 2006 as the date of coming into force of certain sections of the *Assisted Human Reproduction Act*. These provisions of the *Assisted Human Reproduction Act* included the establishment of the **Assisted Human Reproduction Agency of Canada**.
- Effective April 1, 2005 pursuant to Order in Council P.C. 2005-0273, section 2 of the *Act to amend the Parliament of Canada Act (Ethics Commissioner and Senate Ethics Officer) and other Acts in consequence* came into force. This included the establishment of the **Senate Ethics Officer**.

On February 6, 2006 the Prime Minister announced his cabinet and a number of machinery of government changes. When announcing his cabinet the Prime Minister assigned three Ministers dual responsibilities. They are the

- Minister of National Revenue and Minister of Western Economic Diversification;
- Minister of Labour and Minister of the Economic Development Agency of Canada for the Regions of Quebec; and
- Minister of Foreign Affairs and Minister of the Atlantic Canada Opportunities Agency.

As a result, the Minister's salary and motor car allowance is referenced only once and is against the lead organization as per the Minister's title.

Changes in 2006–2007 Main Estimates

In order to display machinery of government changes in these Estimates and for ease of reference we have categorized those changes into three types as follows:

- **Type 1** changes represent a repositioning of an organization from one Ministry to another. Type 1 transactions are relatively straightforward and resulted in the following changes:

Organization	Ministries	
	Moved From	Moved To
Canada Post Corporation	Canada Revenue Agency	Transport
Canadian Commercial Corporation	International Trade	Foreign Affairs and International Trade
Canadian Wheat Board	Treasury Board Secretariat	Agriculture and Agri-Food
NAFTA Secretariat, Canadian Section	International Trade	Foreign Affairs and International Trade
National Capital Commission	Canadian Heritage	Transport
National Round Table on the Environment and the Economy	Privy Council	Environment
Office of Indian Residential Schools Resolution of Canada	Public Safety and Emergency Preparedness	Canadian Heritage
Office of Infrastructure of Canada	Its own ministry	Transport
Royal Canadian Mint	Canada Revenue Agency	Transport

The following Orders in Council approved those changes:

- P.C. 2006-67 designates the Minister of Transport as the Minister responsible for the purposes of the Canada Post Act. As a result the Corporation has been moved from the Canada Revenue Agency portfolio to the Transport portfolio.
- P.C. 2006-40 transfers the control and supervision of the Department of International Trade to the Department of Foreign Affairs and International Trade and combines the two under the Minister of Foreign Affairs. As a result, the agencies within the former International Trade portfolio (Canadian Commercial Corporation and NAFTA Secretariat, Canadian Section) also moved.
- P.C. 2006-84 designated the Minister of Agriculture and Agri-Food as the Minister responsible for the purposes of the Canadian Wheat Board Act. As a result the Canadian Wheat Board has been moved from the Treasury Board portfolio to the Agriculture and Agri-Food portfolio.
- P.C. 2006-72 designates the Minister of Transport as the appropriate minister with respect to the National Capital Commission. As a result the Commission has been moved from the Canadian Heritage portfolio to the Transport portfolio.
- P.C. 2006-85 designates the Minister of the Environment as the Minister for the purposes of the *National Round Table on the Environment and the Economy Act*. As a result the agency has moved from the Privy Council portfolio to the Environment portfolio.

Changes in 2006–2007 Main Estimates

- P.C. 2006-89 transfers the control and supervision of the Office of Indian Residential Schools Resolution of Canada from Public Safety and Emergency Preparedness to Canadian Heritage.
 - P.C. 2006-60 transfers the control and supervision of the Office of Infrastructure of Canada from the Minister of State (Infrastructures and Communities) to the Minister of Transport. As a result the Office has been moved to the Transport portfolio.
 - P.C. 2006-69 transfers the control and supervision of the Crown Corporation Secretariat relating to the Royal Canadian Mint and the Canada Post Corporation from Canada Revenue Agency to the Department of Transport.
- **Type 2** changes require the amalgamation of two organizations into one and affected 4 organizations (Foreign Affairs and International Trade, International Trade, Human Resources and Skills Development and Social Development). Until the organizations can provide new program activity structures, new votes and vote wording, the necessary Treasury Board approvals and possible legislative amendments, only the ministry name has been changed. Pending these actions the organizations are left intact but shown sequentially in these Estimates. The following Orders in Council approved those changes:
- P.C. 2006-40 transfers the control and supervision of the Department of International Trade to the Department of Foreign Affairs and International Trade and combines the two under the Minister of Foreign Affairs.
 - P.C. 2006-37 transfers the control and supervision of the Department of Social Development to the Department of Human Resources and Skills Development and combines the two under the Minister of Human Resources and Skills Development to be styled as Minister of Human Resources and Social Development.
- **Type 3** changes involve moving a piece of a program between organizations and, in the case of the Office of the Registrar of Lobbyists, also designating the Office as a Department. These changes will require the re-writing of program activity structures, the creation of new votes and vote wording, obtaining Treasury Board approvals and possibly legislative amendments. Given the complexity of the changes, the timing required to produce this document, and the need to engage a number of stakeholders, these changes have been deferred to the future Estimates.

Changes in 2006–2007 Main Estimates

The following programs and organizations were affected:

Program/Organization	Moved From	Moved To
Aboriginal Affairs Secretariat	Privy Council	Indian Affairs and Northern Development
Canada Lands Company Limited, Queens Quay West Land Corporation*, Downsview Park, Old Port of Montreal	Office of Infrastructure of Canada	Transport
Office of the Registrar of Lobbyists	Industry	Treasury Board
Official Languages Secretariat	Privy Council	Canadian Heritage
Toronto Waterfront Revitalization Initiative	Citizenship and Immigration	Treasury Board Secretariat

The following Orders in Council approved those changes:

- Effective April 1, 2006 in accordance with P.C. 2006-119 transfers the control and supervision of the Aboriginal Affairs Secretariat from the Privy Council Office to the Department of Indian Affairs and Northern Development.
- P.C. 2006-70 transfers the control and supervision of the Crown Corporation Secretariat relating to Canada Lands Company Limited and Queens Quay West Land Corporation from the Office of Infrastructure of Canada to the Department of Transport.
- P.C. 2006-49 amends schedule I.1 of the *Financial Administration Act* by designating the Office of the Registrar of Lobbyists as a department and P.C. 2006-50 transfers the control and supervision of the Office of the Registrar of Lobbyists from the Minister of Industry to the President of the Treasury Board. As a result the Registrar has been moved to the Treasury Board portfolio.
- P.C. 2006-86 transfers the control and supervision of the Official Languages Secretariat from the Privy Council Office to the Department of Canadian Heritage.
- P.C. 2006-66 transfers the control and supervision of the Royal Canadian Mint from the Minister of National Revenue to the Minister of Transport.
- P.C. 2006-76 transfers the control and supervision of the Toronto Waterfront Revitalization Initiative from the Department of Citizenship and Immigration to the Treasury Board Secretariat.

* This organization is being wound down and expects to close in June 2006.

Changes in 2006–2007 Main Estimates

Changes in Authorities (Vote and Statutory Items):

The Changes in Authorities sub-section details those Votes that contain specific authority that differ from those included in the previous year's Main Estimates as well as new expenditure authorities appearing for the first time. In light of the House of Commons Speaker's rulings in 1981, the government has made a commitment that the only legislation that will be amended through the Estimates process, other than cases specifically authorized by Statute, will be previous Appropriation Acts.

Agriculture and Agri-Food – Department – One new statutory item has been added “Canadian Cattleman’s Association Legacy Fund”, and two statutory items have become items not required, “Class contribution payments for Repositioning of the Canadian Beef and Cattle Industry” and “Contributions in support of Business Risk Management Programs under the Agricultural Policy Framework”.

Atlantic Canada Opportunities Agency – Department – The statutory item “Minister of Atlantic Canada Opportunities Agency – Salary and motor car allowance” is now displayed under Foreign Affairs and International Trade (Foreign Affairs).

Canada Revenue Agency – Since the contribution vote now falls below the \$5 million threshold the Agency has combined their two votes into one: Vote 1 “Program expenditures and recoverable expenditures on behalf of the *Canada Pension Plan* and the *Employment Insurance Act*”. The statutory item “Minister of National Revenue – Salary and motor car allowance” now includes reference to “the Minister of Western Economic Diversification”.

Canadian Heritage – Canadian Radio-television and Telecommunications Commission – Vote 45 wording has been modified to provide better clarity.

Canadian Heritage – Office of Indian Residential Schools Resolution of Canada – Since the contributions for the Office has reached a threshold of \$5 million or more the Program expenditures vote has been split into two votes. Vote 85 “Operating expenditures” and Vote 90 “Contributions”.

Canadian Heritage – Public Service Commission – Vote 95 wording has been modified to include, “and, pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend revenue received during the fiscal year to offset expenditures incurred in that fiscal year from the provision of assessment and counselling services and products”.

Canadian Heritage – Status of Women – Office of the co-ordinator – Vote 115 wording has been modified to include, “and contributions”.

Economic Development Agency of Canada for the Regions of Quebec – The statutory item “Minister of Economic Development Agency of Canada for the Regions of Quebec – Salary and motor car allowance” is now displayed under the Department of Human Resources and Skills Development.

Environment – Canada Emission Reduction Incentives Agency – This newly created organization has one vote. Vote 15 “Program expenditures and payments for the acquisition of eligible credits pursuant to the Canada Emission Reduction Incentives Agency” and one statutory item “Contributions to employee benefit plans”.

Changes in 2006–2007 Main Estimates

Finance – Department – Vote 10 wording “Transfer Payments to the Territorial Governments” has become an appropriation not required and has been replaced with new vote wording “Pursuant to Section 29 of the *Financial Administration Act*, to authorize the Minister on behalf of Her Majesty in Right of Canada to guarantee payment to the holders of mortgages insured by private insurers approved by the Superintendent of Financial Institutions to sell mortgage insurance in Canada of not more than 90% of the net claims of the holders of the insured mortgages in the event of the insolvency of liquidation of the private insurer, subject to the limitation that the aggregate outstanding principal amount of all mortgages covered by the guarantee shall not exceed \$100,000,000,000 at any time; and to repeal Vote 16b, *Appropriation Act No. 4, 2003-2004*”. One new statutory item has been added “Territorial Financing (Part I.1 – *Federal-Provincial Fiscal Arrangements Act*)”. Reference to the following three statutory items have been deleted “Health Reform Transfer (Part V.1 – *Federal-Provincial Fiscal Arrangements Act*)”, “Issuance of demand notes to the European Bank for Reconstruction and Development – Capital Subscriptions” and “Issuance of loans to International Monetary Fund’s Poverty Reduction and Growth Facility”.

Foreign Affairs and International Trade – Department (Foreign Affairs) – Vote 10 wording has been modified to include, “... and which may also include with respect to Canada’s Counter-Terrorism Capacity Building Program, cash payments for or the provision of goods, services equipment and technology for the purpose of counter-terrorism assistance to states and government entities”. The statutory item “Minister of Foreign Affairs – Salary and motor car allowance” now includes reference to “the Minister of Atlantic Canada Opportunities Agency”.

Foreign Affairs and International Trade – Canadian International Development Agency – Vote L40 wording has been modified by increasing the issuance and payments of non-interest bearing, non-negotiable demand notes from \$193,500,000 to \$215,032,000. Vote L45 wording has also been modified by decreasing the Canadian dollars from \$4,600,000 to \$3,269,586 on December 16, 2005.

Health – Assisted Human Reproduction Agency of Canada – This newly created organization has one vote, Vote 10, “Program expenditures” and one statutory item, “Contributions to employee benefit plans.”

Human Resources and Skills Development – Department (Human Resources and Skills Development) – The statutory item “Minister of Labour – Salary and motor car allowance” now includes reference to “the Minister of the Economic Development Agency of Canada for the Regions of Quebec”. There have been two new statutory items added “Canada Learning Bond payments to Registered Education Savings Plans (RESPs) trustees on behalf of RESP beneficiaries to support access to post-secondary education to children from low-income families” and “Canada Education Savings grant payments to Registered Education Savings Plans (RESPs) trustees on behalf of RESP beneficiaries to encourage Canadians to save for post-secondary education of children”. The following statutory item has become an item not required “Grants to the trustees of Registered Education Savings Plans (RESPs) for the benefit of beneficiaries named under those RESPs, pursuant to the Canada Education Savings Grant regulations of the *Department of Human Resources Development Act*”.

Indian Affairs and Northern Development – Department – One new statutory item has been added, “Grant to the Nunatsiavut Government for the implementation of the Labrador Inuit Land Claims Agreement pursuant to the *Labrador Inuit Land Claims Agreement Act*”.

Indian Affairs and Northern Development – Indian Specific Claims Commission – This newly created organization has one new vote, Vote 45 “Program expenditures” and one statutory item, “Contributions to employee benefit plans”.

Changes in 2006–2007 Main Estimates

Justice – *Offices of the Information and Privacy Commissioners of Canada* – Vote 40 wording has been modified from Operating expenditures to “Program expenditures”. Vote 45 wording has also been modified from Operating expenditures to “Program expenditures”.

National Defence – *Department* – Vote 1 wording has been modified to increase the allotment by the Treasury Board from \$22,798,216,658 to \$25,424,069,212 and to increase the estimated payment in future years from \$10,100,000,000 to \$11,440,000,000.

Natural Resources – *Department* – Vote 1 wording has been modified by deleting reference to, “goods and the provision of services” and replacing it with “forestry and information products, and fees for research, consultation, testing, analysis and administration services”. One new statutory item has been added, “In support of infrastructure costs directly or indirectly relating to the exploration, development, production or transportation of oil and gas in the offshore area of Newfoundland”.

Parliament – *Senate Ethics Officer* – This newly created organization has one new vote, Vote 20 “Program expenditures” and one statutory item, “Contributions to employee benefit plans”.

Privy Council – *Department* – Vote 1 wording has been modified by deleting reference to, “and the grant listed in the Estimates”.

Public Safety and Emergency Preparedness – *Canada Border Services Agency* – Vote 10 and Vote 15 have become multi-year appropriations and are now displayed in schedule 2 of the summary table Items for inclusion to the Proposed Schedule 2 to the Appropriation Bill.

Transport – *Office of Infrastructure of Canada* – This organization was moved to Transport and three new votes were added. Vote 65 “Operating funding for the Old Port of Montreal Corporation Inc.” Vote L70 “Investment in contributed surplus of Parc Downsview Park Inc. for the purpose of allowing the completion of the transfer of lands from National Defence to Parc Downsview Park Inc.”. Vote L75 “To establish a borrowing authority of up to \$100,000,000 for Parc Downsview Park Inc.”.

Treasury Board – *Secretariat* – Vote 5 wording has been modified by replacing reference to “minor and unforeseen expenses” with “urgent or unforeseen expenditures” and by deleting “awards under the Public Servants Inventions Act” and adding “grants and contributions not listed in the Estimates and the increase of the amount of grants listed in these, where those expenditures are within the legal mandate of a government organization”.

Treasury Board – *Canada School of Public Service* – One new statutory item has been added “Spending of revenues pursuant to subsection 18(2) of the *Canada School of Public Service Act*”.

Treasury Board – *Public Service Human Resources Management Agency of Canada* – Since the contribution vote now falls below the \$5 million threshold this organization has combined their two votes into one: Vote 30 “Program expenditures”.

Western Economic Diversification – The statutory item “Minister of Western Economic Diversification – Salary and motor car allowance” is now displayed under Canada Revenue Agency.

Changes in 2006–2007 Main Estimates

Changes to Presentation (Strategic Outcomes and Program Activities and Program Activity Descriptions):

Each organization listed in the Main Estimates is described in terms of its strategic outcomes, program activities and program activity descriptions. This sub-section provides a listing of those departments, agencies and Crown corporations with changes to their outcomes, program activities, or program activity descriptions. Unless otherwise noted, when a department undergoes a major change, the old and new structures will be displayed in the Program by Activities table. The 2006-2007 Report on Plans and Priorities, to be tabled later, will provide a detailed crosswalk of major changes between the old and the new structure plus an explanation of why the changes were made.

Departments and Agencies:

- Agriculture and Agri-Food – Department
- Assisted Human Reproduction Agency of Canada (new organization)
- Atlantic Canada Opportunities Agency
- Canada Border Services Agency
- Canada Emission Reduction Incentives Agency (new organization)
- Canadian Centre for Occupational Health and Safety
- Canadian Firearms Centre
- Canadian Grain Commission
- Canadian Space Agency
- Citizenship and Immigration – Department
- Copyright Board
- Correctional Service
- Courts Administration Service
- Environment – Department
- Foreign Affairs and International Trade (Foreign Affairs) - Department
- Foreign Affairs and International Trade (International Trade – Department
- Governor General

Changes in 2006–2007 Main Estimates

- House of Commons
- Human Resources and Skills Development – Department
- Human Resources and Skills Development (Social Development) – Department
- Immigration and Refugee Board of Canada
- Indian Affairs and Northern Development – Department
- Indian Specific Claims Commission (new organization)
- Justice – Department
- Military Police Complaints Commission
- National Defence – Department
- Natural Resources – Department
- Office of Infrastructure of Canada
- Office of the Ethics Commissioner
- Privy Council – Department
- Public Service Commission
- Public Service Human Resources Management Agency of Canada
- Public Service Labour Relations Board
- Public Service Staffing Tribunal
- Public Works and Government Services
- Royal Canadian Mounted Police
- Royal Canadian Mounted Police External Review Committee
- Senate Ethics Officer (new organization)
- Transport – Department
- Veterans Affairs

Changes in 2006–2007 Main Estimates

Crown Corporations:

- Canadian Museum of Nature
- National Gallery of Canada

Agriculture and Agri-Food Department

Strategic Outcome

Health of the environment.

Program Activity Descriptions

Environment

Achieving environmental sustainability of the sector and progress in the areas of soil, water, air and biodiversity.

Strategic Outcome

Security of the food system.

Program Activity Descriptions

Food Safety and Food Quality (FSQ)

Minimizing the risk and impact of food-borne hazards on human health, increasing consumer confidence and improving the sector's ability to meet or exceed market requirements for food products.

Business Risk Management

Enhancing the producer's capacity to manage risk, and increasing the sector's viability and profitability.

National Farm Products Council (NFPC)

To advise the Minister of Agriculture and Agri-Food on all matters relating to the agencies established under the *Farm Products Agencies Act*, with a view to maintaining and promoting an efficient and competitive agriculture industry:

- to review the operations of the marketing agencies to ensure they meet their objectives as set out in legislation
- to work with the agencies in promoting more effective marketing of farm products in inter-provincial and export trade
- to work with promotion research agencies in connection with primary production research and promotion activities relating to farm products.

Strategic Outcome

Innovation for growth.

Program Activity Descriptions

Innovation and Renewal

Equipping the sector with new business and management skills, bioproducts, knowledge-based production systems and strategies to capture opportunities and manage change.

Canadian Pari-Mutuel Agency

To regulate and supervise pari-mutuel betting for the protection of the betting public on a full cost recovery basis, in the most effective and efficient manner possible.

Rural and Co-operatives Secretariats

Leads an integrated, government-wide approach, called the Canadian Rural Partnership, through which the government aims to co-ordinate its economic, social, environmental and cultural policies towards the goal of economic and social renewal of rural Canada.

Facilitating relations between cooperatives and federal departments and agencies with legislation or policies affecting cooperatives. As well, the Secretariat provides advice across government on policies affecting cooperatives, coordinates the implementation of such policies, and acts as a centre of expertise on cooperatives within the federal government.

Agriculture and Agri-Food Department

Strategic Outcome

Security of the food system and Innovation for growth.

Program Activity Descriptions

Markets & International

Expanding international opportunities for the Canadian agri-food sector.

Agriculture and Agri-Food Canadian Dairy Commission

Strategic Outcome

To enhance the vitality of the Canadian dairy industry for the benefit of all stakeholders.

Program Activity Descriptions

Administer milk supply management system

- Set support prices for butter and skim milk powder.
- Determine and recommend National quota for industrial milk production.
- Facilitate within the dairy industry.
- Administer Domestic Seasonality (supply and demand) Program.

Program by Activities

(thousands of dollars)	2006–2007 Main Estimates		2005–2006
	<u>Budgetary</u>	Total	Main
	Operating		Estimates
Administer milk supply management system	3,513	3,513	3,202
	3,513	3,513	3,202

Agriculture and Agri-Food Canadian Food Inspection Agency

Strategic Outcome

Protection from preventable health risks related to food safety or the transmission of animal diseases to humans.

Program Activity Descriptions

Food Safety and Public Health

The Canadian Food Inspection Agency (CFIA), along with many federal, provincial and municipal organizations, is working to improve the overall health of Canadians. The CFIA's primary contribution to this effort is in helping to ensure that food is safe, consumers have appropriate information on which to base healthy food choices and animals are healthy.

Strategic Outcome

A fair and effective regulatory regime for food, animals and plants.

Program Activity Descriptions

Science and Regulation

Providing a fair and effective regulatory regime for food, animals and plants. Maintaining the integrity of CFIA's regulatory policy, inspection and certification activities.

Strategic Outcome

A sustainable plant and animal resource base.

Program Activity Descriptions

Animal and Plant Resource Protection

Activities related to controlling invasive species; regulation of agricultural products, including products of biotechnology; and protecting Canada's livestock, crops and forests from regulated pests and disease.

Strategic Outcome

Security from deliberate threats to Canada's food supply and agricultural resource base.

Program Activity Descriptions

Public Security

Activities related to contributing to public security and agri-food security.

Agriculture and Agri-Food
Canadian Grain Commission

Strategic Outcome

A grain quality assurance system that addresses the changing requirements of domestic and international grain markets.

Program Activity Descriptions

Deliver Inspection and Testing Services – Appropriations

Deliver inspection and testing services utilizing a grain quality assurance system that:

- meets the legislative mandate of the Canada Grain Act and the grain industry requirements from producers to customers;
- provides scientific and technical support; and
- deals with both visually distinguishable and indistinguishable varieties and the capacity to segregate grain by specific characteristics.

Deliver Inspection and Testing Services – CGC Revolving Fund

Deliver inspection and testing services utilizing a grain quality assurance system that:

- meets the legislative mandate of the Canada Grain Act and the grain industry requirements from producers to customers;
- provides scientific and technical support; and
- deals with both visually distinguishable and indistinguishable varieties and the capacity to segregate grain by specific characteristics.

Strategic Outcome

A grain quantity assurance system that addresses the changing needs of the grain industry.

Program Activity Descriptions

Deliver Weighing Services – Appropriations

Deliver weighing services through the grain quantity assurance system that:

- meets the legislative mandate of the Canada Grain Act and the grain industry requirements from producers to customers; and
- provides technical support.

Deliver Weighing Services – CGC Revolving Fund

Deliver weighing services through the grain quantity assurance system that:

- meets the legislative mandate of the Canada Grain Act and the grain industry requirements from producers to customers; and
- provides technical support.

Strategic Outcome

Research and development on grain quality that enhances the marketability of Canadian grain.

Program Activity Descriptions

Conduct Research to Understand and Measure Grain Quality – Appropriations

Conduct research and development on grain quality that enhances the marketability of Canadian grain through:

- research that supports the grain quality assurance system;
- research that addresses emerging issues; and
- the evolution of grain standards that meet the changing industry needs.

Agriculture and Agri-Food Canadian Grain Commission

Strategic Outcome

Producers' rights are supported to ensure fair treatment within the grain handling system.

Program Activity Descriptions

Protect Producers' Rights – Appropriations

Protect producers' rights as set out in the Canada Grain Act by:

- administering a licensing and security system;
- ensuring fair treatment of producers by licensed grain companies and dealers;
- providing grain quality information to producers; and
- administering fairly the producer car delivery option.

Protect Producers' Rights – CGC Revolving Fund

Protect producers' rights as set out in the Canada Grain Act by:

- administering a licensing and security system;
- ensuring fair treatment of producers by licensed grain companies and dealers;
- providing grain quality information to producers; and
- administering fairly the producer car delivery option.

Atlantic Canada Opportunities Agency Department

Strategic Outcome

Enterprise Development – Improved growth and competitiveness of Atlantic small and medium-sized enterprises (SMEs), leading to increased productivity, earned incomes and job creation.

Program Activity Descriptions

Fostering SME Development and Regional Economic Capacity Building

To improve the region's capacity for economic growth through a variety of mechanisms including: assistance to small and medium-sized enterprises to help them start, expand or modernize their business; partnering with universities and other institutions to increase the Region's research and development capacity, commercialization and productivity; and, to promote and participate in the region's transition to the knowledge economy.

Access to Business Information

Providing counselling, mentoring, information referrals to Atlantic Canadians.

Strategic Outcome

Community Development – Improved community economic infrastructure and strategic planning capacity leading to improved employment opportunities and economic growth in the Atlantic region.

Program Activity Descriptions

Community Economic Development

Projects which help communities build their capacity and confidence in order to identify and coordinate the implementation of priorities for economic development in their region. These projects would be supported via community economic development organizations who, in turn: provide financial and technical assistance to businesses and communities; conduct strategic planning; coordinate economic development; and implement a range of self-sustaining development projects under strategic community economic development initiatives. Community economic development organizations can be any organization which supports projects at a local, community and sub-community or municipality level.

Special Adjustment Measures

Supports initiatives designed to address the specific economic adjustment needs of Atlantic Canadian communities.

Infrastructure Programming

Programming designed to renew and build infrastructure in rural and urban municipalities in Atlantic Canada.

Atlantic Canada Opportunities Agency Department

Strategic Outcome

Policy, Advocacy & Co-ordination – Strategic, researched policy positions that reflect the region's potential; influence on national policies and programs that affect Atlantic development and interests; and co-ordination of other federal departments' policies and programs within the region to form integrated approaches to development leading to strengthened Atlantic economic development.

Program Activity Descriptions

Policy Research

Carrying out policy analysis and research to determine the areas in which the Agency will act to most effectively carry out its mandate.

Advocacy

Advocating the interests of Atlantic Canada to make new government initiatives more responsive to the needs of Atlantic Canada.

Coordination

Engaging economic partners in addressing the Atlantic region's strategic economic priorities.

Atlantic Canada Opportunities Agency Enterprise Cape Breton Corporation

Strategic Outcome

Community economic development for Cape Breton and Mulgrave.

Program Activity Descriptions

Delivery Agent

As a Crown corporation, Enterprise Cape Breton Corporation (ECBC) has broad powers and a flexible mandate that make it ideally suited to provide services for the Government of Canada. The flexibility inherent in the Corporation allows it to deliver services and programs more efficiently and provides a greater range of mechanisms to achieve desired ends. ECBC is responsible for the delivery of the programs of the Atlantic Canada Opportunities Agency (ACOA) on Cape Breton Island. In 1995, ECBC and ACOA entered into a Memorandum of Understanding (MOU) under which ECBC delivers ACOA's programs for Cape Breton Island and the Mulgrave area. The MOU was renegotiated with ACOA for an additional five year term effective April 1, 2005. In November 2000, ECBC entered into an MOU with the Cape Breton Growth Fund Corporation (CBGF) to provide administrative and operational support. ECBC assigns staff to support the Board of Directors and the operations of the CBGF.

Support to Business

ECBC's objective for support to business is to grow the economy by encouraging private sector investment in projects that enhance the competitiveness of commercial enterprises and increase trade opportunities to produce long-term, sustainable jobs. Plans and priorities under this initiative include: Access to Capital, Human Resource Initiative and an E-Commerce Initiative for the Tourism Industry.

Support to Communities

The key objective for support to communities is to help communities plan and implement community development projects that have a direct link to long-term, self-sustaining economic activity. The Corporation undertakes a number of initiatives in this area including: community capacity building, festivals and events, convention and sporting events, community revitalization, and the Greater Cape Breton Partnership.

Investment

The key objective for investment is to attract new business investment to Cape Breton Island. Some of the initiatives that will be undertaken will include the production of investment-related promotional material as well as investment-attraction missions.

Advocacy

The key objective for this program activity is to advocate for Cape Breton Island interests, priorities and concerns in government decisions. The advocacy role is aimed at increasing Cape Breton Island's presence at inter- and intra-governmental meetings and is meant to advance the interests, priorities and concerns of Cape Breton Island in government project selection, decisions and actions.

Policy and Research

The key objective for policy and research is to help provide a sound basis for the Corporation's policy priorities and programs. Activities related to policy and research include research that is internally driven, research that is carried out with external partners and attendance at various seminars relating to economic development policy. Research is carried out in a number of areas including economic analysis, sector and issue analysis, and planning and performance management.

Canada Revenue Agency

Strategic Outcome

Taxpayers meet their obligations and Canada's revenue base is protected.

Program Activity Descriptions

Client Assistance

Assist clients in meeting their tax obligations under the self-assessment system.

Assessment of Returns and Payment Processing

Provide assistance and information to clients; process client returns for tax programs; register every business in Canada; process, assess and validate information; establish and maintain account status; manage excise programs; receive payments; and re-engineer business process for the Canada Revenue Agency.

Filing and Remittance Compliance

Identify and address non-compliance with the filing and remitting requirements to keep tax debt within targeted levels.

Reporting Compliance

Ensure complete and accurate disclosure by taxpayers of all required information to establish tax liabilities. Compliance with Canada's tax legislation is required to protect the tax base, and ensure Canadians pay their required share of taxes. Activities for enhancing compliance include increasing taxpayers' understanding of their tax obligations through outreach activities, client service and education; identifying and addressing non-compliance through risk assessment, audit and investigation; and establishing strategic partnerships with stakeholders to leverage compliance efforts. Compliance serves a diverse client base from individual taxpayers to multinational corporations, trusts, et cetera.

Appeals

Provide a timely and impartial dispute resolution process for clients who disagree with decisions taken by the Agency.

Strategic Outcome

Eligible families and individuals receive timely and correct benefit payments contributing to the integrity of Canada's income security system.

Program Activity Descriptions

Benefit Programs

Provide support to families and children and help reduce the depth of child poverty, by providing Canadians with income-based benefits and other services that contribute directly to their economic and social well-being.

Canadian Heritage Department

Strategic Outcome

Canadians express and share their diverse cultural experiences with each other and the world.

Program Activity Descriptions

Creation of Canadian Content and Performance Excellence

Expressions of culture start with the creation of works and performances. Canadian Heritage fosters an environment where such creation happens and where creators are appropriately compensated for their work, reflecting linguistic duality and the diversity and richness of our country while achieving demonstrable levels of excellence. Such an environment is not a given. In particular, the segmentation of the relatively small Canadian cultural market, coupled with its traditional openness to foreign cultural products, imposes significant challenges to our creative output. Although excellence is what professional artists and high-performance athletes strive for, its achievement requires a sufficiently supportive structure, both domestically and internationally, at all levels of cultural and sport development. Canadian Heritage focuses on enabling creators to produce and athletes to perform by supporting the structures and cultural industries needed for high-quality works and performances.

Sustainability of Cultural Expression and Participation

Cultural life rests on the continued existence of an intricate network of institutions, not-for-profit organizations, corporations, volunteers, professionals and audiences. Like any ecosystem, it thrives on a nurturing environment. It must adapt and renew itself. This network is both resilient – it relies on considerable dedication, experience and talent – and fragile – some crucial elements of the chain are vulnerable to investment patterns, market failures, foreign competition, technological changes, labour strains and international trade rules and agreements. As an integral part of the network, Canadian Heritage fosters the sustainability of the many organizations, cultural industries, entrepreneurs, and artistic and athletic performance events comprising this rich ecosystem. It does so by assisting them to increase their capacity to attract investment, achieve adequate copyright protection, develop deeper roots within communities, seize international opportunities, maximize their human resource assets, practise sound business planning and build strong organizational partnerships. The Department supports sustainability by focusing its activities on both domestic and international fronts in the fields of arts, culture, heritage and sport.

Preservation of Canada's Heritage

An integral part of sharing cultural experiences in Canada is the assurance to Canadians that their stories and heritage will be safeguarded for future generations. It is through the preservation and communication of Canada's heritage that the national context is understood, including the myriad stories and peoples' histories that continue to define the country. Canadian Heritage resources are also major community assets for connecting residents and for drawing tourists. Canadian Heritage plays a leading role in facilitating the preservation of and access to cherished cultural works and practices, including film, music, Aboriginal languages, Aboriginal stories and national cultural artifacts and archives.

Access and Participation in Canada's Cultural Life

Cultural experiences depend on participation. In addition to an active involvement in the creative process itself, participation can take a considerable variety of forms: reading, attending exhibitions or performances, learning through the Internet, listening to radio, watching films or television, visiting heritage sites, etc. All forms of participation are essential links in the chain that permits continued production of Canadian works, widespread appreciation of the richness of Canadian culture and sustainable revenues for cultural organizations. Canadian Heritage helps to create the conditions for a wide access to and participation in the various modes of cultural exchange. The Department focuses on exposing individuals and communities to the wide array of cultural experiences in Canada, bridging challenges such as distance, community size, language and ethno-cultural diversity. The primary vehicles for engaging Canadians in cultural participation are arts activities, mass media, and conveyors of heritage – whether virtually, or through objects, events or sites.

Canadian Heritage Department

Strategic Outcome

Canadians live in an inclusive society built on inter-cultural understanding and citizen participation.

Program Activity Descriptions

Promotion of Inter-Cultural Understanding

Seizing the benefits of diversity in Canada means that Canadians can understand and negotiate perspectives across their cultural differences. This requires deliberate efforts, particularly in a country like Canada where multiple lines of diversity risk fragmenting rather than uniting citizens. The result of ongoing efforts is a uniquely Canadian model recognized by many around the world. The Department of Canadian Heritage fosters intercultural understanding by generating opportunities for Canadians to share experiences and learn about each others' cultures. One of the ways this is done is through the promotion of linguistic duality and the learning of Canada's two official languages. The Department also supports multicultural initiatives that raise awareness about diverse cultural considerations in communities and that create spaces for dialogue among various groups. With attention to the unique opportunities generated by sport activities in Canada, the Department promotes diversity as a means of enhancing intercultural experiences and understanding.

Community Development and Capacity-Building

Aboriginal and official languages communities play a uniquely important role in Canada as part of the fabric that has shaped Canadian society since its beginning. These communities face particular challenges, often finding themselves in minority situations with their distinct cultural contributions at risk. Canadian Heritage supports the development of Aboriginal organizations with programs that build on the cultural strengths of Aboriginal peoples and help Aboriginal communities and networks to thrive. Canadian Heritage also supports the development of official-language minority communities by enhancing their participation in different sectors of society and by working to ensure their vitality in all parts of the country.

Participation in Community and Civic Life

An inclusive society means that all Canadians feel that they have a stake in their communities and their country; that they can participate and feel that their contribution matters. In a country as vast and culturally diverse as Canada, the government has an important role to play in enabling this vitality and providing a fertile ground for all communities to reach their full potential. Canadian Heritage programs and activities contribute to this goal by helping to address some of the key impediments to community and civic participation. This is done through learning and awareness-building initiatives that educate Canadians about their country and their citizenship, both at home and abroad, while helping to educate the rest of the world about Canada. It is also achieved through the development of sport participation and volunteerism in communities. Youth programs generate opportunities, encourage participation and foster a sense of belonging for young Canadians at a time in their lives when they are first becoming aware of their civic responsibility. Targeted measures for ethno-cultural and ethno-racial communities assist these groups in overcoming their distinct participation challenges. Targeted measures for Aboriginal communities, including Aboriginal youth and women, ensure the participation of Aboriginal peoples and build upon Aboriginal cultures.

Canadian Heritage Canadian Broadcasting Corporation

Strategic Outcome

A national public broadcasting service that is primarily Canadian in content and character.

Program Activity Descriptions

Television Services

National, regional and local television broadcasting services in English and French.

Radio Services

National, regional and local radio broadcasting services in English and French, and an international service, Radio Canada International.

Transmission and distribution of programs

The distribution of the national broadcasting service to virtually all parts of Canada through satellite, microwave and landlines. Included is the provision of the signal that delivers service to the individual radio and television receivers through CBC/SRC transmitters, payments to privately-owned affiliates carrying CBC/SRC programs, and facilities to delay or pre-release broadcasts as required in the different time zones of the country.

Newsworld

CBC Newsworld is an English-language news and information specialty service distributed through satellite and cable delivery. The incremental cost of its operations is funded from its revenues.

Réseau de l'information

Le Réseau de l'information is a French-language news and information specialty service distributed through satellite and cable delivery. The incremental cost of its operations is funded from its revenues.

Galaxie

A continuous music network for the home or business market, Galaxie is available by subscription on digital cable and satellite distribution and currently provides 45 different channels of CD-quality uninterrupted music, 24 hours a day.

Canadian Heritage Canadian Museum of Nature

Strategic Outcome

Interest in, knowledge of and appreciation and respect for the natural world through collections of natural history objects, public education programs and research reflecting a special but not exclusive perspective on Canada.

Program Activity Descriptions

Public education programmes

Develops and maintains exhibitions, programmes, electronic and print publications, the Museum's web site nature.ca and activities to foster an understanding of, and empathy with, nature.

Collections management

Develops, preserves and makes accessible collections of natural history specimens, objects and information materials to meet the growing needs of both the public and private sectors for research, education and informed decision-making about the natural world.

Research

Explores the past and assists Canadians in preparing for the future by conducting both systematic and applied research, as well as by developing and maintaining networks and linkages with Canadian and international scientific communities.

Accommodation

Provides secure and functional facilities that meet all safety and building code requirements including a renovated Museum facility that furthers the vision and mandate of the Museum.

Canadian Heritage Library and Archives of Canada

Strategic Outcome

Canada's documentary heritage is safeguarded and organized for current and future generations.

Program Activity Descriptions

Development of Collection

The Library and Archives of Canada (LAC) collection, which includes published and archival materials of national significance in all media, is an unparalleled record of the development and achievements of Canadian society and a reflection of the rich intellectual and creative output of its people. Building a national documentary resource for all aspects of the study of Canada provides the foundation for delivery of services and interpretative programs that strengthen Canadians' collective understanding and appreciation of the nation's past, present and future.

Description of Collection

LAC ensures that the collection it holds is described to allow Canadians from diverse backgrounds and with diverse information needs to be able to search, use and understand the content we hold and the context in which it was created. Description takes many forms to support layered, user-friendly access to the collection. Normally, descriptions are governed by nationally and internationally accepted codes of practice such as the Anglo-American Cataloguing Rules (AACR2) and Rules for Archival Description (RAD) and conform to internationally interoperable communications formats such as MARC21 which is a Machine-Readable Cataloguing record that defines formats for bibliographic, authority, holdings, classification, and community information.

Care of Collection

Safeguarding Canada's documentary heritage for future generations of Canadians is essential to the mandate of LAC. Care of collection consists of the development and implementation of policies, procedures and activities that ensure the current and long-term accessibility of the collection.

Strategic Outcome

Canada's documentary heritage is known, accessible and used.

Program Activity Descriptions

Services

LAC information services, consultation services, rights management (including Access to Information and Privacy, personnel records and rights clearance) and lending services facilitate Canadians' access and use of Canada's documentary heritage. These services are used by the general public, both in Canada and abroad, for research and learning purposes, by government employees in the conduct of their work, and by other libraries and archives to augment the services they offer to their clients. Based on identified client needs and preferences, these services are available through multiple channels.

Programs

LAC designs and delivers interpretive programs and public activities through a variety of media to make the documentary heritage of Canada known to Canadians. By promoting and giving meaning and context to the LAC collection, LAC strengthens Canadians' collective understanding and appreciation of the nation's past, present and future. Through programs, Canadians and those interested in Canada gain new knowledge, understanding and appreciation of the Canadian experience as it is reflected in Canada's rich documentary heritage.

Canadian Heritage Library and Archives of Canada

Portrait Gallery of Canada

The Portrait Gallery of Canada will showcase portraiture of contemporary and historical Canadians from all parts of society, and will be a major cultural venue for Canada and for tourists to the National Capital Region. Portrait Gallery of Canada functions include acquisitions and research, strategic initiatives and exhibitions, description and care of portrait collections, public programming and communications.

Strategic Outcome

Information and knowledge are effectively managed within the Government of Canada.

Program Activity Descriptions

Information Management Strategies

Information and knowledge, when effectively managed, enable client-centred government and service delivery transformation, and reduce both cost and risk to the Government of Canada. Effective Information Management (IM) and Knowledge Management (KM) ensures that useful and reliable information is available, interoperable and re-purposed as needed; ensures that policy and decision-making is well informed; and supports transparency and accountability. LAC derives its authority from the *Library and Archives of Canada Act*, the Management of Government Information Policy, the Communications Policy of the Government of Canada, and the Government Security Policy. LAC ensures that its IM/KM programs and practices are aligned with the legislation and support government and departmental directions, priorities and strategic outcomes.

Information Management Solutions

Under the Management of Government Information Policy, LAC is accountable for the development of operational solutions including standards, guidelines, tools, initiatives, processes, systems and training to support federal departments and agencies in managing their information resources in all media throughout their life cycle, and for providing professional support to government IM communities.

Information Management Services

LAC provides IM services to the Government of Canada through Federal Record Centres and the Council of Federal Libraries.

Canadian Heritage National Battlefields Commission

Strategic Outcome

Prestigious, accessible, safe and educational historic and urban sites.

Program Activity Descriptions

Conservation

As part of this activity, the National Battlefields Commission preserves the legacy of the Battlefields Park for future generations by maintaining infrastructures, the horticultural landscape and a protected site for Canadian and foreign users and visitors.

Development

The purpose of this activity is to showcase the history of the site and its cultural, recreational and natural treasures so as to emphasize its dual role as a historical and a city park. In support of this activity, the National Battlefields Commission carries out improvements, welcomes visitors, puts on exhibits and activities, provides public services and disseminates information to users and visitors from both Canada and abroad.

Canadian Heritage National Film Board

Strategic Outcome

Canadians have a better understanding of Canada and the world through the production of and accessibility to relevant, challenging and innovative audiovisual works.

Program Activity Descriptions

Production of audiovisual works

The National Film Board (NFB) is a fully integrated organization that combines production, distribution, technical support, research and development, outreach, access and conservation activities in many, if not most, of its initiatives, that results in a script to screen and beyond approach.

The NFB is engaged in the production of socially and culturally relevant films about major issues that are central to the lives of Canadians. Since the 1940s, the NFB has developed and continues to develop an expertise in film production in Canada. Experimentation in form, technological innovation and cinematographic treatment are essential to bold media-making and related technical innovation and support.

The production activity includes the conceptualization, research, development, production and social marketing of documentaries, animation film and new media content, as well as other emerging forms. In fact, this activity is more than mere production; it is the programming activity by which films are planned, produced and used by the public as social tools of knowledge building, media awareness, social innovation and citizen engagement.

Through this activity, the NFB plays a significant role in the identification, development and mentorship of talent and creative skills; for this, it engages in filmmaker support, making it an incubator of new talent. Furthermore, the NFB delivers on its national and international mandate of producing, distributing and promoting films designed to interpret Canada to Canadians and to other nations by the work of its international co-production unit and the coordination of NFB relevant cultural activities.

Distribution of audiovisual works

The NFB's mandate includes distributing its products as widely as possible to Canadian and foreign audiences. Using the means of the marketplace to reach its audiences, the NFB maximizes its revenues. Distribution activities include: commercializing audiovisual catalogues and well established stock shot library; developing and diversifying markets for NFB products in Canada and abroad; repackaging for specific markets; offering quality client service delivery; expanding its holdings through acquisitions or partnership agreements; and undertaking market research. Through its distribution activities, the NFB develops strategic cooperation with the public and private sectors in Canada and abroad.

Accessibility and Outreach

Access and outreach activities connect Canadians with relevant media resources to foster citizen engagement through lifelong learning. This is achieved by increasing the presence and use of primary and secondary materials from the extensive NFB collection in various learning channels and creating new networks where none exist; enabling media literacy for all Canadians; and encouraging Canadians to make full use of the collection. Access and outreach activities also consist of ensuring the on-going access to the NFB collection through the management of the collection's conservation, indexing, and cataloguing and restoration, and making it more accessible for future generations through innovative use of new technologies and partnerships, such as on-line film libraries, on-line learning centres for schools and digital consultation centres.

Outreach activities include consultation centres and cinemas in Montreal and in Toronto, collections in partner library systems in all regions of Canada, regular public screenings from coast to coast, a membership program, on-line film libraries, workshops for the public young and old, as well as master classes and a comprehensive web site which integrate

Canadian Heritage National Film Board

interactive productions and provide opportunities for dialogue and knowledge sharing. These activities serve to identify, establish, build and sustain deep and continuing relationships with Canadians in communities across Canada, and secondarily, around the world. They serve to strengthen the NFB brand, and alternatively, Canadians' knowledge and understanding of Canadians and Canada's place in the world.

Research and Advisory Services

The NFB is mandated to engage in research in film activity and to make available the results and to advise the Governor in Council in connection with film activities. This activity applies to research connected to filmmaking and the film industry and conducting technical and development projects to advance the art and science of filmmaking. The NFB maintains an environment dedicated to excellence and innovation that is conducive to incubating and prototyping new initiatives, industry collaboration and nurturing new avenues for creativity in the audiovisual form.

Revolving Fund

The Estimates are based on cash requirements for the NFB over the fiscal year and the Revolving Fund is used to pay for the Board's expenses calculated on an accrual basis.

Canadian Heritage National Gallery of Canada

Strategic Outcome

Interest in, knowledge of and appreciation and respect for visual art through collections of historic and contemporary works of art, programs and research that reflect a special but not exclusive perspective on Canada.

Program Activity Descriptions

Collections

To acquire, preserve, research and document historic and contemporary works of art in order to represent and present arts heritage. It includes Curatorial Research, Acquisitions and Preservation.

Outreach

To foster broad access nationally and internationally to the Gallery's collection, research, exhibitions and expertise. It includes exhibitions, both in the National Capital Region and other venues in Canada and abroad, educational programming and publications, communications and marketing activities designed to reach as wide an audience as possible.

Accommodation

To provide secure and suitable facilities, which are readily accessible to the public, for the preservation and exhibition of the national collections.

Program by Activities

Canadian Heritage

National Museum of Science and Technology

Strategic Outcome

Interest in, knowledge of and appreciation and respect for science and technology through collections of scientific and technological objects, programs and research reflecting a Canadian perspective.

Program Activity Descriptions

Heritage Preservation

Heritage preservation includes two main components, Collection Management, which includes preservation and conservation, and Research, which comprises those activities contributing to the building of a knowledge base about the scientific and technological heritage of Canada. The Corporation, as the only comprehensive science- and technology-collecting institution in Canada, has a special responsibility for the development of a Canadian national collection. In view of the breadth of the potential subject matter to be covered, critical choices must be made in determining collection content and priorities. Collection development activities assist the Corporation in making informed decisions on collection content, while collection management activities encompass the activities required to manage the objects accessioned into the collection. The Corporation has identified seven major subject areas on which it will focus its research activities. These are: aviation, communications, manufacturing, natural resources, renewable resources including agriculture, scientific instrumentation and transportation.

Sharing Knowledge

The Corporation seeks to engage Canadians in discovering, considering and questioning past and present developments in science and technology, and their impact on society and individuals. The Corporation fosters a sense of identity and belonging for all Canadians, as well as pride in Canada's scientific and technological history and achievements. It also encourages active and informed participation by Canadians in the future development of our technological society. The primary reason for interpreting Canada's scientific and technological heritage is to provide Canadians with meaningful information about themselves and Canada. Just as the Transformation of Canada theme directs research and collection activities, it likewise guides the Corporation in its knowledge dissemination activities. These typically depict the historical development of science and technology, provide information on the objects in the collection and review the relationships between science, technology and Canadian society. The Corporation disseminates knowledge to its audiences in three primary ways: through its public facilities, its Web sites and its publications.

Accommodation

Facilities are an integral part of museum operations. They do more than house staff; they also provide a venue for the public, and housing for the collection. Facilities have a profound effect on museum visitation. Appropriate museum architecture attracts visitors, contributes to the atmosphere and becomes a symbol of the institution's mandate. A large portion of comments by visitors allude to their satisfaction or dissatisfaction with the quality of the facilities and their related services.

Canadian Heritage Public Service Commission

Strategic Outcome

A highly competent, non-partisan and representative Public Service, able to provide service in both official languages, in which appointments are based on the values of fairness, equity and transparency.

Program Activity Descriptions

Recruitment and Assessment Services

Recruitment and Assessment Services develop and maintain the resourcing systems that link Canadians and public servants seeking employment opportunities in the federal public service with hiring departments and agencies. It provides assessment-related products and services in the form of research and development, consultation, assessment operations and counselling for use in recruitment, selection and development throughout the federal public service. This activity also includes delivering resourcing services, programs and products to departments and agencies, to Canadians and public servants, through client service units located across Canada.

Appointment Integrity and Political Neutrality

Appointment Integrity and Political Neutrality develops, maintains and monitors the implementation of a policy and regulatory framework for safeguarding the integrity of public service staffing and ensuring political neutrality. This activity includes establishing policies and standards, delegation and oversight of appointment authorities to departments and agencies, and administering non-delegated authorities such as executive appointments and priority administration. This activity also includes conducting audits and studies, investigations and inquiries, as well as administering the appeal process and reporting to Parliament on the integrity of public service staffing.

Canadian Heritage
Public Service Labour Relations Board

Strategic Outcome

Harmonious labour relations in the Federal Public and Parliamentary Service.

Program Activity Descriptions

Administration of collective bargaining and grievance adjudication systems, including mediation, and compensation research and analysis

The Public Service Labour Relations Board administers the adjudication systems in the federal public and parliamentary services. Board members administer the legislation by holding grievance adjudication and complaint hearings throughout Canada. Grievances referred to the Board arise from the application or interpretation of a collective agreement or an arbitral award, or from the imposition of major disciplinary action and termination of employment. Other proceedings before the Board include arbitration, conciliation through Public Interest Commissions, mediation, compensation research and analysis, applications for certification, revocation of certification, displacement, complaints of unfair labour practices, identification of positions whose duties are of a managerial and confidential nature, essential services agreements, determination of successor rights, enforcement of obligations of employer and employee organization, and complaints of disciplinary actions or discrimination that resulted from federal employees having exercised their rights relating to workplace health and safety under Part II of the Canada Labour Code.

Canadian Heritage Public Service Staffing Tribunal

Strategic Outcome

Contribute to a competent, non-partisan and representative Public Service through impartial and timely disposition of disputes related to the internal staffing and lay-off processes in the Government of Canada.

Program Activity Descriptions

Processing of complaints relating to the appointment, revocation and lay-off provisions under the Public Service Employment Act

Pursuant to the new *Public Service Employment Act*, the mandate of the Public Service Staffing Tribunal (the "Tribunal") is to consider and dispose of complaints stemming from an internal appointment, the implementation of a corrective measure ordered by the Tribunal, the revocation of an appointment or a lay-off. In considering whether a complaint relating to an internal appointment or a lay-off is substantiated, the Tribunal may interpret and apply the *Canadian Human Rights Act*. If the Tribunal finds that the complaint is founded, it may order that compensation be paid. The Tribunal may also provide mediation services at any stage of a proceeding in order to resolve a complaint.

Status of Women — Office of the Co-ordinator

Strategic Outcome

Gender equality and the full participation of women in the economic, social, cultural and political life of Canada.

Program Activity Descriptions

Promote Equitable Public Policy

To influence the development of government policies, research, programs and services that take into account the diversity of women's perspectives and realities. This serves to assist the government in developing and implementing federal initiatives that narrow gaps between women and men and expand opportunities for women.

Build Knowledge and Organizational Capacity on Gender Equality

To develop the knowledge and capacity of a number of stakeholders so that they are better informed and able to address gender-based issues of significance to Canadian society in a coordinated manner.

Strategic Outcome

Canadians have access to high quality popular Canadian audio-visual productions.

Program Activity Descriptions

Canada Feature Film Fund

The Canada Feature Film Fund (CFFF) is the primary instrument of the federal government's Canadian Feature Film Policy, entitled From Script to Screen. The objective of the policy, and of the CFFF, is to capture 5% of the domestic box office by the end of fiscal year 2006-2007. The Fund provides assistance for screenwriting, project development, production, marketing and versions of Canadian feature films that have high box office potential in Canada. In administering the CFFF, Telefilm seeks to support the development, production and marketing of compelling, distinctively Canadian feature films that reflect Canadian society, including its cultural diversity.

The financial assistance provided by Telefilm Canada is intended to contribute to the overall growth, and professional and economic development of the Canadian film industry. Telefilm's financial participation may be provided in various forms: investments, conditionally repayable advances, loans, loan guarantees, grants or corporate envelopes. The majority of Telefilm Canada's activity centres on investments in individual projects based on a rigorous project selection process. As an investor, Telefilm Canada shares the risks and eventual revenues of the productions it participates in financially.

The CFFF is the subject of a Memorandum of Understanding between Telefilm Canada and the Department of Canadian Heritage. Under the terms of the Memorandum of Understanding, a minimum of one-third of funds are reserved for French-language projects.

Canadian Television Fund

This program activity relates to the portion of the Equity Investment Program (EIP) that is funded through Telefilm Canada's parliamentary appropriation and administered as part of the Canadian Television Fund (CTF). Overall, the fund supports a high volume of distinctively and identifiably Canadian broadcast programming, reflecting Canadian culture, stories and themes. These productions speak to Canadians about themselves, their culture, their issues, their concerns and their stories. They reflect the lives of Canadians across the country and reveal Canadians and their society to the viewer.

The EIP is guided by additional goals in keeping with Telefilm Canada's overall mandate as a cultural investor in high-quality Canadian films, television programs and new media works in order to foster a diversity of voices that reach Canadian audiences in Canada and abroad. One of Telefilm Canada's key goals is to support and encourage Canada's cultural diversity, linguistic duality and regional expression.

Through the EIP, Telefilm Canada provides support to develop and produce high quality, distinctively Canadian television programs that will strike a chord with Canadian audiences. Support is provided to develop and produce French-language projects originating outside Quebec, Aboriginal-language projects, and English-language drama. Telefilm's financial participation is provided either as equity investments or conditionally repayable advances. The majority of Telefilm Canada's activity centers on investments in individual projects based on a rigorous project selection process. As an investor, Telefilm Canada shares the risks and eventual revenues of the productions it participates in financially.

Professional Development and Complementary Activities

This program activity is intended to complement Telefilm Canada's support to feature film and television production-related activity, by supporting activities that enhance the overall environment and conditions in which Canadian feature films and television programs are produced, promoted, sold and distributed.

Canadian Heritage Telefilm Canada

Support in the form of grants is provided to Canadian feature film and television festivals and to Canadian film and television awards shows, to raise the profile of Canadian productions with Canadian audiences. In addition, support in the form of grants is extended to industry professionals to attend international festivals and markets, and for professional development initiatives.

Other Activities

This program activity refers to all programs administered by Telefilm Canada pursuant to contribution agreements or other agreements with the Department of Canadian Heritage. They support Telefilm Canada's audience-and-building-capacity objectives.

Telefilm Canada has four contribution agreements with the Department of Canadian Heritage. They provide Telefilm Canada with approximately \$100 million to administer the following four funds: The Canadian Television Fund, The Music Entrepreneur Program, The Canada New Media Fund and the National Training Schools Program. In addition, Telefilm Canada administers Canada's international co-production agreements and recommends certification of international co-productions.

Citizenship and Immigration Department

Strategic Outcome

Maximum contribution to Canada's economic, social and cultural development from migration.

Program Activity Descriptions

Immigration program

Design, develop and implement policies and programs to facilitate the entry of permanent residents in a way which maximizes their economic, social and cultural contribution to Canada while protecting the health, safety and security of Canadians.

Temporary resident program

Design, develop and implement policies and programs to facilitate the entry of temporary workers, students and visitors in a way which maximizes their contribution to Canada's economic, social and cultural development while protecting the health, safety and security of Canadians.

Strategic Outcome

Reflection of Canadian values and interests in the management of international migration, including refugee protection.

Program Activity Descriptions

Canada's role in international migration and protection

Assert Canada's position in the context of international migration to influence the international agenda on migration and protection.

Refugee program

Maintaining Canada's humanitarian tradition by protecting refugees and persons in need of protection in Canada and abroad.

Strategic Outcome

Successful integration of newcomers and promotion of Canadian citizenship.

Program Activity Descriptions

Integration program

Develop policies and programs to support the settlement, resettlement, adaptation and integration of newcomers into Canadian society by delivering the orientation, adaptation and language programs for newcomers.

Citizenship program

Design, develop and implement policies and programs to administer the acquisition of Canadian citizenship and to enhance the values and promote the rights and responsibilities of Canadian citizenship.

Strategic Outcome

Sustainable urban development and infrastructure renewal in the Toronto Waterfront area

Program Activity Descriptions

Revitalization of the Toronto Waterfront

Program management and coordination of the federal contribution towards city-building infrastructure, and parks, recreation and green spaces for the renewal and revitalization of Toronto's waterfront.

Citizenship and Immigration

Immigration and Refugee Board of Canada

Strategic Outcome

Well-reasoned decisions on immigration and refugee matters rendered fairly, efficiently and in accordance with the law.

Program Activity Descriptions

Refugee Protection

Renders quality decisions in a timely manner on claims for refugee protection made by persons in Canada. In making these critical decisions, Canada fulfils its obligations as a signatory to a number of international human rights conventions.

Immigration Appeals

Hears appeals of sponsorship applications refused by the Department of Citizenship and Immigration; appeals from certain removal orders made against permanent residents, refugees and other protected persons, and holders of permanent resident visas; appeals by permanent residents who have been found outside of Canada not to have fulfilled their residency obligation; and appeals by the Minister from decisions of the Immigration Division at admissibility hearings.

Admissibility Hearings and Detention Reviews

Conducts admissibility hearings for foreign nationals or permanent residents who seek entry into Canada, or who are already in Canada and are considered to be inadmissible; and conducts detention reviews for foreign nationals or permanent residents who are detained for immigration reasons.

Environment Department

Strategic Outcome

Canada's natural capital is restored, conserved, and enhanced

Program Activity Descriptions

Biodiversity is conserved and protected

This program activity consists of the protection and recovery of species at risk; conservation, restoration and rehabilitation of significant habitats; and conservation of migratory birds. A primary vehicle for the achievement of results under this program is the formation of strategic partnerships for integrated management of Canada's natural capital including the sustainable management of landscapes. Key principles in support of results under this program are the use of best available science and the provision of regulatory certainty to stakeholders.

Water is clean, safe and secure

This program activity is designed to provide science and policy leadership on water quality, quantity and use. Science under this program will be focused on monitoring and research to understand what is changing in aquatic ecosystems and why, and on providing science-based tools to empower Canadians to take action. Policy leadership will include developing a national water agenda in partnership with other government departments that identifies benefits and incentives for the sustainable use of water, and ensuring that Canadian water related interests are protected globally. Involvement in transboundary arrangements will focus on ensuring that parties to water sharing agreements benefit from Canada's technical advice and monitoring information, to undertake measures to ensure compliance and meet their obligations.

Canadians adopt approaches that ensure the sustainable use and management of natural capital and working landscapes

This program activity is designed to integrate departmental action on ecosystems, by aligning science, policy, and environmental assessment in a nationally consistent inter-jurisdictional approach to ecosystem management. A further feature of this program activity will be multidisciplinary studies assessing the state of priority ecosystems and identifying the required actions for restoration and conservation.

Strategic Outcome

Weather and environmental predictions and services reduce risks and contribute to the well-being of Canadians

Program Activity Descriptions

Improved knowledge and information on weather and environmental conditions influences decision-making

This program activity consists of environmental science and monitoring activities to detect hazardous conditions, to understand what is changing in the atmosphere (weather, climate, air quality and ultraviolet radiation), hydrosphere (water) and cryosphere (ice and snow) and why. A key benefit of results under this program will be to provide improved knowledge, information, and tools on weather and environmental conditions (e.g. a better understanding of the causes of severe weather, the mechanisms which transport chemicals through the atmosphere, the impacts of human activity on the atmosphere, and atmospheric science-based models). These benefits will support the development of policy as well as the delivery of environmental services.

Environment Department

Canadians are informed of, and respond appropriately to, current and predicted environmental conditions

This program activity consists of making available relevant knowledge and information on past, present and future conditions of the atmosphere, hydrosphere and cryosphere, in response to the needs of Canadians, be they policy/decision makers, business persons or individuals, or others who require this information to deliver on Ministerial or federal responsibilities and obligations (e.g. NAV Canada). Under this program activity, information on the state of the environment is disseminated by means of various services, products and tools allowing Canadians to safeguard themselves and their property against environmental hazards and to help them make better informed socio-economic and environmental decisions. Environmental information and outreach will empower Canadians to take appropriate action on protecting their environment. Partnerships, domestic and international, are critical to the success of these endeavours.

Strategic Outcome

Canadians and their environment are protected from the effects of pollution and waste

Program Activity Descriptions

Risks posed by pollutants or other harmful or dangerous substances in the environment are reduced

This program activity consists of reducing risks to the environment and to human health posed by pollutant releases related to human activities. Under this program activity, environmental and human health threats posed by toxic substances and other substances of concern are understood in terms of their fate and effects and prevention, reduction, elimination or other management measures are developed as required. These substances may exert a direct toxic effect on animals, plants or humans or, due to the volume, nature and manner of release, may pose a longer term risk to the environment and human health.

Canadians adopt sustainable consumption and production approaches

This program activity provides a focus for the department's longer term efforts to reduce the cost of unsustainable consumption patterns and to shift industry towards more sustainable forms of production. Much of the activity will be centered around large sector-based approaches to enable collaborative and informed decision-making on environmental objectives. Underlying this will be the creation of a clear and predictable environmental protection regime, designed to encourage and enable sustainable production and consumption.

Strategic Outcome

The impacts of climate change on Canada are reduced

Program Activity Descriptions

Net emissions of greenhouse gases are reduced

This program activity is critical to transforming our economy so that we can honour our Kyoto commitment and make deep reductions of emissions in the decades ahead, all the while ensuring continued economic growth. This transformation will be achieved through the implementation of the 2005 Climate Change Plan, with its focus on harnessing market forces, building enduring partnerships and promoting innovation to achieve greenhouse gas reductions. This program activity will also focus on continuing policy development work to support Canada's efforts into the future, in areas such as adaptation, as called for in the Plan. On the international front, Canada will play a role in helping to build the optimal next-generation international agreement that balances economic prosperity with deep emissions reductions.

Environment Department

Canadians understand the impacts of climate change and adapt to its effects

Building on all the activities related to reducing the impact of weather and related hazards, this program activity is focused on understanding and minimizing the negative effects of climate change on Canadians and developing and implementing adaptive strategies. This knowledge and information will be provided to policy developers and decision makers as advice on adaptation to changing weather and climate. Policy leadership includes identifying benefits and incentives to guide the development of sound mitigation and adaptation strategies for Canadians.

Environment Canada Emission Reduction Incentives Agency

Strategic Outcome

Purchases of greenhouse gas reduction and removal credits to assist Canada in meeting its near term commitments under the Kyoto Protocol and to create the incentives for long term transformational change to a less carbon intensive Canadian and global economy

Program Activity Descriptions

Purchases of domestic credits generated in Canada by the domestic offsets system

This program activity is designed to help Canada honour its short-term commitments under the Kyoto Protocol while laying the groundwork for long-term transformational change to a lower-carbon intensive and more competitive Canadian economy that supports a healthy population and a sustainable environment. This program activity consists of the purchase of domestic credits generated in Canada by the domestic offsets system. The method used to purchase these credits is based on a competitive process and may involve advance payments subject to certain conditions.

Purchases of international credits generated in other countries that are parties to the Kyoto Protocol

This program activity is designed to help Canada honour its short-term commitments under the Kyoto Protocol while laying the groundwork for long-term transformational change to a lower-carbon intensive and more competitive Canadian economy that supports a healthy population and a sustainable environment. This program activity consists of the purchase of international credits generated in other countries that are Parties to the Kyoto Protocol, where such purchases are deemed to be of benefit to Canada. The method used to purchase these credits is based on a competitive process.

Environment Canadian Environmental Assessment Agency

Strategic Outcome

Environmental assessment is an integral part of program and policy decision-making.

Program Activity Descriptions

Effective and Efficient Environmental Assessment

Program costs, including program support overhead for environmental assessment activities. This includes costs incurred in the performance of functions that are not directly involved with service delivery but support service delivery activities. This includes all supervisory, management and policy resources within a program area. These costs may be incurred within the program area at headquarters as well as the regions, but are separate and distinct from corporate and administrative services costs.

Environment

National Round Table on the Environment and the Economy

Strategic Outcome

Federal policy development on environment and economy issues, and decisions in other key sectors, are influenced by National Round Table on the Environment and the Economy advice on selected issues.

Program Activity Descriptions

Provide advice on environment and economy issues

This program identifies and promotes new information, analysis and recommendations in the area of sustainable development, with an emphasis on the environment and the economy. Advice is provided to clients in the federal government as well as decision makers in other sectors (other levels of government, industry associations, non-government organizations).

Environment Parks Canada Agency

Strategic Outcome

Protect and present nationally significant examples of Canada's natural and cultural heritage, and foster public understanding, appreciation and enjoyment in ways that ensure the ecological and commemorative integrity of these places for the present and future generations.

Program Activity Descriptions

Establish Heritage Places

This Program Activity covers systems planning; negotiating with stakeholders for inclusion in the national systems, obtaining ministerial approval and establishing national parks, and national marine conservation areas of Canada, and establishing national historic sites, and other heritage places.

Conserve Heritage Resources

This program activity relates to the maintenance or improvement of ecological integrity in national parks; the sustainable use of national marine conservation areas and the protection of unique marine ecosystems; the maintenance and improvement of commemorative integrity in national historic sites managed or influenced by Parks Canada; and the protection and management of cultural resources under the administration of Parks Canada that are not associated with national historic sites.

Promote Public Appreciation and Understanding

Promotion of public appreciation and understanding involves programs and activities that are aimed at reaching Canadians in their communities where they live, work and learn and inviting them to become more involved in the protection and presentation of the nation's natural and cultural heritage. To accomplish this Parks Canada is investing in carefully targeted outreach opportunities such as the Parks Canada Web site, introducing content into provincial and territorial school curricula, urban discovery centres and the use of mass media programming such as television to showcase national parks and national historic sites. Parks Canada also intends to broaden its base of support by informing and involving stakeholders and encouraging shared leadership in the development and implementation of the Agency's future direction. One key activity is the Minister's Round Table on Parks Canada, which represents the culmination of the Agency's involvement with stakeholders on a biennial basis.

Enhance Visitor Experience

Parks Canada welcomes more than 22 million visitors to the national historic sites, national parks, and national marine conservation areas of Canada. The Agency sets the stage for visitors to enjoy meaningful, high-quality experiences through the provision of information, infrastructure, facilities, programs, services and personnel. The visitor experience is the cumulative outcome of the individual's visit and their interactions with Parks Canada, and its partners. This includes pre and onsite trip planning information, reception and orientation services, interpretation programming, campgrounds, hiking trails and other recreational services, visitor safety programs, and ongoing post visit information.

Townsite Management

This program activity relates to the Parks Canada Agency's management and operation of communities within Canada's national parks. The communities are: important staging areas for visitors' national park and national historic site experiences; home to businesses and residents who are actively involved in providing services to visitors; and administrative centers for Parks Canada operations. The Agency provides municipal service such as drinking water, snow removal, garbage pick-up and disposal, sewage treatment, road and street maintenance, and fire services to support visitors and residents. Parks Canada is directly responsible for managing five townsites in national parks, which have permanent populations ranging from 100 to 1500, and welcome millions of visitors annually.

Environment Parks Canada Agency

Throughway Management

This program activity includes the operation, maintenance and repair of roads, bridges, provincial and inter-provincial highways and waterways that connect communities and pass through national parks and national historic sites.

Finance Department

Strategic Outcome

To create a fiscal, economic, social and global advantage for Canada by providing appropriate policies and sound advice with respect to economic, social and financial conditions and to the government's overall agenda.

Program Activity Descriptions

Tax Policy

Develops and evaluates federal taxation policies and legislation in the following areas: personal income tax, business income tax, and sales and excise tax.

Economic and Fiscal Policy

Analyzes Canada's economic and fiscal situation; advises on fiscal matters; and provides analytical support on a wide range of economic and financial issues related to the government's macroeconomic policies.

Financial Sector Policy

Provides policy analysis on Canada's financial sector and on the regulation of federally chartered financial institutions; manages the federal government's borrowing program; and provides support regarding Crown corporation borrowing and financial market and exchange rate policy.

Economic Development and Corporate Finance

Provides policy and advice regarding financial implications of government's microeconomic policies and programs; proposals for funding of programs; sectoral policy analysis; and corporate restructuring regarding Crown corporations and other corporate holdings.

Federal-Provincial Relations and Social Policy

Provides policy and advice on federal-provincial-territorial relations and social policy issues and their economic and fiscal implications.

International Trade and Finance

Manages the Department's participation in international financial institutions (including the International Monetary Fund, the World Bank Group, the Organisation for Economic Co-operation and Development and the European Bank for Reconstruction and Development), international groups such as the G-7, G-20 and the Asia-Pacific Economic Cooperation forum, as well as trade and investment policy issues.

Public Debt

Manages the funding of interest and service costs of the public debt and the issuing costs of new borrowing.

Domestic Coinage

Responsible for the payment of the production and distribution costs for domestic circulating coinage.

Transfer Payments to Provinces/Territories

Administers the transfer payments pursuant to statutes and agreements with provinces and territories.

International Financial Organizations

Administers international financial obligations and subscriptions.

Canadian International Trade Tribunal

Strategic Outcome

Fair, timely and effective disposition of international trade cases and government mandate inquiries in various areas of the Tribunal's jurisdiction.

Program Activity Descriptions

Adjudication of Trade Cases (quasi-judicial role)

The Tribunal acts as an administrative court when carrying out its quasi-judicial functions. It conducts inquiries that are open to the public. It has rules and procedures similar to those of a court of law, but not quite as formal. The Tribunal is a superior court of record and can subpoena witnesses, hear evidence and hold public hearings. Transparency and fairness are key pillars of the Tribunal's inquiry process. The Tribunal's decisions may be appealed to, as appropriate, the Federal Court of Canada or the Federal Court of Appeal or reviewed by the Federal Court of Appeal or by a bi-national panel under the North American Free Trade Agreement (NAFTA). Governments that are members of the World Trade Organization (WTO) may challenge some of the Tribunal's decisions before a dispute settlement panel under the WTO Understanding on Rules and Procedures Governing the Settlement of Disputes. The Tribunal may also conduct inquiries (safeguard inquiries) to determine if Canadian producers are being seriously injured by increased imports of goods and report with recommendations, as required, to the government.

General Economic Inquiries and References (advisory role)

The *Canadian International Trade Tribunal Act* contains broad provisions under which the government or the Minister of Finance may ask the Tribunal to conduct an inquiry on any economic, trade, tariff or commercial matter. In such an inquiry, the Tribunal acts in an advisory capacity, with powers to conduct research, receive submissions, hold hearings and report with recommendations, as required, to the government or the Minister of Finance.

Finance

Office of the Superintendent of Financial Institutions

Strategic Outcome

Regulate and supervise to contribute to public confidence in Canada's financial system and safeguard from undue loss.

Program Activity Descriptions

Regulation and Supervision of Federally Regulated Financial Institutions

This is the largest program activity within the Office of the Superintendent of Financial Institutions (OSFI), representing over 85% of its costs. Costs for this program are recovered through assessments, service charges and user fees paid by the federally regulated financial institutions. Costs are also recovered via Memoranda of Understanding; financial statements indicate this third revenue stream as "cost-recovered services".

Regulation and Supervision of Federally Regulated Private Pension Plans

This program activity incorporates risk assessment and intervention and rule-making and approvals related to federally regulated private pension plans under the *Pension Benefits Standards Act*. The costs for this program are recovered from pension plan fees based on the number of members in each federally regulated pension plan.

International Assistance

This program activity incorporates activities related to providing help to other countries that are building their supervisory and regulatory capacity. The costs for this program are recovered via Memoranda of Understanding between OSFI and organizations such as the Canadian International Development Agency and the International Monetary Fund.

Strategic Outcome

Contribute to public confidence in Canada's public retirement income system.

Program Activity Descriptions

Office of the Chief Actuary

This office provides a range of actuarial services, under legislation, to the Canada Pension Plan and some federal government departments.

Program by Activities

Fisheries and Oceans

Strategic Outcome

Safe and Accessible Waterways (SAW)

Program Activity Descriptions

Canadian Coast Guard

Provision of maritime services that contribute to the enhancement and maintenance of maritime safety and commerce; protection of marine and freshwater environment; oceans and fisheries resource management; security; and other government maritime priorities via maritime expertise, Canada's civilian fleet, a broadly distributed shore infrastructure, and collaboration with various stakeholders.

Small Craft Harbours

Operation and maintenance of a national system of harbours critical to Canada's commercial fishing industry.

Science (Safe and Accessible Waterways)

Provision of scientific research, monitoring, advice, products and services and data management in support of safe and accessible waterways. These functions are provided through a network of research facilities in collaboration with other government departments, private sector, academia and international organizations.

Strategic Outcome

Sustainable Fisheries and Aquaculture (SFA)

Program Activity Descriptions

Fisheries Management

Conservation of Canada's fisheries resources to assure sustainable resource utilization through close collaboration with resource users and stakeholders.

Aquaculture

Creation of conditions for a vibrant and innovative aquaculture industry that is environmentally and socially responsible, economically viable and internationally competitive.

Science (Sustainable Fisheries and Aquaculture)

Provision of scientific research, monitoring, advice, products and services and data management in support of sustainable fisheries and aquaculture. These functions are provided through a network of research facilities in collaboration with other government departments, private sector, academia and international organizations.

Strategic Outcome

Healthy and Productive Aquatic Ecosystems (HAPAE)

Program Activity Descriptions

Oceans Management

Conservation and sustainable use of Canada's oceans, in collaboration with others, through integrated oceans management plans which include marine protected areas and marine environmental quality objectives.

Fisheries and Oceans

Habitat Management

Protection and conservation of freshwater and marine fish habitat, in collaboration with others, through a balanced application of regulatory and non-regulatory activities including reviewing development proposals, conducting environmental assessments and monitoring compliance and effectiveness.

Science (Healthy and Productive Aquatic Ecosystem)

Provision of scientific research, monitoring, advice, products and services and data management in support of healthy and productive aquatic ecosystems. These functions are provided through a network of research facilities in collaboration with other government departments, private sector, academia and international organizations.

Foreign Affairs and International Trade Department (Foreign Affairs)

Strategic Outcome

Advancing Canada's interests internationally – Canada's interests are advanced internationally: In partnership with Canadians, Canada and its values are projected to the world. Canada's interests are pursued abroad and Canadians are better able to interpret the world.

Program Activity Descriptions

International Security

Advocating Canadian international security interests and human security program interests bilaterally and multilaterally, as well as managing the department's responsibilities with respect to security and intelligence

Global Issues

Advocating a stronger and more effective multilateral system, capable of addressing Canada's interests in global issues, in particular international economic relations and development, environment and sustainable development, human rights and human security

Bilateral Relations

Conducting and promoting Canada's bilateral diplomatic relations in Canada and abroad.

Strategic Policy and Public Diplomacy

Leading the formation of Canada's overall international policy and the inter-departmental development of whole-of-government strategies, including public diplomacy

Protocol

Managing and facilitating the presence of foreign diplomats in Canada as well as planning and leading the official travel by the Governor General, the Prime Minister, Ministers of the Portfolio and all diplomatic officials events.

Strategic Outcome

Serving Government abroad - The Government delivers its programs and achieves its results in a secure environment through cost-effective and efficient services and infrastructure at Canada's missions abroad

Program Activity Descriptions

Common Services and Infrastructure – Support from Headquarters

Managing and delivering headquarters-provided common services to government programs and partners operating abroad.

Common Services and Infrastructure – Missions Abroad

Managing and delivering mission-provided common services to government programs and partners operating abroad.

Foreign Affairs and International Trade Department (Foreign Affairs)

Strategic Outcome

Serving Canadians abroad - Canadians traveling and living abroad are provided with effective assistance, guidance, advice and services for their travel documents and consular needs.

Program Activity Descriptions

Consular Affairs

Managing and delivering consular services to Canadians.

Passport Services (Revolving Fund) Special Operating Agency

Managing and delivering passport services to Canadians (through the use of the Passport Revolving Fund). Parliament has previously authorized a total drawdown of \$4,000,000 for the Passport Office Revolving Fund.

Strategic Outcome

Canada's international commercial interests are advanced, both in Canada and abroad, in collaboration with Canadian business and other stakeholders

Program Activity Descriptions

Trade Policy and Negotiations

Analysing, negotiating, advocating and representing Canada's international economic and commercial interests in Canada and abroad, in consultation with stakeholders.

World Markets/Commercial Relations

Integrating Canada's economic, trade, investment and science and technology interests at the regional and bilateral level and managing commercial relations.

Promotion of Foreign Direct Investment and Science and Technology Cooperation

Attracting, retaining and expanding foreign direct investment in Canada.

International Business Development

Managing and delivering international business services to Canadians.

Foreign Affairs and International Trade Canadian Commercial Corporation

Strategic Outcome

An increasing and diversified export contract portfolio.

Program Activity Descriptions

Canada/U.S. Defence Production Sharing Agreement

Under the terms of the 1956 Defence Production Sharing Agreement (DPSA), Canadian exporters have been allowed to sell to the U.S. Department of Defense and National Aeronautics and Space Administration (NASA). All defence contracts above a \$100,000 U.S. threshold must be transacted through Canadian Commercial Corporation (CCC). Public Works and Government Services Canada provides an assessment and certification to CCC of the supplier's price and delivery and administers the domestic contract; the Department of National Defence provides inspection and quality control services. The DPSA does not allow CCC to charge fees and the cost of providing this service must be offset by annual appropriations.

Aerospace and Defence

These are non-DPSA global sales in the aerospace and defence industries and can include sales to all levels of government: federal, state and municipal.

International Commercial Business

This is non-DPSA business consisting of supply and construction projects in a variety of other sectors and can include sales to all levels of government: federal, state and municipal.

Foreign Affairs and International Trade Canadian International Development Agency

Strategic Outcome

Sustainable development to reduce poverty in the poorest countries, measured through making progress on the development goals of economic well-being, social development, environmental sustainability and governance.

Program Activity Descriptions

Geographic Programs

Responsible for country-to-country programs in Africa, Asia, Americas and Central and Eastern Europe respectively; enables the Government of Canada to plan and execute international cooperation activities through direct links with governments and organizations in developing countries.

Canadian Partnership

The Canadian Partnership Program is a responsive program that is aligned with CIDA's mandate and strategic objectives, through its cost-sharing partnerships with civil-society and private-sector organizations in Canada and developing countries. Multi-year funding is provided, on the basis of merit, to Canadian and international non-governmental organizations and volunteer-sending organizations. Project funding is also provided through competitive mechanisms within the context of either time-bound or open-ended competitions. In addition, a conference secretariat supports the participation of developing-country delegates at international conferences.

Multilateral Programs

Responsible for managing Canada's global development programs through substantial core contributions to multilateral development institutions. It also undertakes targeted programming through multilateral, international and local organizations responsible for managing the International Humanitarian Assistance Program.

Policy Coherence

Leads policy research, analysis and development to support and guide the Agency's plans and priorities and Canada's broader international assistance objectives and commitments. Ensures coherence and alignment between corporate and program priorities and ensures policy coherence between CIDA and other government departments who manage non-aid policies that could include, but are not limited to, international trade, investment, technology transfer and immigration.

Engaging Canadians

Improve public awareness, education and engagement of Canadians in supporting Canada's involvement in international cooperation and development.

Foreign Affairs and International Trade International Development Research Centre

Strategic Outcome

Stronger science and technology research capacity in developing countries to address their social, economic and environmental challenges.

Program Activity Descriptions

Environment and Natural Resources Management

The work on Environment and Natural Resource Management supports practical approaches to enhancing food and water security, human health, the quality of natural resources, democratic participation, governance and equity.

Information and Communication Technologies for Development

The Information and Communication Technologies for Development program activity focuses on enhancing connectivity in developing regions, particularly for universities, research institutions and civic organizations, and helping developing country partners participate in the information economy.

Social and Economic Policy

The work of Social and Economic Policy deals with public policy that can lead to poverty reduction and enhanced social equity in developing countries, including countries in conflict.

Special Program Initiatives

Special Program Initiatives (SPI) has three distinct but related objectives: to promote and sustain linkages with Canadian institutions and organizations; to manage the Centre's Training and Awards Program; and to administer special initiatives. SPI's support to the Canadian development constituency focuses on organizations and activities that espouse knowledge-led outlooks to strengthen a commitment to knowledge-based international cooperation. The Centre's Training and Awards Program provides a service to the Centre as a whole, ensuring the widest possible dissemination of information about awards available through the International Development Research Centre (IDRC), as well as an effective and transparent mechanism for the selection of awardees and the administration of their grants. SPI administers special initiatives on behalf of the Centre. They are undertaken on an as-needs basis with Centre and non-Centre funding.

Corporate Research Activities

Corporate Research Activities takes advantage of unexpected opportunities, supports additional activities bringing research results to the attention of decision-makers, and provides some flexibility to respond to a constantly changing environment and to reinforce partnerships with other donors by collaborating on small activities.

Supporting Southern Partners

Supporting Southern Partners covers the following kinds of activities: augmentation of ongoing research projects; dissemination of IDRC work; exploration of partnerships and new program possibilities; promoting the Centre and its programming; strategic intelligence activities; and capacity-building of Southern research partners.

Development Research Support

Development Research Support includes technical support personnel who assist in the development of new projects, monitoring ongoing research projects, and provide specialized scientific support to recipients such as guidance on methodology, facilitating the creation and maintenance of networks and the synthesis of results across a range of activities. As well, this includes the range of services in direct support of program delivery including program evaluation, dissemination of research results and program management, which provides strategic direction and support to IDRC's programming framework.

Strategic Outcome

Strengthened knowledge base to address health and health care priorities.

Program Activity Descriptions

Health Policy, Planning and Information

The Health Policy, Planning and Information program activity provides advice and support to the Minister, the departmental executives and to program branches in the areas of policy development, intergovernmental and international affairs, strategic planning, program delivery and review and the administration of the *Canada Health Act*. It also contributes to improved health outcomes for Canadians by promoting the increased and more effective use of information and communications technologies; by improving access to reliable health information; by providing policy research and analysis to support evidence-based decision-making; by working with official language minority communities and others to improve access to health services in the official language of choice; and by taking into account Canadians' privacy expectations with respect to health information.

Strategic Outcome

Access to safe and effective health products and food and information for healthy choices.

Program Activity Descriptions

Health Products and Food

Health Canada is responsible for a broad range of health protection and promotion activities that affect the everyday lives of Canadians. As the federal authority responsible for the regulation of health products and food, Health Products and Food Branch (HPFB) evaluates and monitors the safety, quality and effectiveness of thousands of drugs (human and veterinary), vaccines, blood and blood products, biologics and genetic therapies, medical devices and natural health products, as well as the safety of the foods we eat. It also provides useful information about risks and benefits related to health products and food so that Canadians can make informed decisions about their health and well-being.

Ongoing regulatory responsibilities span the life cycle of health products and food, from clinical trials to surveillance, compliance and enforcement. Challenges associated with rapid advances in technology and scientific breakthroughs have also resulted in the growth of an unprecedented number of biologics, genetic therapies and vaccines and genetically modified and other novel foods. These challenges are met by drawing on sound science and effective risk management in evidence-based decision-making. These disciplines are integrated into daily operations, and together with our health promotion activities, they enable timely access to safe and effective health products and food for Canadians.

Health Department

Strategic Outcome

Reduced health and environmental risks from products and substances, and safer living and working environments.

Program Activity Descriptions

Healthy Environments and Consumer Safety

Under this program activity, Health Canada has a mandate to address many elements of day-to-day living that have an impact on the health of Canadians. These include drinking water safety, air quality, radiation exposure, substance use and abuse (including alcohol), consumer product safety, tobacco and second hand smoke, workplace health, and chemicals in the workplace and in the environment. Health Canada is also engaged in other health and safety related activities, including the Government's public safety and anti-terrorism initiatives, inspection of food and potable water for the travelling public, and health contingency planning for visiting foreign dignitaries. The broad national mandate flows from legislation including the *Food and Drugs Act*, the *Controlled Drugs and Substances Act*, the *Hazardous Products Act*, the *Radiation Emitting Devices Act*, the *Canadian Environmental Protection Act*, the *Tobacco Act* and others. Results are delivered through partnerships and by an active presence throughout every region of the country.

Pest Control Product Regulation

To help prevent unacceptable risks to people and the environment, Health Canada regulates the importation, sale and use of pesticides under the federal authority of the *Pest Control Products Act* (PCPA) and Regulations. The scope of work is extensive with more than 5,000 registered pesticides – including herbicides, insecticides, fungicides, antimicrobial agents, pool chemicals, microbials, material and wood preservatives, animal and insect repellents, and insect- and rodent-controlling devices.

Ongoing regulatory responsibilities constitute the majority of the work under this program activity. Using internationally accepted approaches and protocols, Health Canada conducts science-based health, environmental and value assessments. Pesticides are registered only if the health and environmental risks are considered acceptable, and if the product is effective. Health Canada sets maximum pesticide residue limits for food commodities under the *Food and Drugs Act*. Older pesticides are re-evaluated to determine if their use continues to be acceptable under current scientific approaches. Health Canada facilitates, encourages and maximizes compliance with the PCPA and the conditions of registration and develops and promotes the use of sustainable pest management practices and products in cooperation with stakeholders.

Strategic Outcome

Better health outcomes and reduction of health inequalities between First Nations and Inuit and other Canadians.

Program Activity Descriptions

First Nations and Inuit Health

The objectives of the First Nations and Inuit Health program activity include improving health outcomes; ensuring availability of, and access to, quality health services; and supporting greater control of the health system by First Nations and Inuit. Together with First Nations and Inuit, the First Nations and Inuit Health Branch through its regional offices, delivers public health and community health programs on-reserve, these include environmental health and communicable and non-communicable disease prevention, and provision of primary health care services through nursing stations and community health centres in remote and/or isolated communities to supplement and support the services that provincial, territorial and regional health authorities provide.

Health Department

The First Nations and Inuit Health program activity also supports targeted health promotion programs for Aboriginal people, regardless of residency (e.g. Aboriginal Diabetes Initiative) as well as counselling, addictions and mental wellness services. The Non-Insured Health Benefits coverage of drug, dental care, vision care, medical supplies and equipment, short-term crisis intervention mental health services, and medical transportation is available to all registered Indians and recognized Inuit in Canada, regardless of residency.

Health
Assisted Human Reproduction Agency of Canada

Strategic Outcome

Protection and promotion of the health and safety of Canadians against the risks associated with assisted human reproduction technologies.

Program Activity Descriptions

Licencing and Enforcement of a Regulatory Framework for Assisted Human Reproduction Technologies

The Assisted Human Reproduction Agency of Canada would achieve this objective by the following means:

- issuing licences for controlled activities and for facilities used by qualified persons or organizations;
- assessing applications against licence requirements, including scientific and ethical considerations;
- conducting periodic inspections of assisted human reproduction clinics, service providers or research to ensure compliance; and
- enlisting the participation or support of other recognized organizations in the development of other supporting policy instruments, for example, standards, guidelines and accreditation models.

Health Information and Knowledge Management for Assisted Human Reproduction Technologies

The Assisted Human Reproduction Agency of Canada would achieve this objective by the following means:

- maintaining a personal health information registry to consolidate health reporting information concerning donors, patients and offspring born of assisted human reproduction procedures to allow for a look-back and trace-back mechanism;
- providing ongoing reports of assisted human reproduction controlled activities, including success rates by assisted human reproduction clinics and results of research, to enable prospective assisted human reproduction users to make informed decisions; and
- providing public information on assisted human reproduction matters or issues via a public website or in other forms such as brochures.

Health Canadian Institutes of Health Research

Strategic Outcome

Outstanding Research - Best health research supported to create health knowledge responding to opportunities and priorities.

Program Activity Descriptions

Fund health research

Plan, launch and manage competitions and programs for grant funds to facilitate and enable the conduct of outstanding health research, including collaborative programs in investigator-framed and Institute-framed initiatives.

Strategic Outcome

Outstanding Researchers in innovative environments - Strong health research community able to undertake outstanding research.

Program Activity Descriptions

Fund health researchers and trainees

Plan, launch and manage competitions and programs for both salary awards to enable health researchers to devote more time to their research, as well as competitions for training awards to develop future health researchers.

Fund research resources, collaboration and other grants to strengthen the health research community

Plan, launch and manage competitions and programs for grant funds for research-enabling activities, such as networking, provision of new equipment, databases and/or specialized resources. Encourage participation and involvement of stakeholders in the public and private sectors through collaborative enabling programs and competitions.

Develop and support strong health research community through national and international alliances and priority-setting

Plan, launch and manage both Institute support grants that enable Institute activities such as the development of strategic health research priorities and development of alliances, as well as competitions and programs for grant funds for both national and international partnered programs.

Inform research, clinical practice and public policy on ethical, legal and social issues related to health and health research

Undertake consultations to enable inclusive dialogue across sectors, disciplines and communities to lead to greater public engagement, improved knowledge and understanding of the ethical, legal and social issues in the context of health and health research. As well, plan, launch and manage competitions and programs for grant funds to create new knowledge and provide grant funds that enable effective insights pertaining to the ethical, legal and social issues in the context of health and health research.

Strategic Outcome

Transforming health research into action - Health research adopted into practice, programs and policies for a productive health system; and stimulation of economic development through discovery and innovation.

Program Activity Descriptions

Support activities on knowledge translation, exchange, use and strategies to strengthen the health system

Implement strategies to enable the effective dissemination, exchange, synthesis and application of health research results that will lead to improvements in the Canadian health system. As well, plan, launch and manage competitions and programs for grant funds designed to create new knowledge, strengthen Canadian capacity and networks and together with our partners, undertake effective research and knowledge translation of health research.

Health

Canadian Institutes of Health Research

Support national efforts to capture the economic value for Canada of health research advances made at Canadian institutions

Implement strategies to enable the effective development and commercialization of health research that will lead to a better quality of life for Canadians through improvements in the Canadian health system, products and economy. As well, plan, launch and manage competitions and programs for grant funds to create and transfer new knowledge, strengthen Canadian capacity and networks and undertake effective commercialization of health research.

Health
Hazardous Materials Information Review Commission

Strategic Outcome

Trade secret exemptions within Workplace Hazardous Materials Information System that balance the right of industry to withhold bona fide confidential business information with the right of employers and workers to be provided with complete and accurate information on the health and safety hazards posed by workplace chemicals.

Program Activity Descriptions

Claims Exemption Process

Under this activity, the Hazardous Materials Information Review Commission registers claims for exemption received from a supplier or manufacturer who wishes to withhold critical proprietary information; rules on the validity of the claim; assesses and issues decisions on the compliance of the Material Safety Data Sheet or label to which the claim relates; and administers an appeal process to these rulings.

Health

Patented Medicine Prices Review Board

Strategic Outcome

Prices charged by manufacturers for patented medicines sold in Canada are not excessive.

Program Activity Descriptions

Patented Medicine Prices Review

The Patented Medicine Prices Review Board (PMPRB) is responsible for regulating the prices that patentees charge, the factory-gate price, for prescription and non-prescription patented drugs sold in Canada to wholesalers, hospitals or pharmacies for human and veterinary use to ensure that they are not excessive. The PMPRB reports annually to Parliament through the Minister of Health on its major activities, analyses of the prices of patented medicines and of the price trends of all drugs, and reports on the research and development expenditures as reported by the patent-holding drug manufacturers.

Health Public Health Agency of Canada

Strategic Outcome

Healthier population by promoting health and preventing disease and injury.

Program Activity Descriptions

Population and Public Health

In collaboration with partners, the Agency leads federal efforts and mobilizes pan-Canadian actions to promote and protect national and international public health. These actions include anticipating, preparing for, responding to and recovering from threats to public health; monitoring, researching and reporting on diseases, injuries, other preventable health risks and their determinants, and the general state of public health in Canada and internationally to support effective actions in prevention and health promotion; and building and sustaining a public health network with stakeholders. The Agency uses the best available knowledge and evidence to inform, advise and engage Canadian and international public health stakeholders on goals, policies, strategies for action, tools, practices and community-based capacity; and to provide public health information, advice and leadership to Canadians and stakeholders.

Human Resources and Skills Development Department (Human Resources and Skills Development)

Strategic Outcome

Efficient and inclusive labour market transitions through temporary income support and active employment measures.

Program Activity Descriptions

Employment Insurance

The Employment Insurance program activity promotes individual well being, economic stability and a flexible labour market by providing temporary income support to unemployed workers who qualify under Part I of the *Employment Insurance Act*. Employment Insurance encompasses a wide range of benefits to address the needs of workers and the labour market, including Canadians who are sick, pregnant or caring for a newborn or adopted child, as well as those who must care for a family member who is seriously ill with a significant risk of death.

Employment Programs

The Employment Programs activity provides programs and services that are funded under the Consolidated Revenue Fund and Part II of the *Employment Insurance Act*. These enable Canadians, including unemployed adults and targeted groups, such as youth and Aboriginal Peoples, to develop their skills and encourage them to invest in themselves and become self-reliant and more adaptable to labour market changes.

Strategic Outcome

Enhanced productivity and competitiveness of Canadian workplaces by supporting investment in, and recognition and utilization of skills.

Program Activity Descriptions

Workplace Skills

The Workplace Skills program activity supports the collaboration of industry partners and stakeholders in identifying, addressing and promoting workplace skills development and recognition issues that reflect the realities of Canadian workplaces in our rapidly evolving labour market. It also develops and disseminates knowledge and information from a national, regional and local perspective, which is vital in supporting and contributing to a well-functioning labour market.

Strategic Outcome

Through access to learning, Canadians can participate fully in a knowledge-based economy and society.

Program Activity Descriptions

Learning

The Learning program activity supports the Government of Canada's significant investments in skills and learning to assist Canadians to acquire, throughout their lives, the education and skills that will enable them to participate more fully in a knowledge-based economy and society. Programs within this area are delivered by Human Resources and Skills Development nationally and include grant and loan programs to promote access to and encourage savings for post-secondary education, and grant and contribution programs related to international student mobility, adult learning, literacy and essential skills.

Human Resources and Skills Development Department (Human Resources and Skills Development)

Strategic Outcome

Safe, healthy, fair, stable, cooperative and productive workplaces.

Program Activity Descriptions

Labour

The Labour program activity promotes and sustains stable industrial relations and a safe, fair, healthy, equitable and productive workplace within the federal labour jurisdiction. It collects and disseminates labour and workplace information, represents Canada at international labour activities, fosters constructive labour-management relationships and ensures that minimum labour standards and occupational health and safety protections are enforced.

Strategic Outcome

Enhanced community capacity to contribute to the reduction of homelessness.

Program Activity Descriptions

Homelessness

The Homelessness program activity assists communities, through partnerships, in implementing measures that help homeless individuals and families to move toward self-sufficiency, thereby contributing to society and the economy.

Strategic Outcome

Seamless, integrated and multi-channel service delivery that ensures client satisfaction.

Program Activity Descriptions

Service Delivery

The Service Delivery program activity provides direct, in-person service to clients through an integrated service delivery network as part of the Service Canada Initiative, for both the departments of Human Resources and Skills Development and Social Development Canada.

Policy and Program Support

The Policy and Program Support activity provides an evidence basis for the review and development of broad policy frameworks and strategies. It provides audit, evaluation and research that underpin strategic policy and ensure accountability. This activity also oversees the establishment of relationships with other governments and stakeholders as well as plays a key role in planning, communications and ministerial support services.

Human Resources and Skills Development Department (Social Development)

Strategic Outcome

Strengthen our social well being; by enhancing income security for Canadians; by fostering a more inclusive and stronger civil society that will increase opportunities for all Canadians to participate actively; by advancing social policy and evidence-based knowledge to promote effective social development initiatives; by increasing engagement and collaboration with our partners to ensure better, innovative and complementary social initiatives that will give Canadians greater confidence in their social infrastructure to meet the understandings and expectations that we, Canadians, have for ourselves and for our society.

Program Activity Descriptions

Social Investment: Ensuring core social programs are secure and adaptable to changing needs

To provide income support for seniors and their dependents at key life transitions including during retirement, death of a partner, loss of a parent; as well as ensure a basic minimum income for low-income seniors. These efforts link to the department's mandate to promote the broader social well-being of seniors.

To promote the participation of persons with disabilities in work, learning and their community by providing income security, targeting disability policy and programming and knowledge development and bringing together key partners, stakeholders and other levels of governments to achieve shared program and policy goals.

To work in partnership with provinces/territories, communities and other federal departments, to provide benefits and services, both direct and through transfers to provinces/territories, to families and communities to help them ensure that children have the best possible start in life.

To improve ways, and find new ways, to support family/informal caregivers of seniors and persons with disabilities, by consulting with experts and stakeholders, and by working with provinces and territories, other federal departments as well as community organizations to enhance assistance in this area.

To support capacity needs and non-profit and voluntary organizations across Canada that help people in their communities (seniors, persons with disabilities, children and their families and other vulnerable or excluded populations) to participate in social activities, pursue an active life and contribute to their communities, through the Department's grants and contributions funding.

Social Development policy and innovation: Meeting the expectations of Canadians by developing innovative solutions, founded on Canadians values

Lead and collaborate with key partners, including other federal departments and agencies, stakeholders, researchers and experts, other levels of government, and the international community, to mobilize the many levers across governments and society that together drive social development and well-being in Canada.

To advance policy development across the spectrum of new and emerging social policy issues, leading to the development of policies, programs and knowledge products that are relevant and responsive to Canadians' needs and expectations and that foster social development and well-being in Canada.

To develop policies that enable communities to enhance their own skills and resources to address locally identified needs and improve the lives of Canadians.

Human Resources and Skills Development Department (Social Development)

To undertake evidence-based research and disseminate knowledge: share information on best practices, research, knowledge development and evaluation.

Service Delivery: Providing access to high quality government information, service and benefits

To deliver seamless citizen-centred service that is integrated, easy to access, simple to use, tailored for the individual circumstance, efficient and sustainable. This will enhance the integrity of programs by building public trust and confidence and ensuring that the right client receives the right service and benefits at the right time and for the intended purpose.

Human Resources and Skills Development Canada Industrial Relations Board

Strategic Outcome

Harmonious industrial relations climate in the federally regulated sector through the impartial, effective and appropriate administration of the rules of conduct that govern labour and management in their representational and bargaining activities.

Program Activity Descriptions

Administration and interpretation of Part 1 (Industrial Relations) and certain provisions of Part II (Occupational Health and Safety) of the Canada Labour Code

Exercise of statutory powers relating to: bargaining rights and their structuring; the investigation, mediation and adjudication of complaints alleging contraventions of provisions of the Canada Labour Code; the interpretation of technological change provisions affecting the terms, conditions and security of employees and the exercise of ancillary remedial authority; the exercise of cease-and-desist powers in cases of unlawful strikes or lockouts; reviewing decisions relating to safety that are referred to the Board; settling the terms of a first collective agreement; the provision of advice and recommendations relative to the statutory powers of the Board; the provision of administrative services to these ends.

	12,396	12,396	11,906

Human Resources and Skills Development Canada Mortgage and Housing Corporation

Strategic Outcome

Housing choice and affordability for Canadians.

Program Activity Descriptions

Assisted Housing Programs

Financial assistance is provided to individuals and groups under long-term agreements, which helps to provide suitable, adequate and affordable housing to low- and moderate-income Canadians both on and off reserve.

This program activity also includes funding provided to provinces/territories under social housing transfer agreements. Provinces and territories signing Social Housing Agreements with the Government of Canada are subject to national principles and an accountability framework that ensures targeted federal funding is used for housing low-income households.

In addition, this program activity includes funding provided under the Affordable Housing Initiative. This initiative is aimed at increasing the supply of affordable housing for low-to-moderate-income households. The provinces and territories administer the programs financed by this initiative.

Research and information dissemination to promote housing affordability and choice

Within the Canadian population, there are specific groups with distinct housing needs, including Aboriginal people, homeless people, low-income people, newcomers, people with disabilities, people living alone and seniors. Work under this theme focuses on investigating issues regarding specific populations with distinct housing needs, and exploring options, solutions and strategies to improve living conditions and housing affordability and choice. It also addresses issues and solutions associated with the current social housing stock and housing alternatives for all Canadians.

Strategic Outcome

Quality housing and living conditions for Canadians.

Program Activity Descriptions

Housing Repair and Improvement Programs

Canada Mortgage and Housing Corporation's (CMHC) Residential Rehabilitation Assistance Program helps to bring housing occupied by low-income homeowners, renters and persons with disabilities up to basic health, safety and mobility standards, and facilitates the conversion of non-residential buildings to residential use. Housing repair and improvement programs also include the Emergency Repair Program, which offers financial assistance to low-income Canadians in rural areas to undertake emergency repairs to their homes, and the Home Adaptations for Seniors Independence Program, which provides low-income seniors with financial assistance to carry out minor home adaptations. The Shelter Enhancement Program provides financial assistance to rehabilitate, repair, improve or build emergency shelters for victims of family violence.

Aboriginal Capacity Programs

Aboriginal capacity development facilitates the acquisition of knowledge, skills, training and resources that will allow aboriginal people to work toward self-sufficiency in housing and take on more responsibility for the functioning of housing within their community. Assistance is provided to Aboriginal people, housing institutions and individual housing providers to acquire skills and knowledge to design, build, inspect, finance and manage housing, both on and off reserve.

Human Resources and Skills Development Canada Mortgage and Housing Corporation

Research and Information Dissemination to improve housing and living conditions

There are many factors that contribute to the development of community, including the physical form of the environment, the social interaction of citizens within their community and the economic activity centred in the community. Research on this theme investigates the role of housing as a contributor to community well-being, identifies innovative approaches and solutions, which leads to more sustainable and healthy communities and assists in the demonstration of these approaches in communities across Canada.

Quality in the housing stock is reflected in its durability, in the provision of safe and healthy shelter and in the satisfaction of the occupant. Research on this theme develops energy and environmental solutions for residential buildings, explores ways to control moisture and improve the indoor environment and addresses the durability performance of residential buildings. Research is undertaken to reduce residential water use and ensure water quality, and reduce the impact of disasters. The unique technical problems of remote and northern housing are also addressed.

Strategic Outcome

A competitive housing market and strong housing sector.

Program Activity Descriptions

Canadian Housing Market Research and Analysis

CMHC collects, analyzes and disseminates housing market information that facilitates informed housing-related decisions by those in the industry, the public at large and CMHC. This includes the provision of housing market data, analysis and forecasts through publications, conferences, seminars, industry roundtables and custom data services. To meet client information needs, CMHC undertakes various surveys of: starts and completions; market absorption; rental market; mortgage approvals; and consumer intentions to buy or renovate a home.

International Activities

Housing sector well-being is further promoted through support to the industry, which enables Canadian companies to secure international business opportunities and diversify their share of housing export markets. CMHC will seek to increase Canadian housing exports by helping companies expand into promising markets, bring together key Canadian clients with pre-selected prospective buyers abroad, promote awareness and recognition of Canadian housing approaches, support foreign delegations seeking information on Canada's housing system and provide assistance to emerging economies to assess and improve their housing environment.

Research and Information Dissemination to promote housing market competitiveness and housing sector well being

A well-functioning housing sector enables the marketplace to be the primary vehicle to meet the shelter needs of society. Research on this theme is aimed at providing industry, government and social housing stakeholders with timely and relevant trend and issue analysis related to households, housing and market conditions, as well as related monitoring indicators. This information is needed for informed and proactive decision-making in a time of evolving household and housing market circumstances. The work entails: the exploration of the impact of socio-economic and demographic trends on consumers and housing markets; assessment of their impact on affordability; housing quality and choice; identification and acquisition of data from a range of sources; and the development of carefully selected indicators and measures to interpret the data obtained.

Emergency planning

CMHC ensures that Business Resumption Plans are in place and tested to ensure effective and timely resumption of normal business operations following a business interruption impacting the Corporation's business operations and commitments to stakeholders, with particular emphasis on restoring mission-critical business functions first.

Human Resources and Skills Development Canadian Centre for Occupational Health and Safety

Strategic Outcome

Canadians will be provided with unbiased occupational health and safety information and services for the prevention of work-related illnesses and injuries.

Program Activity Descriptions

Occupational health and safety information development, delivery services and tripartite collaboration

The goal of this program is to provide free information on occupational health and safety to support Canadians in their efforts to improve workplace safety and health. Citizens are provided information through a free and impartial personalized service via telephone, e-mail, person-to-person, fax or mail. Alternatively they can independently access a broad range of electronic and print resources developed to support safety and health information needs of Canadians. This may include cost recovery products and services and is supported financially by contributions from various stakeholders.

Through health and safety information development, the Canadian Centre for Occupational Health and Safety (CCOHS) collects, processes, analyzes, evaluates, creates and publishes authoritative information resources on occupational health and safety for the benefit of all working Canadians. This information is used for education and training, research, policy development, development of best practices, improvement of health and safety programs, achieving compliance, and for personal use. Various levels of service are available from free to purchase of products and services. When the product or service provided by CCOHS is provided to identified external recipients with benefits beyond those enjoyed by the general taxpayer, a user fee is charged.

CCOHS promotes and facilitates consultation and cooperation among federal, provincial and territorial jurisdictions and participation by labour, management and other stakeholders in the establishment and maintenance of high standards and occupational health and safety initiatives for the Canadian context. The sharing of resources results in the coordinated and mutually beneficial development of unique programs, products and services. Collaborative projects are usually supported with a combination of financial and non financial contributions to the programs by stakeholders and result in advancement of the health and safety initiatives.

Indian Affairs and Northern Development Department

Strategic Outcome

The Government – Good governance, effective institutions and cooperative relationships for First Nations, Inuit and Northerners.

Program Activity Descriptions

Governance and Institutions of Government

Fostering stronger governance and institutions of government through supporting legislative initiatives, programs and policies, and administrative mechanisms that foster stable, legitimate and effective First Nations and Inuit governments that are culturally relevant, provide efficient delivery of services and are accountable to their citizens.

Co-operative Relationships

Building co-operative and productive intergovernmental and treaty relationships with First Nations and Inuit to optimize the pursuit and attainment of shared objectives; the reconciliation of Aboriginal and other interests through researching, assessing, negotiating and implementing claims and self-government agreements; the furthering of common understanding regarding the historic treaty relationship; and developing legislative and administrative arrangements that reflect evolving governance capacities and relations.

Northern Governance

Supports strengthening northern governments through devolution of province-like responsibilities, effective intergovernmental mechanisms and management of strategic issues, as well as strengthened intergovernmental cooperation internationally on circumpolar issues.

Strategic Outcome

The People – Strengthened individual and family well-being for First Nations, Inuit and Northerners.

Program Activity Descriptions

Managing Individual Affairs

Professionally managing individual First Nations' affairs to ensure that the Minister's responsibilities under the *Indian Act* for trust funds, membership and estates are properly exercised.

Education

Supports the provision of: elementary/secondary education services consistent with provincial programs and standards, contributing to increased levels of educational attainment and improved employability for First Nations and Inuit students; special education directed to improve the quality of education and level of support services for eligible students with special needs that are reasonably comparable with provincial levels of support services; and financial support for status Indians to participate in post-secondary education studies to increase levels of participation, achievements and employability.

Indian Affairs and Northern Development Department

Social Development

Supports the provision of: income assistance to meet basic needs for food, clothing and shelter to ensure the safety and well-being of individuals and families consistent with provincial programs and standards; First Nations child and family services to improve their well-being and security; assisted living for social support services of a non-medical nature such as in-home care, short term respite care, foster care and institutional care to improve their well-being and security; Family Violence Program to improve safety and security, particularly of women and children at-risk; National Child Benefit Re-investment to support low-income families with children to help prevent or reduce the depth of child poverty; and other social services to build capacity for First Nations to assume responsibility for, and jurisdiction over social development through policy development, program design and service delivery, to build self-reliant, sustainable, healthy and stable First Nation communities.

Healthy Northern Communities

Supports improvements in the health and well-being of Northerners through grants for hospital and physician services for Indian and Inuit residents in the Northwest Territories and Nunavut, the transportation of nutritious perishable foods and other essential items to isolated northern communities at reduced rates, the conduct of research into the sources and effects of contaminants on the Arctic food chain and initiatives to assist Northerners deal with broad issues such as the impacts of climate change.

Strategic Outcome

The Land – Sustainable use of lands and resources by First Nations, Inuit and Northerners.

Program Activity Descriptions

Clarity of Title to Land and Resources

This activity includes: additions to reserve; ensuring clarity of title to facilitate future land transactions through surveys, negotiated agreements; and implementing land transfers under specific and comprehensive claims.

Responsible Federal Stewardship

This activity includes: discharging federal responsibilities to First Nations, such as under the *Indian Act* and the *Indian Oil and Gas Act* and associated regulations; discharging responsibilities and coordinating with other government departments with similar responsibilities, such as Environment Canada; remediating contaminated sites under federal jurisdiction; and collecting and managing Indian monies from land and resources activities.

First Nations Governance over Land, Resources and the Environment

This activity includes: supporting First Nations in the development of professional and institutional capacity, including working with emerging First Nations' institutions and professional associations; supporting the development of sectoral self-government options and agreements; and working with First Nations to implement such agreements, for instance working jointly with the Lands Advisory Board to implement the *First Nations Land Management Act*.

Northern Land and Resources

Supports the sustainable development of the North's natural resources, emphasizing improved environmental management and stewardship, including the clean-up of contaminated sites, expanding the knowledge base for sound decision-making and improving the effectiveness of the northern regulatory environment.

Indian Affairs and Northern Development Department

Strategic Outcome

The Economy – Aboriginal People and Northerners close the economic gap.

Program Activity Descriptions

Economic and Employment Opportunities for Aboriginal People

Supports the expansion of economic and employment opportunities for Aboriginal peoples in both the public and private sectors. Supports and promotes goods and services contracting opportunities for Aboriginal businesses.

Access to Capital and Economic Development

Supports the provision of funding for comprehensive, specific and special claims settlements to provide First Nation and Inuit communities with investment capital. Economic development programs facilitate economic development opportunities and the development/implementation of economic development strategies.

Community Infrastructure

Supports the provision of funding for the acquisition, construction, operation and maintenance of: community facilities such as roads, bridges, water and sewer, and administration offices; education facilities, such as schools and teacherages; remediation of contaminated sites on reserve; and on-reserve housing.

Northern Economy

Supports sustainable economic growth of the territorial economies through investments in innovation and knowledge and regional development programming, advocacy and activities, which lead to Northerners participating and benefiting from resource development.

Strategic Outcome

Office of the Federal Interlocutor – Strengthened relationships with Métis, non-Status Indians and urban Aboriginal Canadians to raise awareness of their need and improve access to federal services with the aim of improving their socio-economic conditions.

Program Activity Descriptions

Co-operative Relations

Supports strengthening of effective interdepartmental and intergovernmental (federal/provincial/territorial/municipal) relations; pursue cooperative relations with Métis, non-status, off-reserve and urban Aboriginal organizations to optimize the pursuit and attainment of shared objectives; proactive management of strategic issues related to Métis, non-status Indians and urban Aboriginal people.

* Reflects the realignment of resources between program activities as a result of the approved Program Activity Architecture and/or the consolidation of various transfer payment authorities.

** Recipients obtain funding through a variety of arrangements including contributions, flexible transfer payments and alternative funding arrangements. In the latter case, a global amount is provided to First Nations for a range of basic services; accordingly, the amounts displayed should be considered estimates only.

Indian Affairs and Northern Development Canadian Polar Commission

Strategic Outcome

Increased Canadian polar knowledge.

Indian Affairs and Northern Development

Indian Specific Claims Commission

Strategic Outcome

Fair resolution of specific claims.

Program Activity Descriptions

Indian Specific Claims Commission

The Commission conducts impartial inquiries when a First Nation disputes rejection of their specific claim by the Minister of Indian Affairs and Northern Development, or when a First Nation disagrees with the compensation criteria used by Government in negotiating the settlement of their claim. As well as conducting formal inquiries, the Commission, at the request of the Government and First Nation, provides or arranges, such mediation services as may in their opinion assist them to reach an agreement in respect of any matter relating to an Indian specific claim.

Industry Department

Strategic Outcome

A fair, efficient and competitive marketplace.

Program Activity Descriptions

Policy Sector – Marketplace

Development of marketplace framework policy.

Operations Sector – Marketplace

Development of instruments and compliance with the marketplace framework.

Spectrum, Information Technologies and Telecommunications Sector – Marketplace

Development of regulations, policies, procedures and standards governing Canada's spectrum and telecommunications industries and the digital economy.

Office of Consumer Affairs

Promotion and protection of consumer interests.

Competition Bureau

Development of and compliance with marketplace frameworks with respect to competition.

Canadian Intellectual Property Office – Revolving Fund – Special Operating Agency

Granting of intellectual property rights and the dissemination of intellectual property information in order to accelerate Canada's economic development.

Strategic Outcome

An innovative economy.

Program Activity Descriptions

Policy Sector – Science and Technology and Innovation

Development of economic and scientific policy.

Industry Sector – Science and Technology and Innovation

Development of initiatives that stimulate research and development in order to accelerate commercialization in emerging technologies and priority sectors.

Spectrum, Information Technologies and Telecommunications Sector – Science and Technology and Innovation

Support advanced and applied research within the Canadian information and communications technologies sector for the development of innovative technologies.

Communications Research Centre Canada

To be the centre of excellence for research and development in advanced telecommunications and information technologies, ensuring an independent source of advice for public policy.

Technology Partnerships Canada – Special Operating Agency

Commercialization encouraged through strategic investments in innovative research and development.

Industry Department

Strategic Outcome

Competitive industry and sustainable communities.

Program Activity Descriptions

Policy Sector – Economic Development

Development of industry and international business policy.

Operations Sector – Economic Development

Delivery of programs, information and intelligence on investment and technology opportunities to the business community.

Provision of a multi-channel, common entry point for business on behalf of the Government of Canada and encouragement of client-centered service delivery and design.

Industry Sector – Economic Development

Development of initiatives that support global competitiveness and sustainable economic growth in priority sectors and emerging technologies.

Spectrum, Information Technologies and Telecommunications Sector – Economic Development

Promotes economic development by ensuring that Canadians, communities and businesses have access to reliable modern information and communications technologies infrastructure and the skills needed to fully participate in the digital economy.

Enhances entrepreneurship and life-long learning by fostering the creation of advanced, enabling applications and technologies. Supports the development of a competitive information and communications technologies industry in Canada.

Industry

Canadian Space Agency

Strategic Outcome

Environment and sustainable development. Knowledge, innovation and economy. Sovereignty and Security.

Program Activity Descriptions

Space Awareness and Learning

The program activity objective is to further public understanding and engagement with regards to space related issues, ultimately leading to improving the scientific literacy of Canadians by carrying out a national awareness and learning initiative in support of the Canadian Space Program.

Space Based Earth Observation (EO)

The program activity objective is to develop and operationalize the use of space Earth Observation (EO) for the benefit of Canadians, especially in the fields of environment, resource and land use management, as well as security and foreign policy. In doing so, the CSA will maintain and expand Canada's leadership in Earth Observation technologies to obtain the timely, relevant and essential information we need to make judicious decisions about our collective future in collaboration with national and international partners that share our needs and goals.

Space Science and Exploration (SE)

The program activity objective is to better understand the Solar System and the Universe; to seek extraterrestrial habitats for life; and to prepare for a permanent human presence on other planets. In doing so, the CSA will sustain and increase Canada's contribution to humankind's scientific knowledge, to the exploration of our solar system and the Universe and to the development of related technologies. This will advance supporting technologies and our fundamental and applied knowledge of chemistry, physics, and life sciences by carrying out leading-edge experiments in the unique environment of space.

Satellite Communications (SC)

The program activity objective is to provide all Canadians with the means to participate and fully benefit from the global information age. In doing so, the CSA will uphold Canada's status as a world leader in Satellite Communications (SC) and extend the most advanced products and services to all Canadians, everywhere.

Generic Space Activities in support of Earth Observation (EO), Space Science and Exploration (SE) and Satellite Communications (SC)

Provide leadership, coordination or support to Earth Observation (EO), Space Science and Exploration (SE) and Satellite Communications (SC) through activities that are generic in their nature since they contribute to all three program activities.

Industry

Canadian Tourism Commission

Strategic Outcome

Maximize the contribution to the economy of Canada from the tourism sector by increasing tourism activities in Canada and contributing to the world competitiveness of the Canadian tourism industry.

Program Activity Descriptions

Information

The information program is fundamental to the success of the Canadian Tourism Commission. From a macro perspective, the program is responsible for measuring the importance and the economic value of the amalgam of tourism-related industries that make up the Canadian tourism sector. The program also assesses the performance of the tourism sector and its impact on the Canadian economy in terms of growth in employment, flow of tourists, foreign exchange earnings, tax revenues generated and gross domestic output. This information has proved invaluable in helping the industry increase its status and credibility. The Commission also monitors worldwide developments and trends, determines if they might present challenges or opportunities, and provides advice to industry stakeholders.

From a micro perspective, the information program helps the Canadian Tourism Commission develop and promote innovative tourism products through the identification of new market opportunities and niche-product demands. Information also enables the Canadian Tourism Commission to improve the distribution channels through which travel products reach the consumers.

Marketing and Sales

The marketing and sales program focuses on four major geographical market segments – Canada, the United States, Europe/Latin America and Asia/Pacific – in addition to targeting tourism activities associated with meetings, conventions, and incentive travel. Marketing and sales efforts are based on four pillars: consumer; trade; media and public relations; and the Internet.

The role of marketing and sales at the Canadian Tourism Commission is to increase the awareness and interest in Canada as a four-season destination for each of these markets by: developing competitive strategic programs; building traditional and non-traditional marketing partnerships; working with industry partners to make potential tourists aware of the possibilities for travel in or to Canada; ensuring small operators gain buying power through group marketing activities; and facilitating collaboration between smaller businesses to develop coordinated marketing strategies.

Product Development

The product development program at the Canadian Tourism Commission influences the quality and quantity of diverse and competitive tourism experiences in Canada. Working directly with various stakeholders in the tourism industry, the product development program acts as a catalyst to influence the competitiveness of market-ready product by: obtaining research on product demand and positioning; providing information to make the Canadian tourism product more competitive; encouraging small businesses to develop new products by building partnerships; and providing the venue or vehicle through which market-ready products can be developed.

Industry
Copyright Board

Strategic Outcome

Fair decision-making to provide proper incentives for the creation and use of copyrighted works

Program Activity Descriptions

Render decisions and issue licences

The impact of the decisions of the Board is estimated to be over \$300 million annually. The stakes are considerable both for copyright holders and for users of copyright. Consequently, interventions before the Board are thorough and sophisticated, involving expert witnesses, litigation specialists and detailed econometric, business and financial studies, surveys and evidence. In rendering its decisions, the Board must consider the underlying technologies (such as the Internet, digital radio, satellite communications), the economic issues and the interests of owners and users in order to contribute, with fair and equitable decisions, to the continued growth of this component of Canada's knowledge industries. Sound tariff decisions avoid serious disruption in affected sectors of the national economy and costly and time-consuming court challenges. In addition, pursuant to section 77 of the Copyright Act, the Board may grant licences authorizing the use of published works, fixed performances, published sound recordings and fixed communication signals, if the copyright owner is unlocatable. The Copyright Act requires licence applicants to make reasonable efforts to find the copyright owner. Licences granted by the Board are non-exclusive and valid only in Canada.

Industry National Research Council of Canada

Strategic Outcome

An innovative, knowledge-based economy for Canada through research and development, technology commercialization and industry support.

Program Activity Descriptions

Research and Development

Research and Development encompasses the department's responsibilities for performing research and development in strategic fields of science and engineering leading to the application of innovative technologies through commercialization and technology transfer in key economic areas.

Technology and Industry Support

Technology and Industry Support encompasses the provision of technology assistance, financial support and commercialization assistance to small and medium-sized enterprises; and the dissemination of scientific, technical and medical information to industry, government and universities.

Strategic Outcome

People: Highly skilled science and engineering professionals in Canada.

Program Activity Descriptions

Promote Science and Engineering

This program activity encourages popular interest in science, math and engineering and aims to develop science, math and engineering abilities in Canadian youth.

Support Students and Fellows

This program activity supports training of highly qualified personnel through scholarship and fellowship programs.

Attract and Retain Faculty

This program activity aims to attract and retain faculty.

Strategic Outcome

Discovery: High quality Canadian-based competitive research in the natural sciences and engineering.

Program Activity Descriptions

Fund Basic Research

This program activity invests in discovery through grants focusing on basic research activities.

Fund Research in Strategic Areas

This program activity funds project research of national importance and in emerging areas that are of potential significance to Canada.

Strategic Outcome

Innovation: Productive use of new knowledge in the natural sciences and engineering.

Program Activity Descriptions

Fund University-Industry-Government Partnerships

This program activity fosters collaborations between university researchers and other sectors, including government and industry, in order to develop new knowledge and expertise, and to transfer this knowledge and expertise to Canadian-based organizations.

Support Commercialization

This program activity supports innovation and promotes the transfer of knowledge and technology to Canadian companies.

Industry Social Sciences and Humanities Research Council

Strategic Outcome

People: A First-Class Research Capacity in the Social Sciences and Humanities

Program Activity Descriptions

Fellowships, Scholarships and Prizes

The Social Sciences and Humanities Research Council (SSHRC) offers several award programs for advanced study and research in the social sciences and humanities at the master's, doctoral and postdoctoral level. These programs help train Canada's researchers and the leaders of tomorrow. In addition, SSHRC offers special fellowships to experienced researchers and supplementary awards to outstanding doctoral and postdoctoral fellowship recipients. Finally, two commemorative prizes recognize the extraordinary dedication and creativity of Canada's best researchers.

Canada Research Chairs

In 2000, the Government of Canada allocated \$900 million to establish 2,000 research professorships - Canada Research Chairs - in universities across the country. Chair holders advance the frontiers of knowledge in their fields, not only through their own work, but also by teaching and supervising students and coordinating the work of other researchers. By helping Canadian universities and their affiliated research institutes and hospitals become world-class centres of research and research training, the Canada Research Chairs Program contributes to enhancing Canada's competitiveness in the global, knowledge-based economy, improving Canadians' health, and enriching our social and cultural life. Specifically, the program also seeks to: strengthen research excellence in Canada and increase Canada's research capacity by attracting and retaining the best researchers; improve the training of highly qualified personnel through research; improve universities' capacity to generate and apply new knowledge; and promote the best possible use of research resources through strategic institutional planning, and through collaboration among institutions and between sectors.

Strategic Outcome

Research: New Knowledge Based on Excellent Research in the Social Sciences and Humanities

Program Activity Descriptions

Investigator-framed Research (theme area and subject defined by researcher(s))

SSHRC research grants support individual and team projects and programs of research for which the applicant(s) proposes/propose the research topic and methodology. These range from individuals or small groups working in libraries and archives to large, multidisciplinary, collaborative projects with researchers, partners and assistants conducting fieldwork across the country.

Targeted Research and Training Initiatives

SSHRC develops and funds programs to support strategic research programs, both on its own and in partnership with other fund providers, including government, private and community organizations. These programs generate new knowledge on pressing social, economic and cultural issues of particular importance to Canadians. One particular stream of strategic programs supports research that will contribute to better understanding of the impacts of the "knowledge-based economy" on Canada's economic, social, political and cultural life, and will help to improve Canadians' ability to influence the future for the common good.

Industry

Social Sciences and Humanities Research Council

Strategic Research Development

Strategic grants through programs in this program activity are available to faculty, post-secondary institutions, scholarly associations and non-profit organizations to explore, develop and define new perspectives, challenges, and priorities in conducting research, in disseminating research results, and in training new researchers. Strategic research development programs also help develop related research capacity through the promotion of new modes of research collaboration and partnerships.

Strategic Outcome

Knowledge Mobilization: The Transfer, Dissemination and Use of Social Sciences and Humanities Knowledge.

Program Activity Descriptions

Research Communication and Interaction

Programs in this program activity support the communication and dissemination of research results to both academic and broader audiences through both traditional and innovative mechanisms.

Strategic Outcome

Institutional environment: A strong canadian science and research environment.

Program Activity Descriptions

Indirect Costs of Research

In Canada, the provincial and federal governments jointly support academic research. The provinces provide the basic physical infrastructure and, supported in part by the Canada Health and Social Transfer, direct and indirect operating costs. The federal government funds the direct costs of research, mainly through the three national research granting agencies - the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council, and the Social Sciences and Humanities Research Council. The term "indirect costs" refers to the central and departmental administrative costs that institutions incur to support research, but are not attributable to specific research projects.

In its 2003 budget, the Government of Canada announced a new program to support the indirect costs associated with the conduct of academic research in institutions that receive research grant funds from any of the three federal granting agencies. This grant program recognizes the growing indirect costs of conducting publicly-funded academic research. The program was created to help postsecondary institutions maximize the investments in research in one of two ways: secure additional support for the indirect costs of conducting research or support their mandates to teach and provide community services. By financing a portion of the indirect costs incurred by postsecondary institutions and their affiliated research hospitals and institutes, the federal government both supports world-class research facilities and addresses the needs of smaller Canadian postsecondary institutions. The Indirect Costs program is administered by the SSHRC-hosted Canada Research Chairs secretariat on behalf of the three national research granting agencies.

Industry Standards Council of Canada

Strategic Outcome

Efficient and effective voluntary standardization.

Program Activity Descriptions

Accreditation

Conformity assessment is the practice of determining whether a product, service or system meets the requirements of a particular standard. The Standards Council accredits six types of conformity assessment organizations: product certification bodies; testing and calibration laboratories; management systems registration bodies; inspection bodies; auditor course providers; and personnel certification bodies.

The Standards Council accredits organizations that develop standards in Canada. Accredited standards development organizations may submit their standards for approval as National Standards of Canada.

Information

The Standards Council advises federal, provincial and territorial governments, industry organizations and non-governmental bodies on standards and conformity assessment related aspects of trade and regulatory policy. A major focus is to encourage governments and industries to make greater use of the National Standards System in regulatory activities and trade agreements.

The Standards Council offers Canadians the latest and most comprehensive information on standards, technical regulations and conformity assessment in Canada and around the world through its web site, Information and Research Service and On-site Technical Library. The Standards Council also serves as Canada's World Trade Organization and North America Free Trade Agreement Enquiry Point.

Representation

The Standards Council manages Canada's participation in the International Organization for Standardization and the International Electrotechnical Commission, two of the world's most important voluntary standardization bodies, and in regional standards organizations. It also encourages the adoption and application of international standards in Canada.

The Standards Council is also a member of a number of regional and international organizations that are developing agreements to ensure the international acceptance of conformity assessment results.

	7,529	7,529	6,924

Strategic Outcome

Provide Canadians with objective and non-partisan statistics and statistical products, services and analyses on Canada's economy and society which are relevant, responsive to emerging issues, fulfill legal requirements and are of high quality.

Program Activity Descriptions

Economics Statistics

The Economic Statistics program activity comprises the Business and Trade Statistics Program and the National Accounts and Analytical Studies. The Business and Trade Statistics provide information and analysis on the entire spectrum of Canadian economic activity, both domestic and international, through a set of macro-economic statistics and focuses on the business and trade sectors of the Canadian economy. Information includes measures of the value of production, cost structures, commodities produced and consumed, the activities of the various service industries (including financial, insurance, accommodation among others), the flows and stocks of fixed capital assets employed in the economy, the degree of capacity utilization, estimates of planned annual capital expenditure of businesses and governments, and measures of price changes for industrial goods, capital expenditures and construction. In addition, information is provided on measures of change in retail prices, on the science and technology activities of the federal and provincial governments, and on research and development (R&D) in government and other sectors of the economy. The organisation of economic statistics is guided, in a large measure, by frameworks which constitute the Canadian System of National Accounts. The system makes it possible to measure both the current performance and the structural make-up of the Canadian economy by type of economic transaction and by sector. This set of accounts is designed to provide structural and current information on the Canadian economy in direct support of fiscal, monetary, human resource, industrial and international economic policy formulation and adjustment. The System of National Accounts also serves as a framework within which individual statistical series are compared to assess their reliability and as an analytic tool to identify shifts in the economic importance of various sectors.

Social Statistics

The Social Statistics program activity comprises the Social, Institutions and Labour Statistics Program. The Social, Institutions and Labour Statistics Program provides information on the economic and social characteristics of individuals, families and households in Canada, and on the major factors which can contribute to their well-being. It includes measures of household income and expenditure; of employment, unemployment, their associated costs and benefits, labour income and factors affecting labour supply, health and factors influencing it; and information on topics of specific social policy concern. This program also provides information and analysis on the facilities, agencies and systems which are publicly funded to meet the socio-economic and physical needs of Canadians, and on the outcomes of the services which they provide. It encompasses the justice, health care, and education systems as well as cultural institutions and industries, in terms of the nature and extent of their services, and operations, the characteristics of the individual Canadians and families whom they serve, and their impacts on Canadian society. Increasingly, the Agency is attempting to go beyond the institutional orientation of this component, and to try to portray the impacts on Canadians of the activities of the health, education and justice systems.

Census Statistics

The Census Statistics program activity comprises the Census and Demographic Statistics Program. The objective of this activity is to provide statistical information on the Canadian population, its demographic characteristics and conditions, and their changes over time. This activity also provides statistical information from the quinquennial Census of Population. The Census provides benchmark information on the structure of the Canadian population and its demographic, social and economic conditions. It provides the detailed information needed on subgroups of the population and for small geographic areas, which cannot be generated through sample surveys. Estimates of the size of the population and its demographic structure between Censuses, as well as population projections, are dependent on Census information. Population counts and estimates are required to determine electoral boundaries, the distribution of federal transfer payments, and the transfer and allocation of funds among regional and municipal governments, school boards and other local agencies within provinces. Also, every five years, a Census of Agriculture provides data on: number and type of farms; farm operators; business operating arrangements; land and land management practices; capital investments; farm vehicles, machinery and equipment; and hired agricultural labour. Census data serves as a benchmark to agricultural series and also provides the base for the entire Agriculture Survey Program. This activity also provides information on Aboriginal Peoples.

Justice Department

Strategic Outcome

A fair, relevant and accessible justice system that reflects Canadian values.

Program Activity Descriptions

Developing policies and laws

The planning and development of government justice policies dealing with the matters within the mandate of the Minister of Justice.

Developing and implementing programs

The design, development and implementation of cost-shared programs and grants and contributions.

Strategic Outcome

A federal government that is supported by effective and responsive legal services.

Program Activity Descriptions

Providing legal advisory, litigation and legislative services to government

The provision of legal advisory services to departments and agencies and the supervision, coordination and/or conduct of civil litigation on their behalf.

Providing prosecution services

The conduct of criminal prosecution, including money laundering and drug prosecutions, and regulatory prosecutions such as those related to income tax, the competition law provisions on telemarketing, customs and immigration. Responding to international requests and trans-national crime and working to combat organized crime and terrorism.

Justice
Canadian Human Rights Commission

Strategic Outcome

Equality, respect for human rights and protection from discrimination by fostering understanding of, and compliance with, the Canadian Human Rights Act and the Employment Equity Act.

Program Activity Descriptions

Foster understanding of and compliance with the Canadian Human Rights Act

Integrated processing of individual human rights complaints filed against federally regulated employers and service providers. Prevention initiatives and collaborative arrangements within the federal system to promote sound human rights practices in the workplace. Stakeholder outreach, policy research and development, public inquiries, national human rights institution-building and human rights impact assessments of government initiatives.

Employment Equity Audits in federal and federally regulated workplaces

Ensuring employer compliance with employment equity statutory requirements in the form of an employment equity plan. Ensuring reasonable efforts and reasonable progress are made towards full representation in accordance with labour market availability. Stakeholder outreach, policy research and development, public inquiries, and employment equity impact assessments of government initiatives.

Program by Activities

Justice

Canadian Human Rights Tribunal

Strategic Outcome

Canadians have equal access to the opportunities that exist in our society through the fair and equitable adjudication of human rights cases that are brought before the Canadian Human Rights Tribunal.

Program Activity Descriptions

Public hearings of cases referred by the Canadian Human Rights Commission (CHRC) relating to complaints of discrimination under the Canadian Human Rights Act

To inquire into complaints of discrimination to decide if particular practices contravened the *Canadian Human Rights Act*.

Review direction given by the CHRC to employers pursuant to the Employment Equity Act

Conduct hearings into requests from employers to review decisions issued to them by the Canadian Human Rights Commission (CHRC) or into applications from the CHRC to confirm directions given to employers.

Program by Activities

(thousands of dollars)	2006–2007 Main Estimates		2005–2006
	Budgetary	Total	Main
	Operating		Estimates
Public hearings of cases referred by the Canadian Human Rights Commission (CHRC) relating to complaints of discrimination under the <i>Canadian Human Rights Act</i>	4,352	4,352	4,698

*Based on prior year trends, it is not anticipated that any cases under the *Employment Equity Act* will be referred to the Canadian Human Rights Tribunal by the Canadian Human Rights Commission (CHRC). Therefore no funds have been allocated in the 2006-2007 Main Estimates under the program activity called "Review direction given by the CHRC to employers pursuant to the *Employment Equity Act*."

Justice
Commissioner for Federal Judicial Affairs

Strategic Outcome

An independent and efficient Federal Judiciary.

Program Activity Descriptions

Payments Pursuant to the Judges Act

Payments of salaries, allowance and annuities to federally appointed judges, and their survivors, in the superior courts and courts of appeal in Canada.

Canadian Judicial Council

Administrative support to the various committees established by the Council which is made up of all of the Chief and Associate Chief Justices in Canada as well as the senior judges from the superior courts in Nunavut, Yukon and the Northwest Territories.

Federal Judicial Affairs

Provides other services to federally appointed judges including language training, editing of the federal courts reports, and services to the Minister of Justice through the Judicial Appointments Secretariat.

Justice Courts Administration Service

Strategic Outcome

The public has effective, timely and fair access, in either official language, to the litigation processes of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada.

Program Activity Descriptions

Provide Registry Services

The Registry Services provide administrative support to the courts to ensure the proper and efficient operation of the litigation process.

Provide Judicial Services

This service line provides judicial support to the Justices, including but not limited to judicial assistants, ushers and other staff who provide direct support to the Justices in the discharge of their responsibilities.

Justice
Law Commission of Canada

Strategic Outcome

Canadian law that reflects the needs and values of Canadians and is responsive, effective, equally accessible to all and just.

Program Activity Descriptions

Recommendations on Law Reform

The law is often outdated in its assumptions, its policies and its prescriptions. Some legal institutions, as well as some legal procedures and practices, have become obsolete or ineffective. Governments require independent, strategic and timely advice on legal policy to assist them in recognizing these deficiencies and finding appropriate remedies. The Law Commission of Canada aims to provide such advice, informed by broad consultation, multidisciplinary expertise and innovative thinking. It offers Canadians a forum to present their concerns on issues of law and justice. With insight gained from public consultations, the Commission intends to develop a distinctive perspective from which to cast a critical eye on the law. Its ambition is to make recommendations to orient the law so that it contributes effectively to the collective and individual well-being of Canadians.

Justice

Offices of the Information and Privacy Commissioners of Canada

Strategic Outcome

The protection of the privacy rights of Canadians.

Program Activity Descriptions

Assess and investigate compliance with privacy obligations

The Office of the Privacy Commissioner (OPC) is responsible for investigating complaints and responding to inquiries received from individuals and organizations who contact the Office for advice and assistance on a wide range of privacy-related issues. The OPC also assesses how well organizations are complying with requirements set out in the two federal laws and provides recommendations on Privacy Impact Assessments (PIAs) pursuant to the Treasury Board of Canada policy. This activity is supported by a legal team that provides specialized legal advice and litigation support.

Privacy Issues – Research and Policy

The OPC serves as a centre of expertise on emerging privacy issues in Canada and abroad by researching trends, monitoring legislative and regulatory initiatives, providing analysis on key issues, and developing policy positions that advance the protection of privacy rights. An important part of the work done involves supporting the Commissioner and Assistant Commissioners in providing advice to Parliament on legislation and on government program initiatives that may impact on privacy.

Privacy Education – Promotion and protection of privacy

The OPC plans and implements a number of public education and communications activities, including speaking engagements and special events, media relations, advertising, and the production and dissemination of promotional and educational material.

Strategic Outcome

Individual's rights under the Access to Information Act are safeguarded.

Program Activity Descriptions

Assess, investigate, review, pursue judicial enforcement, and provide advice

The *Access to Information Act* is the legislative authority for the activities of the Information Commissioner and his/her office. The objectives of the activity are:

- To ensure that the rights and obligations of complainants under the *Access to Information Act* are respected; complainants, heads of federal government institutions and all third parties affected by complaints are given a reasonable opportunity to make representations to the Information Commissioner; and investigations are thorough and timely;
- To persuade federal government institutions to adopt information practices in keeping with the *Access to Information Act*; and
- To bring appropriate issues of interpretation of the *Access to Information Act* before the Federal Court.

National Defence Department

Strategic Outcome

Canadians' confidence that the Department of National Defence/Canadian Forces have relevant and credible capacity to meet defence and security commitments.

Program Activity Descriptions

Generate and Sustain Relevant, Responsive and Effective Combat-Capable Integrated Forces

This program activity consists of all the activities necessary to design and develop force structure, create the capability components, generate the forces, and sustain and maintain the forces over time at the appropriate readiness levels. It is designed to generate and sustain forces capable of: Maritime Effects; Land Effects; Aerospace Effects; and Joint, National, Unified and Special Operations Forces. This activity is required to:

- Maintain operational units;
- Maintain deployable support;
- Recruit and train personnel;
- Provide nationally based fixed support including infrastructure, supply, fixed command, force development, and research and development; and
- Acquire Capital Equipment.

Strategic Outcome

Success in assigned missions in contributing to domestic and international peace, security and stability.

Program Activity Descriptions

Conduct Operations

This Program Activity represents the main use of the program output from generate and sustain forces, i.e. the employment of forces in operations, whether on a constant basis, selectively ongoing operations, or as required for named domestic or international operations. It consists of all the activities necessary to conduct: Constant Situational Awareness; Domestic and Continental Operations; and International Operations. This activity is required to:

- Maintain and conduct Intelligence, surveillance and reconnaissance (ISR) operations;
- Maintain ISR support;
- Employ forces to conduct contingency operations in response to domestic or continental requirements;
- Employ High-Readiness forces to conduct operations in response to domestic and continental requirements;
- Provide ongoing specified services in accordance with Government of Canada and other government department (OGD) agreements and demand from other levels of government;
- Employ forces to conduct contingency operations in response to international requirements; and
- Employ High-Readiness forces to conduct operations in response to international requirements.

National Defence Department

Strategic Outcome

Good governance, Canadian identity and influence in a global community.

Program Activity Descriptions

Contribute to Canadian government, society and international community in accordance with Canadian interests and values

This Program Activity consists of Defence advice to the Government of Canada, contributions to Canadian Government; and contributions to the International Community, all in accordance with Canadian interests and values. This activity is required to:

- Provide defence and security policy advice to the Government of Canada;
- Provide military advice to the Government of Canada;
- Provide support to Government of Canada programs;
- Contribute to Canadian economy and innovation;
- Contribute to Canadian identity;
- Contribute to youth and education;
- Meet commitments to international organizations and exchange programs; and
- Provide advisory and training support to other nations.

National Defence

Canadian Forces Grievance Board

Strategic Outcome

The findings and recommendations of the Canadian Forces Grievance Board are implemented in the Canadian Forces and lead to improvements in the conditions of work.

Program Activity Descriptions

Review Canadian Forces grievances referred by the Chief of the Defence Staff

The Board conducts objective and transparent reviews of grievances with due respect to fairness and equity for each member of the Canadian Forces, regardless of rank or position. It ensures that the rights of military personnel are considered fairly throughout the process and that its Board Members act in the best interest of the parties concerned. The findings and recommendations it issues are not only based in law but form precedents that may facilitate change within the Canadian Forces. Administrative tribunals, such as the Board, provide a mechanism outside the courts for the expeditious resolution of complex and particular matters. Acting independently of the government, tribunals have the power to make decisions through enabling statutes of Parliament. Such powers permit the tribunal to determine the existence and scope of rights and obligations in a particular field of expertise and these are to be exercised in accordance with the public interest and the specific circumstances prevailing in the tribunal's area of activity. As an administrative tribunal designed to review grievances, the Board must ensure that its recommendations comply with the law and can be implemented in accordance with its enabling legislation, relevant human rights legislation and the *Canadian Charter of Rights and Freedoms* . Canadian courts have also rendered several decisions on a wide range of subjects and Board Members must keep abreast of these, as well as the current Queen's Regulations and Orders for the Canadian Forces (QR&O), the Canadian Forces Administrative Orders (CFAO) and Treasury Board policies, all of which are used in the course of analyzing grievances and developing findings and recommendations.

Natural Resources Department

Strategic Outcome

Canadians derive sustainable social and economic benefits from the assessment, development and use of energy, forest and mineral resources, and have the knowledge to mitigate environmental impacts and respond effectively to natural and man-made hazards.

Program Activity Descriptions

Earth Sciences

The Earth Sciences program activity is an essential component of the science and technology Canadians need to make informed economic, social and environmental decisions. Geomatics Canada, Canada's national mapping agency, provides geographic information of Canada's landmass and offshore, including topographic maps and aeronautical charts, legal surveys of Canada Lands, geodesy for accurate positioning, and the archiving and application of earth observation data. The Geological Survey of Canada, Canada's national geoscience agency, works with the provinces and territories to provide the geological information that ensures a competitive investment climate for mineral and petroleum exploration, elucidates groundwater resources, maps the geology of the seafloor, helps reduce the risk posed by natural hazards such as earthquakes, magnetic storms, landslides, and naturally-occurring toxic substances. Earth Sciences also manages horizontal programs in Climate Change Impacts and Adaptation, and GeoConnections; delivers Canada's commitment to monitoring nuclear explosions under the Comprehensive Test Ban Treaty; responds to nuclear emergencies; and provides logistics support to Arctic science through the Polar Continental Shelf Project.

Earth Sciences – Geomatics Canada Revolving Fund

The Geomatics Canada Revolving Fund was established under *Appropriation Act No. 3* in 1993-94. The fund allows Geomatics Canada to shift the costs of offering goods and services from taxpayers at large to specific users who benefit directly from them. This revenue retention mechanism gives Geomatics Canada the ability to recover full costs from Canadian customers and the freedom to charge market prices for international clients. It presents the opportunity to provide an increasing volume of products and services in response to the needs of Canadian clients, as well as supporting the Canadian geomatics industry through the knowledge and expertise necessary to be competitive in the international market.

Energy

The Energy program activity fosters the sustainable development and responsible use of Canada's energy resources to meet the present and future needs of Canadians. It focuses on Science and Technology, policies, programs, knowledge and international activities in the areas of energy efficiency (residential, commercial, industrial, transportation), renewable energy, electrical, nuclear energy, alternative transportation fuels, and the production of conventional and unconventional fossil fuels to further sustainable development. Through its work, the program activity helps address the climate change challenge; promotes better environmental and consumer choices; works with key industry sectors to establish reduction targets for greenhouse gas emissions; facilitates North American and international trade in energy; contributes to technical innovation, job creation and economic growth; facilitates environmental protection and increased public safety and security; and helps to ensure competitively priced, reliable and secure energy supplies for Canadians.

Natural Resources Department

Sustainable Forest

The Sustainable Forest Activity promotes the sustainable development of Canada's forests for the social, environmental and economic well being of present and future generations of Canadians. This Activity plays a pivotal role in promoting a healthy forest and a strong forest sector by shaping national and international forest policy agendas, generating, synthesizing and disseminating national forest information, building consensus and developing collaborative opportunities in addressing key forest issues, developing, and transferring forest knowledge, science and technologies, products and strategies to Canadian forest managers and interested nations around the world.

Minerals and Metals

The minerals and metals program is the Government of Canada's leader in promoting the sustainable development and responsible use of Canada's mineral and metal resources. A fundamental objective of the program is to develop:

- (i) technologies and solutions to problems in order to increase the competitiveness of the mining and processing industries; and
- (ii) new materials and processes to enhance the competitiveness of the construction, transportation and energy sectors.

The program includes significant international activities to address barriers to market access and to communicate the benefits of Canadian expertise and products. Minerals and metals activities also focus on assessing the investment climate for exploration and mining in Canada and abroad and making policy recommendations. The program aims to increase the contribution of mineral development to the prosperity and well-being of Aboriginal and northern communities. The program applies its extensive knowledge and expertise to:

- (i) fulfil its statutory responsibilities for mining projects under the *Canadian Environmental Assessment Act*;
- (ii) develop environmental technologies for application both at home and throughout the developing world;
- (iii) limit the impact of climate change; and
- (iv) ensure that environmental policies and regulations pertaining to the mining industry are based on sound science.

Finally, the program is committed to enhancing the security and safety of:

- (i) workers in underground mines through the development of new technologies; and
- (ii) Canadians through the implementation of explosives regulations under the *Explosives Act* and the development of advanced technologies.

Natural Resources Atomic Energy of Canada Limited

Strategic Outcome

Be the top worldwide nuclear products and services company. Protect the health and safety of the public, our employees and the environment. Minimize nuclear legacy obligations for future generations.

Program Activity Descriptions

Commercial Business

The sale on a fully commercial basis of nuclear products and services. Commercial business activities leverage the investment in research and development on a full cost recovery basis and generates profits, which are returned to the corporation. Commercial profits assist in funding primarily the Nuclear Platform including the national research laboratories at Chalk River and also development of new reactor technologies including the next-generation Advanced CANDU Reactor. The various commercial business lines and related services/products provide innovative cost effective business solutions to customers. These sales primarily to nuclear generating facilities are required to optimize the production of a secure and safe energy supply worldwide. Nuclear energy is an essential component of the solution for clean air and climate change improvements worldwide.

Research and Development

Research and Development undertaken to maintain and enhance Canada's scientific and technological expertise in support of the production of environmentally friendly and cost effective CANDU nuclear generated electricity as well as other important peaceful applications of nuclear technologies in areas such as medicine. In particular it involves the maintenance of the intellectual property that has been developed over a period of sixty years covering basic knowledge of: materials, reactor physics, chemistry, critical components, radiation, and the environment; that could have an impact on the safety, licensing and design basis of CANDU technology.

Facilities and Nuclear Operations

This program activity supports the operations of Atomic Energy of Canada Limited (AECL) and requires major facilities such as reactors, experimental loops, hot cells and waste management plants.

Waste Management and Decommissioning

Decommissioning and waste management programs will need to be delivered at AECL sites over at least the next 70 to 100 years. Liabilities at AECL sites have arisen from a wide variety of sources, including wartime activities, wastes received from universities, medical facilities, government and industry from across Canada, and a variety of R&D programs carried out in support of Canada's nuclear power program. Activities provide for maintaining and surveillance of nuclear waste, decontamination and dismantling of surplus facilities as well as environmental restoration projects. Operational management of the facilities that have been turned over to decommissioning are also within this scope.

**Waste Management and Decommissioning is funded from the net proceeds of government-funded heavy water sales.

Natural Resources Canadian Nuclear Safety Commission

Strategic Outcome

Safe and secure nuclear installations and processes used solely for peaceful purposes and public confidence in the nuclear regulatory regime's effectiveness.

Program Activity Descriptions

Nuclear Regulation

Activities at the Canadian Nuclear Safety Commission (CNSC) are undertaken in its role as an independent regulator, to ensure that Canada has safe and secure nuclear installations and processes that are used solely for peaceful purposes. This involves using the powers and tools that are available to the regulator to ensure:

- (a) a low frequency of incidents, accidents and precursors in the use of nuclear substances and processes;
- (b) low levels of exposure, to humans and to the environment, to any harmful substances as a result of nuclear installations and processes;
- (c) a commitment and full engagement of the regulated community to sustain a strong culture of safety and security in the use of nuclear installations and processes; and
- (d) that transfers of nuclear goods and technology in Canada and from Canada are solely for peaceful purposes.

CNSC also must undertake activities that Canadians have knowledge of and confidence in the CNSC as a strong, independent regulator. Canadians will only accept the use of nuclear installations and processes in Canada if they are confident that there are no undue risks to them and to their environment.

Natural Resources Cape Breton Development Corporation

Strategic Outcome

The mandate of the Cape Breton Development Corporation is to conduct the activities necessary for wind-up of the Corporation, fulfilling all remaining obligations, while protecting the owner's interests.

Program Activity Descriptions

Human Resource Obligations

The programs included under Human Resource Obligations are non-discretionary items that the Corporation is required to deliver to former employees. They are ongoing liabilities totalling more than \$350 million in present day value, many of which will continue beyond 20 years. They are a result of Post Employment Benefits and various Human Resource Strategies (operation closure).

Real Property

This activity is divided into sub-activities that deal with the obligations and responsibilities of the Corporation as they relate to Real Property. Programs to manage and satisfy these obligations are in place now, and options are being considered to deal with the best way to take care of ongoing liabilities.

Program by Activities

Natural Resources National Energy Board

Strategic Outcome

Safety, security, environmental protection and economic benefits through regulation of pipelines, power lines, trade and energy development within the National Energy Board's jurisdiction.

Program Activity Descriptions

Energy Regulation and Advice

The companies that are regulated by the Board create wealth for Canadians through the transport of oil, natural gas and natural gas liquids, and through the export of hydrocarbons and electricity. As a regulatory agency, the Board's role is to help create a framework that allows these economic activities to occur when they are in the public interest.

Parliament The Senate

Strategic Outcome

To enable the Senate to carry out its constitutional role and to administer the affairs of the Senate.

Program Activity Descriptions

Senators and their Offices

Provides Senators with the statutory services set out in the *Parliament of Canada Act* and the *Members of Parliament Retiring Allowances Act*. Operating costs of Senators' offices are provided in accordance with established policies and guidelines.

Costs included under these two categories are: Senators' sessional indemnities and allowances as well as contributions to the Senators' pension plan; retiring allowances; travel and communication expenses; Senators' research and office expenses, including staff costs and the cost of goods and services incurred for the operations of Senators' offices; and Caucus research funds.

Chamber Operations

Provide the support and services Senators require for their work in the Senate Chamber, which includes debate and approval of legislation, presentation of petitions, discussion of Committee reports and ceremonial events. These functions are carried out in accordance with the Rules of the Senate, parliamentary procedure and precedents and the Speaker's rulings.

Costs included under this program activity are: salaries for additional duties of the Officers of the Senate; staff costs and the costs of operating the offices of Officers of the Senate; salaries and other operating expenses of the Clerk of the Senate, Deputy Clerk, Parliamentary Counsel and Usher of the Black Rod; journals, reporting of debates and publications service in both official languages; Senate Pages; and parliamentary exchanges.

Committees and Associations

Provide support for the work of Senators on standing, special and joint committees. Committees are delegated the task of conducting in-depth studies of bills and approving or amending legislation based on testimony from expert witnesses and advice and counsel from legal experts. They investigate policy matters and make recommendations as well as examine the Government's spending proposals.

Senators also participate in parliamentary associations and friendship groups, representing Canada in international forums where issues of importance to Canadians are discussed.

Costs included under this program activity are: committees and parliamentary associations; reporting of debates and publications service; and broadcasting committee proceedings

Administrative Support

Provide the on-going support services required for the effective, efficient and economical delivery of operating programs outlined under the other three business lines of the Senate. Administrative Support provides accommodation and other facilities and tools, information, goods and services, and expert advice on all aspects of operations.

Costs included in this program activity are: financial services and materiel management; human resources; protective services; communications and information services; information technology management; accommodation planning, maintenance and upkeep of premises; postal, messenger and printing services; and repairs, trades and transportation services.

Parliament
House of Commons

Strategic Outcome

Effective administrative and professional support of Members, both individually and collectively, in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in Caucus.

Program Activity Descriptions

Members and House Officers

Members assume the roles of legislators and elected representatives of their constituency. In their constituencies, Members participate in events and activities and discuss with constituents about their concerns. In the Chamber, Members participate in debates, study and vote on legislation. Members sit on standing committees and special or joint committees, since the House of Commons delegates in-depth consideration of bills and the thorough scrutiny of the government's programs and policies to its committees. Members also participate in parliamentary associations and friendship groups, and are members of delegations in parliamentary exchanges. Finally, in caucus, Members develop strategy, discuss policy and examine important issues with fellow party members, and direct the work of party research offices. Some Members also assume additional functions such as: the Speaker, Deputy Speaker, House Leaders and Chief Whips.

House Administration

House employees are responsible for providing services to the Members elected during a Parliament, and in addition, serve the House as an institution on a permanent basis by providing: continuity from one Parliament to another; access to parliamentary records; and a stable infrastructure to support Members in the democratic process. Advice and support are provided in a wide variety of services such as: procedural, legislative, legal, information technology and management, building management, security, food, finance, human resources, health and safety. The staff of the House of Commons strives to support the institution and the members in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in Caucus.

Parliament
Library of Parliament

Strategic Outcome

Parliamentarians make informed decisions on issues of concern to Canadians.

Program Activity Descriptions

Information, Research and Analysis

To provide parliamentarians with information, research and analysis services that will help them fulfil their roles as Members of one or other House, committees and parliamentary associations, and as the representatives of a region or riding. Information is also made available to authorized clients.

Strategic Outcome

Institutional memory of Parliament is preserved for future generations.

Program Activity Descriptions

Information Resource Management

To design, develop, maintain and promote a varied collection of sources of knowledge, thereby enabling parliamentarians and those who assist them in their work to obtain the information they need.

Strategic Outcome

Canadians gain a better understanding of Parliament.

Program Activity Descriptions

Public Outreach

To support parliamentarians in their efforts to make Parliament accessible to the public. To provide the public with information about Parliament.

Program by Activities

Parliament

Office of the Ethics Commissioner

Strategic Outcome

Enhance public confidence and trust in the integrity of Members of the House of Commons and Public Office Holders as well as the respect and confidence that society places in the House of Commons as an institution.

Program Activity Descriptions

Communications

This activity defines the strategic direction for the Office of the Ethics Commissioner's liaison with the House of Commons, parliamentary committees, Members of Parliament and Public Office Holders, as well as external stakeholders. This area will also be proactive in informing Members of the House of Commons, Public Office Holders, the media and members of the public of the provisions of the Codes and scope of the role of the Office.

Operations

This activity is three-fold: compliance, provision of confidential advice or opinion and investigation. Compliance refers to the process by which a Member of the House of Commons or a Public Office Holder conforms to the Conflict of Interest Code for Members of the House of Commons or Conflict of Interest and Post-Employment Code for Public Office Holders respectively. This encompasses a number of activities such as the confidential disclosure of private interests, the provision of advice, the public disclosure of certain assets, liabilities, activities as well as gifts, hospitality and other benefits, the establishment of blind trusts or blind management agreements and annual reviews. Provision of confidential advice or opinions refers to a formal request from a Member of Parliament, Public Office Holder or the Prime Minister with respect to the application of the Conflict of Interest Code for Members of the House of Commons or the ethical principles, rules or obligations established by the Prime Minister for Public Office Holders. Investigations are carried out in accordance with the procedures established by the Standing Orders of the House of Commons (Conflict of Interest Code for Members of the House of Commons) for Members of the House of Commons and the provisions of the *Parliament of Canada Act* for those Public Office Holders who are Ministers, Ministers of State and Parliamentary Secretaries.

Policy

The objective of this activity is to develop appropriate policies and practices in order to provide sound and consistent advice to clients with respect to the application of the Conflict of Interest Code for Members of the House of Commons and the Conflict of Interest and Post-Employment Code for Public Office Holders.

Program by Activities

Senate Ethics Officer

Strategic Outcome

Senators meet their obligations under the Conflict of Interest Code in a manner that contributes to the integrity of the Senate as an institution.

Program Activity Descriptions

Administration

The mandate of the Senate Ethics Officer is to administer and interpret the Code for Senators that sets out standards of conduct for Members of the Senate. The primary functions of the Senate Ethics Officer are:

- to provide confidential opinions and advice on any matter respecting Senators' obligations under the Code;
- to review confidential annual disclosure statements (listing sources of income, assets, liabilities, government contracts, financial and other interests), advise Senators on possible conflicts and compliance measures, and prepare public disclosure summaries;
- to conduct inquiries and investigations, if necessary, regarding compliance with the Code.

Privy Council
Chief Electoral Officer

Strategic Outcome

An electoral process that contributes to fairness, transparency and accessibility for all participants in accordance with the legislative framework.

Program Activity Descriptions

Elections

As an independent agency of Parliament, the Office of the Chief Electoral Officer of Canada administers the federal electoral system within the following legislative framework:

- Canada Elections Act* – Exercise of general direction and supervision over the administrative conduct of elections, including: the training of federal returning officers; the revision of the boundaries of polling divisions; the acquisition of election material and supplies for transmission to returning officers when required; the issuing of directives and provision of guidelines to political entities; enforcement of all provisions of the Act; and the making of statutory payments to election officers, auditors, political parties and candidates where specified by the Act. Management of Headquarters operations and of the statutory functions assigned to the Chief Electoral Officer outside of the electoral period. These include the review and study of electoral procedures and election expenses provisions of the Act, the compilation and preparation of statutory and statistical reports and books of instructions for election officers and political entities and the payments of all administrative and statutory accounts.
- Electoral Boundaries Readjustment Act* – Provision to the ten electoral boundaries commissions of the number of members of the House of Commons to be assigned to each province. Provision of the necessary statistics, maps and other documentation to the ten commissions. Provision of financial support and taxing of all accounts related to salaries and other expenses submitted by the ten commissions.
- Canada Elections Act as Adapted for the Purposes of a Referendum* - Exercise of general direction and supervision over the administrative conduct of a referendum, including the training of federal returning officers, the revision of the boundaries of polling divisions, and the acquisition of referendum material and supplies for transmission to returning officers. When required, issue of directives and provision of guidelines to referendum committees, enforcement of all provisions of the Act and the making of statutory payments to referendum officers where specified by the Act.

Privy Council
Commissioner of Official Languages

Strategic Outcome

Compliance with and respect for the Official Languages Act by federal institutions and other organizations subject to the Act.

Program Activity Descriptions

Investigations

Bring to the attention of federal institutions and other organizations subject to the Act, the need for sustainable solutions to issues relating to the implementation of the *Official Languages Act*, through investigations into complaints, audits and by maintaining a working relationship with these institutions, and to foster voluntary compliance with the Act.

Policy and Communications

Serves as a liaison with the various levels of government agencies and organizations active in the area of official languages. Informs Parliamentarians, government and members of the public of provisions and scope of the Act and on the role of the Commissioner. Conducts research and reports to Parliament, by way of the Commissioner's Annual Report, on progress and challenges in complying with the Act.

Public Safety and Emergency Preparedness National Parole Board

Strategic Outcome

Conditional release decisions that contribute to public protection through safe reintegration of offenders into the community.

Program Activity Descriptions

Conditional Release Decisions

Case review and quality decision-making; provision of support for decision-making; provision of appropriate training to ensure professionalism in all aspects of decision-making; and policy development to guide decision-making and operations.

Strategic Outcome

An open and accountable conditional release process that ensures active involvement and engagement of victims of crime and the public before and after conditional release decisions are made.

Program Activity Descriptions

Conditional Release Openness and Accountability

Provision of information for victims and assistance for observers at National Parole Board (NPB) hearings and those who seek access to NPB's decision registry; public information strategies; and investigation of tragic incidents in the community.

Strategic Outcome

Pardon decisions and clemency recommendations that contribute to public protection and support the process of rehabilitation.

Program Activity Descriptions

Pardon Decisions/Clemency Recommendations

The review of pardon applications and the making of quality decisions to grant or deny pardons; provision of support for pardon decision-making; development of pardon and clemency policy; the collection of pardons revenue; and development of recommendations for clemency.

Public Safety and Emergency Preparedness
Office of the Correctional Investigator

Strategic Outcome

The problems of offenders in the federal correctional system are identified and resolved in a timely and reasonable fashion.

Program Activity Descriptions

Oversight of correctional operations

The role of the Office of the Correctional Investigator is to conduct investigations of individual offender complaints regarding acts, omissions, decisions and recommendations of the Correctional Service of Canada. It has, as well, a responsibility to review and make recommendations on the Service's policies and procedures associated with the areas of individual complaints to ensure that systemic areas of complaint are identified and appropriately addressed. Section 19 of the *Corrections and Conditional Release Act* requires that it reviews all investigations performed by the Service following the death of or serious injury to an inmate. The Office is also engaged in similar monitoring of Use of Force incidents, in keeping with the recommendations of the Arbour Commission.

Public Safety and Emergency Preparedness Royal Canadian Mounted Police

Strategic Outcome

Quality federal policing.

Program Activity Descriptions

Federal and International Operations

Provides policing, law enforcement, investigative and protective services to the federal government, its departments and agencies and to Canadians.

Protective Policing Services

Directs the planning, implementation, administration and monitoring of the RCMP National Protective Security Program including the protection of dignitaries, the security of major events and of Special Initiatives including Prime Minister-led summits of an international nature.

Strategic Outcome

Quality contract policing.

Program Activity Descriptions

Community, Contract and Aboriginal Policing

Contributes to safe homes and safe communities by providing police services to diverse communities in eight provinces (with the exception of Ontario and Quebec) and three territories through cost-shared policing service agreements with federal, provincial, territorial, municipal and aboriginal governments.

Strategic Outcome

Quality policing support services.

Program Activity Descriptions

Criminal Intelligence Operations

A national program for the management of criminal information and intelligence in the detection and prevention of crime of an organized, serious or national security nature in Canada, or internationally as it affects Canada.

Technical Policing Operations

Provides policy, advice and management to predict, research, develop and ensure the availability of technical tools and expertise to enable front line members and partners to prevent and investigate crime and enforce the law, protect against terrorism, and operate in a safe and secure environment.

Policing Support Services

Support services provided in support of the RCMP's role as a police organization.

National Police Services

Contributes to safe homes and safe communities for Canadians through the acquisition, analysis, dissemination and warehousing of law enforcement-specific applications of science and technology to all accredited Canadian law enforcement agencies.

Public Safety and Emergency Preparedness

Public Safety and Emergency Preparedness

Royal Canadian Mounted Police External Review Committee

Strategic Outcome

The RCMP External Review Committee aims to positively influence the manner in which labour relations issues are addressed within the RCMP.

Program Activity Descriptions

Independent, timely, fair and impartial case review leading to the provision of quality findings and recommendations in all cases referred to the Committee

The Committee Chair can dispose of matters referred to the Committee by the RCMP either on the basis of the material in the record or following a hearing. In conducting its review of matters referred to it, the Committee attempts to achieve a balance amongst the many complex and different interests involved while ensuring that the principles of administrative and labour law are respected and the remedial approach indicated by the RCMP Act is followed. In each case, the Committee must consider the public interest and ensure that members of the RCMP are treated in a fair and equitable manner.

Dissemination of information on the role of the Committee and its findings and recommendations, as well as on relevant legal principles

The ERC ensures that its findings and recommendations in each case are clearly explained to the parties and the RCMP Commissioner. Summaries of the findings and recommendations in each case, as well as articles of interest and information on related issues, are distributed widely through a quarterly publication (*Communiqué*), as well as through timely inclusion on the ERC Web site and preparation of the annual report and other documents of government accountability.

Public Safety and Emergency Preparedness Royal Canadian Mounted Police Public Complaints Commission

Strategic Outcome

Upholding safe communities through the promotion of Canadian values of respect for human and civil rights, multiculturalism and diversity, equality and fairness, and respect for the rule of law.

Program Activity Descriptions

Civilian oversight of RCMP members' conduct in the performance of their duties

The Royal Canadian Mounted Police Police Public Complaints Commission is an independent federal agency established in 1988 to review public complaints about the conduct of RCMP members in a fair and impartial manner.

The work of this Commission has to be relevant, on a number of levels. The complaints received, the investigations conducted and the reports written, must all be of the highest quality. The work is only relevant if what is produced can withstand the highest scrutiny, and be understood by both the complainants and the RCMP members involved, while generating meaningful debate about the issues addressed.

With this sustained relevance, the Commission is in a unique position to make an important contribution to the policy responsibility of the Public Safety and Emergency Preparedness.

The Commission pays close attention to cases involving police conduct related to the treatment of persons in custody, cell deaths, the use of force, the treatment of mentally ill persons, relations between Aboriginal communities and police, and high-speed police pursuits. Recent developments in anti-terrorism and organized crime legislation, and the use of these extraordinary new powers given to the police, are also of tremendous interest to the Commission.

Currently, over 94% of the Commission's adverse findings and recommendations are accepted by the RCMP Commissioner. Commission recommendations are influencing RCMP conduct and national policing policy, one case at a time.

Public Works and Government Services

Strategic Outcome

Quality Services: Departments and Agencies benefit from a range of efficient government-wide central services.

Program Activity Descriptions

Acquisition Services

Acquire goods and services on behalf of the federal government. Manage the supply process by assisting clients with the requirements definition, bid solicitation and evaluation, contract negotiation and administration and also includes investments in procurement reform and activities associated with Way Forward implementation. Manage all procurement-related aspects of major projects (over \$100 million). Regional offices carry out Public Works and Government Services (PWGSC) acquisition activities across Canada. PWGSC also maintains offices in the U.S. and Europe principally to service the needs of the military.

Optional Services Revolving Fund

A financial fund which provides specialized services to client departments such as marine inspection and technical services, management of seized property, travel management, communications procurement, consensus standards and conformity assessment services. Provide disposal services for client departments. Procurement of vaccines and drugs on behalf of provinces and territories.

Defence Production Revolving Fund

Legacy fund presently unused. Maintained to provide for acquisition services of military supplies in the event of emergency.

Federal Accommodation and Holdings

Effective management of real property investment, under the custodianship of PWGSC, in support of the delivery of government programs.

Real Property Services Revolving Fund

The provision, on a fee for service basis, of optional real property services to other custodial departments and to other departments and agencies requesting services over and above those funded by the Federal Accommodation & Holdings Service Line.

Real Property Disposition Revolving Fund

The provision, on a cost-recovery basis, of routine disposals of all Government of Canada real property assets no longer required in order to generate revenue for the Crown.

Information Management (IM)/Information Technology (IT) Services

IM/IT Services provides information management and information technology based solutions to the Government of Canada. It also provides infrastructure, design, and leadership to major government-wide service projects.

Telecommunications Services Revolving Fund

Telecommunications services provides network and infrastructure services, voice telecommunications services; satellite services; and managed services. This activity is the only one currently managed through a fully compensatory client paid Revolving Fund.

Public Works and Government Services

Business Integration Services

On behalf of the Department, Service Integration Branch will deliver directly or facilitate the delivery of integrated services to customer departments and to PWGSC including: management and delivery of the personnel and facility security screening program and the controlled goods program; integration of the delivery of PWGSC's wide range of services when customer departments require an integrated solution for a complex project; management and delivery of the Department's marketing and multimedia services; and, identification and coordination of shared services opportunities. These activities are conducted and managed nationally through our National Capital Area and regional offices.

Translation and Interpretation to Parliament, Conference Interpretation, Terminology

Translation and Interpretation to Parliament, Conference Interpretation, Terminology.

Translation Bureau Revolving Fund

Provision of translation, techno linguistic and other linguistic services to the judiciary and federal departments and agencies on a cost recovery basis. Upon request, provision of translation, techno linguistic and other linguistic services to other governments in Canada and international organizations on a cost recovery basis.

Consulting and Audit Canada Revolving Fund

Provide on an optional and fee-for-service basis, consulting and audit services to federal departments and agencies and upon request, to provincial, territorial, municipal and Aboriginal governments in Canada and to foreign governments and international organizations.

Government Information Services

Management of the Government of Canada's communication platform by providing multi-channel access to information on Government programs and services (via 1 800 O-Canada toll free line, Canada.gc.ca web site, Canada Gazette).

Receiver General Services

Maintain operations for Departmental Financial Management System. Provide optional document-imaging services for departments. Provide optional payment-related printing such as tax information statements and pay statements. Optional services are provided on a cost recovery basis.

Public Service Compensation

Communications services for public servants and pensioners using pay/pension payment stub envelopes, and provision of pension services to the Department of National Defense.

Office of Green Government Operations Services

The Office of Green Government Operations (OGGO) provides a range of high-quality environmental services to government departments, including PWGSC, operating on a fee-for service basis using the Real Property Services Revolving Fund. The OGGO offers a team of experienced environmental professionals providing services in the area of indoor air quality, environmental management services, contaminated sites remediation, environmental engineering, environmental evaluations, audits and assessments, energy management and other related services aimed at the greening of government operations.

Public Works and Government Services

Strategic Outcome

Sound Stewardship: Canadians benefit from the application of sound stewardship and oversight in the provision of government-wide central services.

Program Activity Descriptions

Supply Operations Stewardship

Acquisition policy; contract quality assurance; professional development; and vendor performance and review and other management and administrative activities to support program delivery.

Real Property Stewardship

Provision of strategic leadership and proactive management of the resources and real property assets to support the delivery of government programs.

Information Management (IM)/Information Technology (IT) Stewardship

IT Stewardship provides IT standards, architecture, engineering, security, client interface/relationship, branch program management, strategy and governance.

Business Integration Performance Management

On behalf of the Department, Service Integration Branch will: determine customer departments' strategic business needs; gather information on customers' upcoming requirements and communicate it to the business line branches; communicate business line information to our customers to align their service delivery expectations with PWGSC's evolving service delivery capacity; develop the infrastructure to effectively manage the Customer Relationship function; and, from a Departmental perspective measure and monitor customers' perceptions of the value of PWGSC's services and report the results to the business lines so that they can be incorporated into their service planning, development and improvement processes. These activities are conducted and managed nationally through our National Capital Area and regional offices.

Translation Stewardship

Program management, strategy, governance, monitoring and support activities. Also encompasses activities that are necessary to:

- ensure the security of supply of linguistic services to Parliament, the judiciary and the federal government
- foster the development and growth of the Canadian language industry
- ensure the development and dissemination of translation, terminology and techno linguistic standards in Canada
- exercise the role of functional specialist in the translation, terminology, interpretation, linguistic and techno linguistic domains for the other departments and agencies.

Government Information Stewardship

Government Information Stewardship activities provide government-wide strategic management, coordination and monitoring in the areas of advertising, public opinion research, exhibitions, public access to on-line information, publishing, administration of crown copyright and electronic media monitoring. These activities are detailed in the Government of Canada's communications policy and its associated procedures.

Receiver General Stewardship

Maintain high-quality support for the Consolidated Revenue Fund and the Accounts of Canada (revenue collection, cash management operations, payment services, Public Accounts, Monthly Statement of Financial Operations, Central Accounts).

Public Works and Government Services

Public Service Pay Stewardship

Administration of the government's payroll processes. Development and maintenance of computer systems and national service office infrastructure. Training and advice to departmental compensation advisors. Liaison with compensation advisors, TBS and insurance companies regarding dental insurance plan.

Public Service Pension Stewardship

Administration of the government's pension processes. Development and maintenance of computer systems. Provision of advice and training. Provision of insurance services including liaison with pensioners, insurance companies and occasionally employees. Development of insurance procedural directives and training courses for delivery to the compensation community.

Office of Green Government Operations Stewardship

The OGGO provides advice, functional guidance and leadership to departments on a wide range of activities related to the greening of government operations. It supports Treasury Board Secretariat in the ongoing development of policy and performance management related to this area, including the development and ongoing refinement of a government-wide performance management framework for greening government operations. It also plans and develops PWGSC's Sustainable Development Strategies, monitors performance, and drafts the Department's annual Sustainable Development Performance Report.

Transport Department

Strategic Outcome

An efficient transportation system that contributes to Canada's economic growth and trade objectives.

Program Activity Descriptions

Policies, Programs and Infrastructure in support of a market-based framework

This program activity encompasses the development of transportation policies, legislation, programs and infrastructure support in such a manner that competition and market forces guide the growth and development of the national transportation system, and that a strong and healthy marketplace encourages existing competitors and new entrants to innovate and provide new services to meet the transportation needs of Canadians. Contributing activities under the policy element of this program activity include monitoring and analysis of the Canadian transportation system, annual reporting on the health of the system, economic studies and the development of new policies. Transport Canada also administers airport, port, highway and bridge subsidy programs and performs landlord and monitoring functions for the department for ports, airports and air navigation system sites. Under the infrastructure element of this program activity, Transport Canada negotiates the divestiture of ports, airports and Seaway lands to local interests, and operates airports and ports until their transfer, as well as federally owned remote airports and remote ports.

Strategic Outcome

A safe and secure transportation system that contributes to Canada's social development and security objectives.

Program Activity Descriptions

Policies, Rule-making, Monitoring and Outreach in support of a safe and secure transportation system

The Safety and Security program activity covers policies, rule-making, monitoring and enforcement, and outreach in support of a safe and secure transportation system. It also encompasses the development of national legislation, regulation and standards, and carries out monitoring, testing, inspection, enforcement, education and developmental activities to promote safety and security in all transportation modes. It also covers emergency preparedness plans and delivers aircraft services to government and other transportation bodies.

Strategic Outcome

An environmentally responsible transportation system that contributes to Canada's sustainable development objectives.

Program Activity Descriptions

Policies and Programs in support of sustainable development

This program activity encompasses the development and implementation of programs and policies to protect the natural environment and to achieve a more sustainable transportation system in Canada.

Transport Department

Strategic Outcome

Crown Corporations

Program Activity Descriptions

Jacques Cartier and Champlain Bridges Inc.

Jacques Cartier and Champlain Bridges Incorporated (JCCBI) is a subsidiary of the Federal Bridge Corporation Limited (FCBL), a Crown Corporation that does not receive any appropriations. Surface Programs and Divestiture is responsible to make payments to JCCBI, which is mandated to operate and maintain the Jacques Cartier and Champlain bridges, the federally-owned section of the Honoré-Mercier Bridge, a section of the Bonaventure Expressway, the Melocheville Tunnel, and the Champlain Bridge Ice Control Structure, by carrying out regular and major maintenance work, as required, while providing users of the structures with safe and efficient transits on these infrastructures.

Marine Atlantic Inc.

The objective of Marine Atlantic Inc. is to operate safe, reliable and efficient marine transportation and related services in Atlantic Canada that contribute to the achievement of government objectives. Financial assistance is provided to Marine Atlantic Inc. on the basis of budgeted costs less user revenues for certain ferry services for which Canada has accepted responsibility, particularly those under the Terms of Union and Confederation.

The Crown corporation provides the following services: (a) to meet constitutional obligations (North Sydney - Port aux Basques services); and (b) to provide an alternative to the constitutional services (North Sydney - Argentina).

VIA Rail Canada Inc.

The objective of VIA Rail Canada Inc. is to manage and provide rail passenger services in Canada in such a manner as to improve their safety, efficiency, effectiveness and economy. VIA Rail is responsible, under the Railway Passenger Services Contract with the Minister of Transport, for managing and providing most of the rail passenger services in Canada. VIA Rail must provide the services identified by the Minister in agreements on the basis of budgeted costs less revenues. VIA Rail, in turn, manages, provides and markets services, maintains equipment and contracts with CN and CP Rail for running rights, operation of passenger trains on their rail systems, and other support services. Funds are also provided to VIA Rail for the acquisition and renovation of plant and equipment and other capital investments.

Canadian Air Transport Security Authority

This program activity consists of the making of payments to the Canadian Air Transport Security Authority mandated to provide effective and efficient screening of persons who access aircraft or restricted areas through screening points, the property in their possession or control, and the belongings or baggage that they give to an air carrier for transport.

Transport
Canada Post Corporation

Strategic Outcome

Provision of parliamentary mailing privileges, services to the blind and declining transitional funding for the Canada Post Corporation pension plan.

Program Activity Descriptions

Concessionary Governmental Services

Payment associated with services provided at rates free of postage by the Corporation in support of government policy programs: Government Free Mail and Materials for the use of the Blind.

Transition Funding for Canada Post pension plan

Payment for transitional support for the implementation of the Canada Post Corporation Pension.

Program by Activities

Transport Canadian Transportation Agency

Strategic Outcome

A fair and transparent economic regulatory regime that helps achieve a viable and accessible national transportation system.

Program Activity Descriptions

Economic regulation of the federal transportation system

Economic regulation of air, rail, and marine transportation through the administration of laws, regulations, voluntary codes of practice, educational and outreach programs and through the resolution of disputes. As an independent quasi-judicial administrative tribunal reporting to the Parliament of Canada through the Minister of Transport, the Canadian Transportation Agency makes its decisions independently, on a wide range of matters affecting Canadian transportation.

Transport

National Capital Commission

Strategic Outcome

Optimum contribution of federal lands and public programs in creating a Capital as a source of pride and of national significance.

Program Activity Descriptions

Animating and Promoting the Capital

The objective is to generate pride and promote unity through programming in the Capital. The main products are a series of high-impact events (notably Canada Day and Winterlude), interpretative programs and commemorations. As well, this activity works to increase Canada-wide awareness of the Capital by means of national marketing and communications campaigns that present the Capital as a place where Canadians can experience Canadian heritage, culture and achievements.

Planning, Design and Land Use

This activity guides the use and physical development of federal lands, coordinates development and ensures excellence in design and planning on federal lands in order that it is appropriate to the role and significance of the Capital. Products include long-term visionary plans, prepared in consultation with other planning jurisdictions and departments, to guide land uses, development and management of Capital lands as well as the identification of the National Interest Land Mass to be held in trust for future generations. Under the *National Capital Act*, the National Capital Commission (NCC) is responsible for the review and approval of all proposals for land-use changes, designs and land disposals on federal lands in Canada's Capital region (CCR) to ensure that they are appropriate to their significance, natural environment and heritage. The NCC develops strategies and facilitates federal involvement in CCR transportation and transit, and participates in joint studies with provincial and municipal partners to address inter-provincial and urban transportation issues. Programs also include management of the NCC's built heritage, cultural landscapes, archaeological assets and collections, as well as approval of heritage building designations in the Capital. Clients include the NCC, all government organizations with interests in CCR, Canadians, and other visitors, plus international and private agencies, all of whom benefit from a meaningful Capital of international quality.

Real Asset Management

The NCC manages and protects physical assets of national significance in CCR as a legacy for future generations of Canadians. Its objectives are to enhance the rich cultural heritage and natural environment of Canada's Capital and to optimize the contribution of the NCC's extensive lands and buildings in support of the programs and mandate of the Corporation, while ensuring NCC assets are appropriately accessible to the public. Environmental assets and liabilities are managed in a sustainable and responsible manner. The NCC owns over 470 square kilometres or 10% of CCR, as well as 27 roads and parkways, 570 kilometres of pathways, 1,639 buildings and 110 bridges. The NCC also manages close to 650 leases and the ground operations for most federal organizations in CCR. The NCC manages its assets through the application of relevant policies and regulations and by means of a life-cycle maintenance and rehabilitation program. The NCC's duties with regard to its real asset base include: safeguarding and preserving the Capital's most treasured cultural, natural and heritage assets (including the Official Residences); the promotion and regulation of public activities on federal lands; natural resource protection and management; environmental stewardship; and the delivery of visitor and recreational services and programs. Where appropriate, the assets are used to generate a stream of revenues to complement federal appropriations in supporting the work of the Corporation (e.g. leasing, land use permits). Land development projects are carried out to enhance the Capital for future generations. This activity is also responsible for the acquisition of national interest properties and disposal of surplus properties. These activities are carried out in close cooperation with the cities of Ottawa and Gatineau and federal organizations (e.g. Public Works and Government Services Canada, Royal Canadian Mounted Police). The NCC also pays Payments in Lieu of Taxes (PILT) to municipalities and school boards in Quebec. Clients include senior political figures (for Official Residences), government bodies at all levels, visitors to the Capital, local residents and all Canadians who benefit from a meaningful Capital.

Office of Infrastructure of Canada

Strategic Outcome

Meeting the priority needs of Canadians for infrastructure that contributes to quality of life, a healthy environment, economic growth, sustainable rural and urban development, innovation and international trade.

Program Activity Descriptions

Infrastructure and Communities

Promoting sustainable cities and communities in Canada through collaborative relationships with other orders of government and stakeholders, direction and management of Canada's multi-billion dollar infrastructure investments programs, and provision of related policy advice, research, communications and information systems.

Crown Corporations Portfolio Management

Providing support to the Minister in his/her responsibilities for three land-based Crown corporations in the Infrastructure Portfolio. The Crown corporations are the Canada Lands Company Limited, the Old Port of Montreal Corporation Inc., and Parc Downsview Park Inc.

Program by Activities

Transport Transportation Appeal Tribunal of Canada

Strategic Outcome

To provide the Canadian transportation community with the opportunity to have enforcement and licensing decisions of the Minister of Transport reviewed by an independent body.

Program Activity Descriptions

Review and Appeal Hearings

Provides for the operation of an independent Tribunal to respond to requests from the transportation community for review of enforcement and licensing decisions taken by the Minister of Transport under the *Aeronautics Act*; and to conduct hearings into such appeals. At the conclusion of a hearing, the Tribunal may confirm the Minister's decision, substitute its own decision, or refer the matter back to the Minister for reconsideration.

Strategic Outcome

Rigorous Stewardship of Public Resources to Achieve Results for Canadians.

Program Activity Descriptions

Management and Expenditure Performance: Clear standards for public management and resources aligned to achieve government priorities

This program activity seeks to promote sound public management by defining clear and achievable management expectations for the use of resources, supporting collaborative labour relations, monitoring expenditure performance, aligning resources with government priorities and reporting results to Parliament.

Comptrollership: Financial controls ensuring reliable and transparent reporting of public expenditures

This program activity aims to put in place effective audits, financial and management controls, and oversight and reporting mechanisms. This program activity also aims to provide assurance that value for money is being achieved through investments made with public funds.

Centrally Managed Funds

This program activity provides sound management and administration of central funds related to:

- government contingencies;
- government-wide initiatives; and
- public service pensions, benefits and insurance.

Canada School of Public Service

Strategic Outcome

Public servants have the common learning required to effectively serve Canada and Canadians.

Program Activity Descriptions

Develop, Manage, Disseminate Knowledge Products

To deliver its mandate, the School, through its knowledge and research centres, develops, manages and disseminates leading edge knowledge relevant to its mandate, in order to position itself as an internationally recognized centre of expertise in public administration, public sector management and adult learning.

Manage the Provision of Learning Services

To deliver its mandate, the School, through its learning centres, manages the provision of a wide range of evidenced-based learning services to meet the common learning needs of public servants, and provides expert advice to departments and agencies on the development of learning strategies and means of creating conditions that allow learning to thrive.

Veterans Affairs

Strategic Outcome

Canada's war veterans, eligible Canadian Forces veterans and members, RCMP clients, qualified civilians and their families receive benefits and services in a fair and timely manner.

Program Activity Descriptions

Pensions, Disability Awards, and Allowances for Disability and Death, and Economic Support

Veterans Affairs Canada provides, upon eligibility, pensions or awards for disability or death and economic support.

Health Care Benefits

Veterans Affairs Canada provides, upon eligibility, health benefits, a Veterans Independence Program, long-term care, and support for rehabilitation and re-establishment into civilian life.

Strategic Outcome

Canadians remember and demonstrate their recognition of all those who served in Canada's efforts during war, military conflict and peace.

Program Activity Descriptions

Canada Remembers

The Canada Remembers program activity endeavours to keep alive the achievements and sacrifices made by those who have served Canada in times of war and peace; to engage communities in remembrance of these achievements and sacrifices; and to promote an understanding of their significance in Canadian life as we know it today.

Strategic Outcome

Fair and effective resolution of disability pension, disability award, and War Veterans Allowance appeals from Canada's war Veterans, eligible Canadian Forces Veterans and members, RCMP clients, qualified civilians and their families.

Program Activity Descriptions

Veterans Review and Appeal Board

Provides Canada's war Veterans, eligible Canadian Forces Veterans and members, RCMP clients, qualified civilians and their families with full opportunity to request review and appeal hearings to ensure a fair adjudicative process for disability pension, disability award, and War Veterans Allowance claims.

Veterans Affairs

Note: The Minister's salary and motor car allowance is now displayed under Canada Revenue Agency.

Western Economic Diversification

Strategic Outcome

Policy, Advocacy and Coordination – Policies and programs that support the development of western Canada.

Program Activity Descriptions

Collaboration and Coordination

Organizing and coordinating meetings, conferences or other events with other levels of government, other federal departments, industry, academia, or the not for profit sector in order to plan or precipitate actions that result in a greater degree of development and/or diversification of the western economy. This can involve the process of developing policies and programs with other governments or partners, but is distinct from the advocacy activities (below) in that it is more broadly based and less focused on specific issues and near term outcomes. The Assistant Deputy Minister Ottawa office and Director of Policy play key roles representing the department in Ottawa and coordinating pan-western activities.

Research and Analysis

Preparing and disseminating information that results in an increased understanding of western Canadian challenges, opportunities and priorities, and which provides the factual intelligence necessary to undertake internal or external policy and program development. This can include externally generated research sponsored by Western Economic Diversification (WED) through agencies such as the Canada West Foundation and the Conference Board of Canada; or in-house research and analysis involving economic overviews, environmental scans, analysis of federal or other government documents (such as Budgets and Throne Speeches), and sectoral or issue analysis that support departmental policy, planning or program development.

Advocacy

Organizing and attending meetings (including meetings involving the Treasury Board and Cabinet submission processes), writing correspondence, or taking part in any other communication or engagement activities that promote the interests of western Canada and western Canadians. The activity should facilitate an improved understanding and awareness of regional issues and opportunities that leads to action by the federal government, partners or stakeholders to help achieve a more balanced, regionally sensitive approach to western Canadian priorities, or that results in a greater share of federal program activity or procurement in western Canada. The activity can also involve advocating on behalf of federal government priorities within western Canada.

Strategic Outcome

Sustainable Communities – Economically viable communities in western Canada with a high quality of life.

Program Activity Descriptions

Community Economic Planning, Development and Adjustment

Projects that help communities assess community strengths, weaknesses, opportunities and potential for new economic activity, and to implement community plans. These would not be primarily innovation related. The process involves community-based consultations/facilitation. It also includes: projects that strive to integrate federal programs, services and horizontal initiatives directed towards western Canadian communities, such as community economic development processes and projects, and the Northern Saskatchewan Agreement, etc.; projects that support the viability of the local economy, enhance available facilities and/or increase the participation of community members; and projects that assist communities facing severe adjustment impacts due to changing economic circumstances to identify options and responses that will create new economic opportunities, and to help the communities put the plans into effect.

Western Economic Diversification

Infrastructure

WED delivers the Infrastructure Canada Program (ICP) in Western Canada. The program was developed to meet the government's commitment to Canada's growth and the quality of life of all Canadians. Introduced in 2000, the program provides funding for physical infrastructure and will expire in March 2009. In partnership with provincial, territorial and local governments, First Nations and the private sector, the Infrastructure Canada Program is helping to renew and build infrastructure in rural and urban municipalities across Canada. The ICP is a national initiative, intended to complement and augment the existing capacity of provincial, territorial, and municipal governments to invest in physical infrastructure. It is expected that WED will continue contributing to the renewal of Canada's infrastructure through delivery of the new Municipal Rural Infrastructure Fund and key Canada Strategic Infrastructure Fund projects in the west on behalf of Infrastructure Canada.

Strategic Outcome

Entrepreneurship and Innovation – A competitive and expanded business sector in western Canada and a strengthened western Canadian innovation system.

Program Activity Descriptions

Business Development and Entrepreneurship

WED addresses the needs of small and medium-sized enterprises and entrepreneurs through a variety of service delivery mechanisms and partnerships. These include more than 100 offices of the Western Canada Business Service Network consisting of Community Futures Development Corporations, Women's Enterprise Organizations, Francophone Economic Development Organizations and Canada Business Service Centres. WED has created new and alternative sources of capital for small and medium-sized businesses by working closely with financial institutions to create a specialized series of loan programs under the Loan and Investment Program. These loan programs target industry sectors important to Western Canada, micro lending and targeted groups and provide patient and flexible debt capital on terms especially suited to the unique needs and cash flow requirements of these small businesses. These programs are provided on commercial terms by financial institutions such as chartered banks, credit unions, trust companies, the Farm Credit Corporation and the Business Development Bank of Canada. Each lending institution funds its own program and makes the decision on all loan approvals. WED's strategy in support of trade and investment involves activity in four key areas: research, trade policy, trade promotion and investment attraction. Activities vary from strategic participation in Team Canada missions to taking action when western companies are impacted in trade actions such as the softwood lumber dispute. WED has partnered with other federal departments, the provinces and local organizations to enhance overall support for trade and investment in the west through participation in such organizations as Trade Team Canada Inc., Regional Trade Networks, Provincial Trade Teams and Western Trade Officials. WED funding supports projects that result in industry collaboration, joint venturing and strategic alliances that support entrepreneurial development.

Innovation

WED's innovation focus is on economic development and diversification leading to wealth creation. Innovation is the process through which new economic and social benefits are extracted from knowledge. Through innovation, knowledge is applied to the development of new products and services or to new ways of designing, producing or marketing an existing product or service for the public and private markets. WED's approach to innovation recognizes that innovation occurs at the firm level, through a highly complex interdependent system that includes elements such as knowledge infrastructure, basic and applied research and development, highly skilled people, access to adequate patient financing, technology commercialization facilities, and support systems and mechanisms to link these elements to each other. The process of innovation is not linear or isolated but occurs within a broader context known as an innovation system. WED's goal is to strengthen the western innovation system in order to facilitate the development of clusters and to enhance the potential of innovation to create value and wealth.
